Havelock, Kings Co.: There is a flourishing home department in connection with the Sunday school at the head of Butternut Ridge Havelock parish, Kings Co. In the past it has been thought impracticable if not impossible to keep open this school during the winter months, but a wise, enthusiastic and persistent young lady, Miss Ethel Alward, has all the people in the community who do not attend the sessions of the school. On Friday evening, 14th inst., a rally of the members of the Sunday school and the home department was held at the home of the superintendent, where a prepared programme was carried out and a very enjoyable evening was spent. Pastor Brown of the Havelock Baptist church and his family were present. A vote of thanks was extended to Miss Alward for her noble perseverance in the work.

(From Our Own Correspondent.) BOSTON, Nov. 16 .- On the whole Boston has had rather an exciting week of it. The many developments in hree or four murder and assault cases, the decidedly lively sessions of the stock markets, where margins and profits were wiped out, with hair-raising suddenness, and the failure of the Central National Bank, all contributed to keep public interest far above formal. Perhaps the greatest shock of all, however, was the portentious declaration of the Halifax Chronicle, in which Canadians were admonished to see to it that they be not found defenceless when the enemy over the southern border sets out on its expedition to conquer the dominion. Per-haps the appeal of the Chronicle, which was published all over the United States, was the leading factor in the Thursday. unsettling of Wall street, for the stock market has been in a demoralized state for several days, and speculators felt without his sanctum and the confines of his constituency. The agitation in New England fishng circles against the Bond-Hay treaty continues. Fishing ports in Maine are now on their mettle, and in Maine are now on their mettle, and in view of the feeling at Gloucester it seems probable that the treaty will receive some hard knocks when it comes up in the senate for ratification. The protest against it will be backed up by the fishing interests of New England, which have 220 000 000 invested, employ which have \$20,000,000 invested, employ 35,000 men, and own nearly 1,500 vessels. A government cutter is maintained in commission for the protection of the fishing industry, but the fishermen say that this vessel is always dodging around looking for stray lobsterers in stead of paying attention to matters which are of real importance, and the most important point in connection with the Grand Manan fishing is the stopping of the system of thiever; which is going on.

NIGHT BOAT ON THE RIVER.

Steamer for That Purpose Practically Purchased—People's Line Getting New Boat for Washademoak.

A night service on the St. John River between Fredericton and this city, predicted in the Sun some time ago, is now practically assured. on of most of the river companies outside of the Star line are interested in the project and have in view a steamer now in service on the great lakes.

The boat, which will probably be purchased and brought here in time for the opening of the navigation next year, is the City of Owen Sound, an 18 knot sidewheel steamer of 141 feet over all, with a draft of six feet. She is lighted with electricity and heated with steam throughout and has 32 staterooms with sleeping accommodations for 80 persons.

With the competition that this boat will offer on the main river and that rate cutting next summer. The People's line men say they are by no means dismayed by the opposition pre-sented by the Princess Co. They have practically concluded arrangements which will give them possession of an upper Canadian sidewheel steamer of about the same dimensions as the one to be used on the night route. She is expected here before the St. Lawrence-

River closes.

With the new boat, which will have a speed of fifteen knots, they say they will run the usual three trips a week unless the opposition line should force them to increase the number. They are determined to hold the Washademoak trade. So are the backers of Halifax Recorder: Dr. and Mrs. Sheffield of St. John are in Halifax, and are staying with Mrs. Smith, 39 Spring Garden road.

II. W. Schoffield, St. John, and Rev. and Mrs. J. A. Glendenning, Moncton, were registered at the high commissioner's office.
