

Exhibitions are awarded. For those who aim at passing only, a minimum course is appointed, and there are two examinations in the year as follows:—

(1) That held in the first week of June, concurrently with the examinations for Associate in Arts. Schools desirous to take advantage of this may send their pupils for examination to McGill College; or, if at a distance, by sending in to the Secretary of the University the names of Deputy Examiners for approval, with a list of candidates, on or before May 1st, may have papers sent to them. (2) That held at the opening of the session, on September 17th and following days, in McGill College alone.

In 1895 the following regulations with regard to the First Year Entrance Examination come into operation:—

1. Any candidate who fails in one and not more than one subject at the September Entrance Examination may pass an equivalent Examination at Christmas, or at the following Sessional Examinations, in the precise part of the subject in which he failed. In this regulation, Classics, Mathematics, and English are each regarded as a single subject.

2. The Entrance Examinations for the First Year will be held only in June and September on the days appointed in the Calendar, except in cases of severe illness or domestic affliction.

As the examination is intended as a test of qualification for admission to the classes of the University, certificates of passing are not granted except to those who subsequently attend lectures. Candidates who may have passed the examination are not "Matriculated," *i.e.*, enrolled on the "Matricula" of the University, until they have paid all the prescribed fees for the session and complied with the other University regulations. (See "Directions" below.)

FIRST YEAR ENTRANCE EXAMINATION.

(a) For Passing only.

Examinations begin on June 1st in McGill College and local centres; on September 17th in McGill College only.

Greek.—Xenophon, Anabasis, Book I.; Greek Grammar.

Latin.—Caesar, Bell. Gall., Books I and II.; and Virgil, Aeneid, Book I., Latin Grammar.

[The A.A. standard in Latin will be accepted for 1895, *i.e.* two books of Caesar will be required from all but the A.A. Candidates.]

Mathematics.—Arithmetic, including a knowledge of the Metric system; Algebra to Quadratic Equations (inclusive) as in Colenso; Euclid's Elements, Books I., II., III.
