Synopsis of Canadian Northwest Land Regulations

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$100 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to carry homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$100 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$20.00.

RAILWAY MEN TO MEET IN MONCTON

Convention Will be Held on August 24—Ordination Service

MONCTON, N. B., July 20.—There will be a convention held in Moncton on August 24th, when members of the Canadian Brotherhood of Railway Employees will gather here to transact yearly business.

There will be ordination service at St. Joseph's College on Saturday next, when Rev. Albert Landry, of Memramook, will be ordained. Bishop of St. John, will conduct the services. Rev. Mr. Landry is a son of Hon. D. V. Landry, Commissioner of Agriculture.

Loyd Leaman was this afternoon sent up for trial by Magistrate Kay on a charge of assault laid by Napoleon Leblanc.

An interesting matter will come before the Western District Court on Saturday next, when the bi-annual session at Dorchester on Tuesday. The matter in session is the disagreement over the County Assessment. Warrant concerning the County small-boys bills, and delegation from the city council to try and adjust the difference existing between the city and county on small-boys bills. The city provides for its own small-boys bills under its corporate rights, and the city claim is that Moncton as a city should not be called upon to contribute pro-rata share to like bills from the county.

ODD DEATH CERTIFICATES

Certificates of death are not documents where one usually seeks for humor, but there is frequently to be found in them much of the unconscious variety. Here, for instance, is how the cause of death is stated in the case of a baby who died on the 14th of last month.

"Died from injuries received through a bull accidentally kneeling on his chest."

The consideration shown for the feelings of the bull is a fine touch and suggests some questions on the moral responsibility of the lower animals.

Again, a man is stated to have died from the effects of injury received from a train in motion owing to a misunderstanding between the driver and an engine driver. This description of a rather ordinary railway casualty is excellent—London Express.

MUSICAL INSTRUMENTS BARGAINS IN Upright Pianos

TORONTO

AMUSEMENTS

STRONG MELODRAMA AT THE NICKEL TODAY.

"A Country Girl's Peril" is one of the best melodramas yet produced in motion pictures, not only because the scenic effects and acting are so high in quality, but the whole playlet is so natural and possible that intense human interest is aroused in every watcher. The story deals with life in New Hampshire and the love affairs of a village smithy. His sweetheart and a villainous town sport are woven into the plot. The picture is a masterpiece of the kind. The special electrical effects have created much comment as well as the fine and dramatic scene. The picture is a prime favorite and the matinees are filled with small children who come to see the picture. The picture is a masterpiece of the kind. The special electrical effects have created much comment as well as the fine and dramatic scene. The picture is a prime favorite and the matinees are filled with small children who come to see the picture.

GREATEST SHOW YET.

Lamont's animal circus opened its engagement at the Princess yesterday, and to say that it was an immediate success would be no exaggeration. The animals do so simply marvelous. Austin Walsh is the funniest man here, he makes the people laugh when they want to or not. And Long-fellow is a scream. No one should miss seeing this show. This act has been up-to-date music by the orchestra.

THE H. H. H. SHOW AGAIN A HIT.

The Happy Half Hour show yesterday was just as big a hit as the day before. The Berlins repeated their previous success in a new comedy of opera. Today is the last chance to hear their present programme, and those who have not yet seen them are urged to do so today. Brown and Hodge were again loudly applauded and enjoyed. Nothing like this act has ever been seen here in the city before, and the chances are never will again, as this particular kind of an act is very rare in vaudeville. This act has been played in all the leading theatres of America. Many requests are coming in for the pictures which they drew so many that it is impossible to meet the demand. A new programme of pictures will be shown today. In the Happy Half Hour show they have ever shown. It is full of comedy and is such that both men and women will have to laugh. At the same time the dramatic interest is so strong that together with the riding of genuine cowboys, the interest is intense throughout the 1600 feet of film. Other pictures are showing the Tables, a comedy, and a Life For a Life, a drama. Remember no repeats are shown here.

TURKISH HAREM DRAMA AT "STAR."

The Star Theatre in North End is putting up a great attraction in the line of feature pictures these days and tonight the strong melodrama, "In the Sultan's Power," a story of the recent Turkish revolution, will be shown. It is a 1600 foot film, every foot full of spellbinding action. This feature is brand new and is engaged in by over one hundred people. There will be four other films of merit and Miss Ballard will sing a new song. The Star's new trap drummer is making things hum. He's a regular professional and comes from one of the best Boston houses.

LIKE MISTRESS, LIKE MAID.

"Have you ever noticed," asked the society woman, "that a lady's maid always acquires the same voice, over the telephone at least, that her mistress has? I don't know whether it is unconscious or deliberate, but I have noticed for a long time that whenever I ring up a friend I am answered by what I think is her own voice, but when I venture to say, 'Oh, good morning, Gertrude,' behold I hear Gertrude at all, nor Grace, nor Beatrice, but her very courteous maid, if, on the other hand, I say, 'I should like to speak to Miss Millions,' then it proves to be my dearest friend, who is, of course, chilly because I have mistaken her melodious voice for that of the maid."

