**OFFICES IN RITCHIE BUILDING**  
FORMERLY OCCUPIED BY CLIMO STUDIO LEASED.

Readers of The Times will be interested to learn that the spacious quarters in the Ritchie building, corner Princess and Canterbury street, formerly occupied by the Climo Studio, have been leased to Messrs. Regan and Gagnon, who are having them remodeled and equipped preparatory to opening a school of telegraphy. The school which will be known as the Western School of Commercial and Railroad Telegraphy will be under the direction of Mr. J. W. Regan.

Mr. Regan, who during the war served as a lieutenant in the R. A. F., was formerly in the employ of the Western Union Telegraph Company and is an operator of several years' experience. The field of commercial, railroad, and wireless telegraphy offers infinite possibilities and the opportunity to receive instruction at a school specializing in the teaching of telegraphy, by men of actual operating experience, should appeal strongly to ambitious young men and women.

There are as many different varieties of tea as of roses—but only ONE Red Rose Tea.

Red Rose is a blend of about a dozen varieties of teas, chiefly hill-grown ASSAMS—the richest and strongest tea grown.

The skilful blending of these teas produces the delightful and distinctive Red Rose flavor.

The rich, strong ASSAM leaves in the Red Rose package are so full of tea essence that three teaspoonsfuls go as far as five of ordinary tea.

The Red Rose combination of Quality and Economy is obtainable only in the Red Rose package.

**GUM TENDERNESS**  
—A TOOTH-MENACE

It is true that four out of five people over forty suffer from gum shrinkage, or Pyorrhea (Riggs' Disease). But many people even under thirty have Pyorrhea. Women, particularly after the baby comes, are peculiarly subject to Pyorrhea. At such time they cannot be too careful about their teeth.

Pyorrhea commences with tender gums, or with gum-bleeding, at tooth-brush time. Gradually the gums become spongy. They inflame and then shrink. The teeth become exposed to decay at the base and tiny openings in the gums become the breeding places of disease germs which infect the joints—or tonsils—or cause other ailments.

Beware of that first gum tenderness! Try Forhan's for the gums. It positively prevents Pyorrhea, if used in time and used consistently. No ordinary tooth paste will do this.

And Forhan's cleanses teeth identically as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 35 and 60c. tubes. All drug stores.
