MATTER OF SCHOOL SITES CONSIDERED

Mayor and Commissioner Thornton Meet School Board—No Action at Present—Teachers' Request for Increase Not Accorded to.

At a meeting of the school board last night the matter of school sites was discussed with Mayor Schofield and Commissioner Thornton, who were invited to be present.

Dr. A. F. Emery, Dr. Emery, J. D. P. Lewis, George E. Day, E. R. W. Ingraham, Mayor Schofield, G. H. Green and Dr. H. S. Bridges spoke concerning the matter, but no action was taken and it was decided to delay action until H. C. Smith, chairman of the committee in charge, who is ill, could be present.

The King square site in West St. John seemed most favorable to all, but it was pointed out by the mayor that in order to obtain this site legislation would have to be passed. With regard to the Fenton and Johnson properties which were favored by Mr. Day, and which could be secured for \$4,600, the mayor said that a retaining wall costing about \$10,000, would be required.

Dr. Bridges said that an eighteen room building was required as Albert school has twelve rooms and there is an average of fifty pupils to a room. The secretary reported that there are 8,278 pupils enrolled, the percentage of enrollment in attendance being 91.88. The medical report showed that there are 8,278 pupils enrolled, the percentage of enrollment in attendance being 91.88. The medical report showed that there are 8,278 pupils enrolled, the percentage of enrollment in attendance being 91.88.

Mr. Day submitted the report of the committee in connection with the leasing of a school site in the North End, and he said that a retaining wall costing about \$10,000, would be required.

It was decided to have the lease signed when it had been approved by the board's solicitor, Miss Kate A. Kerr, and the board for her leave of absence. Leave of absence was granted to Miss Annie Gossnell and Miss Munroe.

Measures. McIntyre, Green, Smith, Leavitt and Dr. Bridges appointed a committee to draft a policy to be followed in all leave of absence cases.

Teachers' Salaries.

A letter from the Teachers' Association enclosing a schedule of salaries for female teachers, and asking that the increases provided by it should be granted, was received and was decided to decline the request for an increase.

The schedule placed the maximum salary of grade teachers at \$1200 and required teachers who had been thirty years in the service of the board to be given that maximum on January 1, 1921, for teachers in the high school the maximum was placed at \$1,700 for Grade IX, \$1,800 in Grade X and \$2,100 in Grade XI, with special consideration to be given teachers whose classes were composed wholly or partly of boys; for supervisors of special subjects the maximum was given as \$2,000 and for the teachers of special subjects \$1,800. The association also asked that the lady principals be put on the same basis as the male principals as regards salary.

HE PREDICTS CHEAPER SUGAR

Montreal Expert's View—Sees Heavy Loss for Canadian Refiners.

Toronto, Oct. 12.—Eleven-cent sugar within a year is the forecast of William Robertson, of Robertson Brothers, wholesale confectioners, here, made in an interview yesterday.

Granulated sugar by Oct. 20 will drop to seventeen cents a pound, wholesale, perhaps sixteen cents, according to Mr. Robertson, who is a recognized sugar expert. By that date the sugar beet crop will be on the market. The refiners, he said, would simply be forced to meet American sugar prices in order to get rid of their reduced stock and be able to handle the beet crop.

Mr. Robertson said the Canadian refiners would lose, at the very least, \$2,500,000 within the next two weeks.

Refiners Meet Men of Cabinet

Ottawa, Oct. 12.—Representatives of the refining companies in Canada met last evening with members of the cabinet again last evening the situation with which these companies will be confronted if price reductions in the United States are followed by large imports of sugar into Canada. The deputation had a conference which lasted for two hours with Premier Meighen, George Foster, and Hon. C. J. Doherty.

The refiners base their argument for protection against dumping of United States sugar on Canada on statements that they laid in large stocks of raws at high prices, that government control of exportation, which terminated early in last July, prevented them from disposing of the refined product in the United States and the fall in prices in the United States may prevent them from getting rid of the sugar without loss in Canada.

The falling prices in the United States has not so far been duplicated in Canada and some shipments of sugar have, it is said, been excluded from Canada by the operation of the anti-dumping clause of the customs tariff act. That clause provides for the application of special duties on commodities purchased at prices below the prevailing prices in the country of export.