Yes, they even change their voices with a change of mistresses. No, I don't know how they do it. I suppose it is the habit of being so adaptable. I should think some of them might even graduate on to the stage and do character work.—New York Press.

DR. A. J. MURRAY ELECTED PRESIDENT OF MEDICAL SOCIETY

At the afternoon session of the New Brunswick Medical Society yesterday a number of papers arousing great interest was read, and the election took place of officers for the ensuing year. Dr. A. J. Murray of Fredericton Junction was the unanimous choice of the society as its president. At the smoking concert, which was held last night in the Elks' rooms on Charlotte Street, Dr. Murray thanked his colleagues for the honor in the course of a well worked and racy address. He esteemed the honor, he said, done him as a representative of those who were working on the outskirts.

The hospitable nature of the entertainment given the visiting members of the society was a lot of enthusiastic comment on the part of the new president. The other officers elected were: First vice-president, Dr. C. T. Farley, Moncton; second vice-president, Dr. G. G. Melvin, St. John; treasurer, Dr. D. E. Berryman, St. John; cor. sec., Dr. J. S. Bentley, St. John; rec. sec., Dr. G. G. Corbett, St. John; trustees, Dr. T. H. Lunney, St. John; Dr. Percy B. Butler, McAdam, and Dr. C. H. Johnston.

Dr. Stewart Skinner presented the report of council of physicians and surgeons, which dealt with the bill known as the New Brunswick Medical Act. Speaking of the proposals of the act, Mr. Skinner said: "This section was introduced into the bill because it is believed that in the public interest, and for the protection of the public from imposture and ignorance, in matters literally of life and death, any man should be at liberty to practice as a physician until, as some guarantee of fitness, he has taken a course of study for at least four years in the subjects recognized by all medical institutions of standing as fundamental and essential, and also has had practical experience in a hospital for at least a year."

In the course of his report Dr. Skinner referred to the move toward increasing the time of study preceding registration.

Active steps have been taken to enforce the provisions of the Medical Act against the practice of unregistered practitioners, compelling them either to cease from practicing medicine or to fulfil the requirements of the law. The council are doing all in their power to aid the province of such that are not legally qualified, and they desire the members of the profession to keep the information of any illegal practitioners of medicine in their locality.

The council recognize the necessity of raising our requirements for registration to a five years' course of study, and have the matter now under consideration. Many medical colleges have raised their standard to five years before a degree will be conferred. In the United Kingdom and in the provinces of Ontario, Quebec, Nova Scotia, and in British Columbia after 1912, physicians are required to have taken a five years' course before they can be licensed.

A feature of the technical position of the afternoon proceedings was the paper read by Dr. Ogilvie of New York upon Exclusion of the Kneel Joint. Fegwick's operation was described by the society's guest, and his comments were spoken of as highly enlightening by Dr. M. McLaren, Dr. Atherton, Dr. Jas. Christie and Dr. T. H. Walker.

A general discussion followed the afternoon proceedings and the paper read by Dr. Ogilvie of New York upon Exclusion of the Kneel Joint. Fegwick's operation was described by the society's guest, and his comments were spoken of as highly enlightening by Dr. M. McLaren, Dr. Atherton, Dr. Jas. Christie and Dr. T. H. Walker.

HOMEMADE NAMES.

"That little girl," remarked the druggist to the doctor, "is just in for tea. But I've had it before and gave her benzoin."

"That was easy," answered the doctor. "This morning on a diphtheria case the woman wanted to know if I administered antitoxin with an epidemic syringe."

A REFLECTION.

"To my annoyance," she said, "I found he had a lock of my hair. How he got it I can't imagine."

The older girl smiled oddly. "When you were out of the town perhaps?" she hazarded.

MEXICAN STAFF OF LIFE.

The Tortilla is Their Bread—Frijoles Are Zolled Beans.

The tortilla is the ancient Indian bread of Mexico. Its only constituent is Indian corn (maize), which the women soak in lime-water until the kernels are at the point of bursting, then wash thoroughly until it is free from lime, when they grind it by rubbing it on a large block of stone, especially cut for the purpose, with a smaller stone which they hold in their hands.

The operation looks very much like rubbing clothes on a washboard and lime renders the corn dough adhesive, like wheat flour dough, and it is easily patted between the hands into cakes the size and shape of an ordinary griddle cake and is baked upon a thin stone griddle. Though no salt or leaven is added, fresh tortillas are exceedingly palatable.

The one other food material is frijoles—ordinary beans. They are added to a mush and with a liberal quantity of lard are warmed as required in a frying pan. The very poor people do not always have the luxury of frijoles and when they do have them cannot always afford the lard.

When death has come it is never our tenderness we repent of, but our severity.—Eliot.
