CHANGED MIND ON TRIP.
New York, May 19.—There is nothing in the United States Immigration laws about a woman who changes her mind in mid-ocean, so Miss Violet Cooper, an English girl, who came to New York on the Mauretania the other day is now on her way back home. She started for America to marry an American soldier who had been her sweetheart in England, but thought the matter over during the

The Importance of an Easy-Running Bicycle for the Boy

A "BUNCH" of joyous boys and girls on a bicycle ride! How they do breeze along the smooth, level stretches! What fun! What exhilaration!

But pity that poor boy on the hard-running bike. How he has to pull on the handles and push on the pedals to keep up with those on the easy-running C.C.M. Bicycles. It's no joy ride for him.

And the strain is always there, to some extent, even when he only runs errands on his hard-running bike.

Overtaxing the strength of a growing boy or girl is to be avoided. It might lead to serious consequences.

Be safe. Buy your boy a C. C. M.

C. C. M. Bicycles for boys and girls are built of the same high grade materials and with the same skilled workmanship as the adult models.

They have the same special construction that gives the easy-running direct line drive—

The same case-hardened polished bearings that turn so smoothly.

The same strong, safe "Fish-mouth" reinforced frame.

And, of course, they have the new Hercules Positive Drive Brake—the Coaster Brake without a side arm.

There's a light, strong, easy-running bicycle waiting for your boy or girl at the C. C. M. dealer's right now. He will be glad to show it to you.

Also ask to see the new 18-inch Curved Bar Model—the bicycle the boy won't outgrow.