In spite of this, however, some sugar is being imported. Refiners are evidently perturbed at the prospect of such importations continuing and aggregating large quantities of sugar. The situation, moreover, in view of the financial interests involved, is regarded as one calling for serious consideration.

ASKED TO TAKE BATH, CREW STRUCK

Constantinople, Sept. 20.—The crew of the Italian steamer Polacy went on strike upon the arrival of the ship here because the health officers insisted that they should take a bath before landing, as steerage passengers must do. The crew refused to bathe unless first class passengers were compelled to go swimming. The strike ended when first class passengers agreed to this.

Crew, steerage and first class passengers entered Bosphorus taking sea bath then returning to the ship which proceeded to Naples.

PLACE HALIFAX IN THEATRE OF WAR

Army and Navy Veterans' Proposal in Interest of Men Who Served There.

Victoria, B. C., Oct. 12.—(Canadian Press)—The third annual convention of the Army and Navy Veterans got under way here yesterday. Representatives from all parts of Canada are present, in addition to a large number of women delegates to the annual meeting of the Women's Auxiliary.

Sessions are to continue all week. Matters to be discussed include a proposal to have Halifax placed in the theatre of war, in order to enable the men who did service there during the world conflict to secure benefits similar to those derived by the men who served overseas; soldier insurance and civil re-establishment.

A SHORTAGE OF CLERGYMEN

Scarcity Also of Students for Orders in Church of England Reported.

Winnipeg, Oct. 12.—In the shortage of clergymen, the scarcity of students for holy orders and the meagre remuneration which is now being paid on the Anglican fields, the church of England faces a real danger of lapsing into efficiency, according to views expressed at the session of the ecclesiastical province of Rupert's Land here yesterday.

So far as that ecclesiastical province is concerned, no initiative will be taken for some time to come in the matter of placing the Lambeth conference reunion appeal before the church bodies. Archbishop Matheson, primate of all Canada, made this prediction.

HOW THEY ACCOUNT FOR GRAIN SLUMP

Minneapolis, Oct. 12.—Causes of recent slumps in grain prices, especially wheat, were explained by delegates attending the grain dealers national association, which opened here yesterday with more than 1200 members present.

Heavy importation of duty-free Canadian wheat, hedging sales by Canadians on United States exchanges and unusually heavy production of foodstuffs other than wheat, lack of recent foreign buying and heavy competition for loans, were among reasons cited by speakers.

Miss Ella Freda Andrews of Long Beach, Kings county, was united in marriage yesterday to Ernest E. Nagle of this city. The ceremony was performed at the home of the officiating clergyman, Rev. J. A. MacKegan.

AIRSHIP STRIKES MOUNTAIN PEAK; FLYERS ARE DEAD

Missing Since September 7, Bodies Frozen Stiff, Found Yesterday.

Geneva, Oct. 12.—The bodies of a Finnish army officer and an Italian pilot who were flying from Milan to Finland, and were missing since September 7, were found yesterday frozen stiff near the summit of Toedi mountain, nearly 12,000 feet high.

The machine had apparently struck the peak head-on and was partially buried in the snow.

A Woman Is As Old As She Looks

No woman wants to look old. Many in their effort to look youthful resort to the "beauty doctor." Their mistake is that they visit the wrong department in the drug store.

Beauty depends upon health. Worry, sleepless nights, headaches, pains, disorders and weaknesses of a distinctly feminine character in a short time bring the dull eye, the "crow's feet," the haggard look, drooping shoulders, and the faltering step.

To retain the appearance of youth you must retain health. Instead of lotions, powders and paints, ask your druggist for Dr. Pierce's Favorite Prescription.

This famous medicine strikes at the very root of these enemies of your youthful appearance. It makes you not only look younger but feel younger. It overcomes the weakness and builds you up.

Your druggist can supply you with liquid or tablets; or send ten one-cent stamps to Dr. Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a trial pkg. of the tablets will be mailed to you. Dr. Pierce's Favorite Prescription has been in use 50 years.

This is what one woman says:

BURMIS, ALTA.—"I am glad to be able to recommend Dr. Pierce's Favorite Prescription as I certainly think it is a splendid medicine. I have been run down and sickly for nearly two years. I have lately taken two bottles of 'Prescription' and found it a wonderful help."—Mrs. H. WOLSTENHOLME
