

KENDALL'S SPAVIN CURE

THE SUPERNATURAL MASTERS

The following cases were found in a collection of "The Supernatural Masters" by Rev. Mr. Jones, of Boston, Massachusetts.

And with this I feel very much obliged to you, and I am sure you will be glad to hear of it.

For some time I have been troubled with a pain in my back, and I have tried many remedies, but I have not been able to get any relief. I have been told that you had a cure for this kind of pain, and I have tried your medicine, and I have been cured.

I feel very much obliged to you, and I am sure you will be glad to hear of it.

VALUABLE RECEIPTS

No. 1.—Take equal parts of soft fat, beeswax, linseed-oil, Venice turpentine, and Norway tar; melt the wax, then add the other ingredients, and apply to the edge of the hair once a day.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 3.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

SADDLE AND HARNESS GALLS

No. 1.—Take of opium, 8 ounces; castor oil, 1 ounce; mix, and apply twice a day.

No. 2.—Apply directly into the sore.

No. 3.—Take of opium, 1 ounce; castor oil, 1 ounce; mix, and apply twice a day.

The above cut is a good representation of the New Laboratory and Manufactory of B. J. Kendall & Co., Birmingham Falls, Vt., proprietors of the celebrated Kendal's Spavin Cure.

HINTS FOR HORSE OWNERS.

Sunflower Seed for Horses.

The sunflower seed is very healthy feed for the horse, and should be given in quantities about half a pint a day during the winter and spring, which will cause them to have a sleek coat, and will keep them in good health and spirit. It is considered by many who have tried it to be a preventative of heaves, and several have claimed to have cured heaves with it, as well as coughs and distempers. When used for heaves, mix one pint of seed with one quart of the mixture, and give it three times a day. Always remember to feed hay and water as you direct in the treatment of heaves in another place.

Hoof Care.

A horse with a poor hoof, many times almost a cripple. One of the most frequent causes of poor feet is in allowing the blacksmith to pare the hoof too much, especially in the spring, when the hooves should be pared under any circumstances.

Belly Horses.

The most effectual method of curing a belly horse is to feed him on a diet of hay and water, and to stop the circulation for a short time, may have this result. Unshoe the horse from the load, and turn him around several times until he becomes disengaged. Tie a string around the ear. Give a handful of grass, or a lump of earth or sugar, or if you can get any, give him anything which will have the effect to divert the attention so the horse will forget his work.

Hoof Destroyed by Feeding Potatoes.

It is claimed by some that bots will not live but a short time if placed in grated potato, and that horses have been relieved from attacks of bots by simply feeding four or six quarts of potatoes. At all events, it is well known that potatoes fed once a week are excellent for horses.

Quantity of Food Required for a Horse.

For ordinary work, a horse of average size should be fed 12 pounds of oats, or other grain feed, and 18 to 20 pounds of good hay; but, if driven on the road, 8 or 9 pounds of hay, morning and noon, and 8 or 10 at night, with the same quantity of grain.

Lice on Cattle, Horses, or Dogs.

To rid an animal of lice, apply a small quantity (the size of an ordinary pill) of mercurial ointment to some part which the animal can not lick.

Charcoal for Stomach.

Place an ear of ripe corn into the fire, and allow it to remain until it has become well charred, and feed this to your horse. It is much better than ordinary charcoal, and will give health and vigor.

Contracted Hoof or Sore Foot.

No. 1.—Take equal parts of soft fat, beeswax, linseed-oil, Venice turpentine, and Norway tar; melt the wax, then add the other ingredients, and apply to the edge of the hair once a day.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

Condition Powders.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

Liniments for Horses.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Colic.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Worms.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Diarrhea.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

For Ringworm.

No. 1.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

No. 2.—Take of castor oil, Barbadoes nut and soft soap, equal parts of each, mix thoroughly and rub the whole over the horse's back three or four times a week.

KENDALL'S SPAVIN CURE

The above cut is a good representation of the New Laboratory and Manufactory of B. J. Kendall & Co., Birmingham Falls, Vt., proprietors of the celebrated Kendal's Spavin Cure.

The great success which has been achieved with Kendall's Spavin Cure, in all parts of the United States, has never before been equalled, and is now considered by the first veterinary surgeons and most extensive horse owners in the country, to be the standard remedy for the spavin disease of the horse.

It is giving the very best satisfaction wherever used. It does not blister or cause any sore, which makes it a desirable liniment for use on man's well as on horse, and it is equally good for sprains, splints, ringbone, callous, sprains, swellings, galls, lameness, from whatever cause, in any part of the legs or limbs, and is also good for cuts, scratches, wounds, etc.

As a household remedy it has no equal; its effect on human flesh is marvellous. It is used with the most gratifying results in cases of lameness—as in rheumatism, sprains, strains, burns, bruises, frost-bites, corns, etc.

The increased demand for Kendall's Spavin Cure, within the past three years, has compelled the proprietors to build the large and commodious building, represented above, in which they manufacture and bottle the Spavin Cure. The building is especially adapted to their use, containing offices, and private offices, advertising, printing, manufacturing, bottling, and packing departments, and now even the Company with this spacious building, are finding themselves barely able to meet the great demand made on them for their preparations, and as a matter of fact they expect to have to enlarge their laboratories, as now a large amount of their work has to be done outside.

Such results had to be shown the great success already achieved, but we give below copies of a few letters from prominent men who have used the Spavin Cure, which show, plainly, in a few words, what reputation it has, by parties who are perfectly familiar with it.

Office of G. W. Voorhis, Proprietor Hamtramck Driving Park and Park House.
DETROIT, MICH., April 12, 1881.
B. J. KENDALL & Co., Genl.—The "Treatise on the Horse and His Diseases" you sent me is held, and I think it a very good book. Your Kendall's Spavin Cure I have used for the last three years, and think it the best medicine I ever saw for Spavin and Splint, and will freely recommend it to my friends.
Yours Respectfully,
G. W. VOORHIS.

FROM COL. L. T. FOSTER.
COLUMBIANA, OHIO, May 10, 1881.
Dr. B. J. Kendall & Co., Genl.—I had a very valuable Hambletonian colt which I prized very highly. He had a severe spavin on his right joint and a small one on the other, which made him very lame. I had him under the charge of two veterinary surgeons, who failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in "Chicago Dispenser." I took them all and thought I would give the cure a trial. I used it according to directions, and the fourth day the colt could go to work, and the fifth day he was perfectly sound. I used but one bottle, and I had got my horse back to his former condition. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it.
Very Respectfully,
L. T. FOSTER.

FROM A PROMINENT PHYSICIAN.
WASHINGTON, D.C., June 11, 1881.
Dr. B. J. Kendall & Co., Genl.—Reading your advertisement in "The Field and Farm" of Kendall's Spavin Cure, and having a valuable and speedy horse which had been lame from spavin for eighteen months, I sent you a bottle by express, which he used, and he was cured. I had a large and valuable horse, and a large amount of business, and both horses are today as sound as colts. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it.
Respectfully yours,
H. A. BERTHOFF, M.D.

KENDALL'S SPAVIN CURE.
