Marvels of Man. sweetish taste, it possesses the power of di- birds in the economy of nature :lowed. It has no influence whatever on the fibres of the living animal, but at the away with the power of the strongest acid. There is dust on sea and land-in the

coating as impervious to the liquids necessary for keeping the eyeballs washed clean as the best varnish is impervious to water, The breath which leaves the lungs has been so perfectly divested of its life-giving properties, that to re-breathe it, unmixed with other air, the moment it escapes from the mouth, would cause immediate death by suffocation; while if it hovered about

is precisely the same as that between tips of the fingers when the arms are stended. The length of the body is just e chin is one tenth of the length of the

Of the sixty-two primary elements known in pature, only eighteen are found in the human body, and of these, seven are metal ic. Iron is found in the blood; phosporus the brain; limestone in the bile; lime in the bones dust and ashes in all. Not only these eighteen human elements, but the lole sixty-two, of which the universe i nade, have their essential basis in the four substances -oxygen, hydrogen, nitrogen and carbon-representing the more fa miliar names of fire, water, saltpetre and charcoal. And such is man, the lord of the earth-a spark of fire-a drop of water-s grain of gunpowder-an atom of charcoal But, looking at him in another direction, these elements shadow forth the higher qualities of a diviner nature, of an immor tal existence. In that spark is the caloric which speaks of irrepressible activity; in that drop is the water which speaks of purity: in that grain is the fore; by which he subdues all things to himself-makes the wide creation the supplier of his wants and the servitor of his pleasures; while in that atom of charcoal there is a diamond, which speaks at once of light and purity; of indestructible and restless progress. There nothing which outshines it; it is purer than the dew drop. "Moth and rust" corrupt it not; nor can ordinary fires destroy it while it cuts its way alike through brass, and adamant, and hardest steel. In that light we see an eternal progression towards omniscience: in that purity, the good of di vine nature; in that progress, a steady asconsion towards that home and besom of

Spare the Little Birds. We have often had our patience sorely law, for slaughtering the small birds that to conquer—the South fight for their homes into these and pressed; then removed and groves vocal with song. To any thinking a dollar who was two years ago independent person such a practice is as absurd as it is ly rich. Butler the Beast, at New Orleans, inhuman; for what can be more foolish made himself rich by robbery-having sevthan to see a great hulking fellow pause, deliberate, then steal cautiously up, and fire at a little wren or chirping bird that he might hold in his hand? Such an achievement is a wonderful display of sportsmanlike qualities, and if persisted in will breed a race of Nimrods of which the world never seen the like. We think, however, that boys, in particular, shoot birds more from thoughtlessness than any other motive; and they should be restrained from so doing by their parents and others who have influence over them. If children of large and small over them. If children of large and small growth will only reflect a moment, they will a new metallic alloy has been taken out in growth will only reflect a moment, they will seen that for her to die was gain, and that after a lingering decline and much severe suffering, having glorified her God and Saviour by her meak submission, her joy in the promises of the Gospel, her faith and patience, her repeated testimony on behalf of vital piety, her perfect readiness to depart and her triumphant confidence in him who is the resurrection and the life, she fell asleep in Jeans. growth will only reflect a moment, they will a new metallic alloy has been taken out in see that the bird in the bush, is in a literal England by A. JAMES CONNERY, Town Clerk.

Philadelphia, Aug. 23. The U. S. Supply steamer Arkansas arrived at the Navy Yard to day from the South Atlantic blockading squadron with 17" prisoners passengers. She left Charleston on Wednesday morning and reports that the navy and army shore batteries have done tremeadous destruction on Fort Sum-ter. The south and east face looked like honey comb, and a complete demolishment of the walls is looked for in a week. The Arkansas experienced very heavy weather from Charleston to the Capes of Virginia. Philadelphia, 23.

At 6 o'clock Admiral Dahlgren proceeded on board the Weehawken and with the Ironsides and entire Monitor fleet, attacked the batteries of Wagner and Gregg with great fury completely silencing Wagner and almost silencing Gregg. The wooden gunboats, seven in number, also joined in the assault and enabled all of the shore batteries to pour their shot and shell into Sum-

At 10 o'clock the Admiral changed his Flag to the Passaic and with the Patapsco proceeded to within 1400 yards of Sumter and shelled the sea wall with the rifled guns of those vessels for about an hour with marked effect. Sumter fired about fifty shots doing no damage to the vessels, whilst the wall of Sumter was badly scarred.

Fleet-Captain, Geo. W. Rodgers, took command of his old vessel. The Monitor vate letter, from Texas, one of the Confed-Catskill went up into the fight, going witherate States, and which has been received in 150 yards of the beach front of battery lately. It shows the feeling of the people in that State, and gives a few of the market interior lining, which struck on the head of prices as a sample of the tremendous height commander Rogers, instantly killing him, every article of necessity has risen to. It as well as Paymaster Woodbury, who was

Quebec, August 24, 1863. The Speaker took the chair at 9 o'clock. On motion of Sir F. N. Belleau, a return was ordered to be made of the correspond. ence which has taken place between the government and Mr. Gibbard, and Mr. Whitcher, on the subject of the the recent difficulties on the Manitoulin Island. Hon Mr. Seymour introduced a bill to imit the area of towns and villages.

On motion of Hon. Mr. Alexander, Select Committee was appointed to take into further consideration the subject of im-On motion of the Hon. Mr. Allan, the protests on Bills of Exchange was read a econd time.

The House then adjourned.

LEGISLATIVE ASSEMBLY. Quebec, August 24.
The Speaker took the Chair at three

Before the order of the day were called, Hon. Mr. Brown called the attention of the government to a correspondence appearing in the Montreal dizette of that morning, from which the inference was drawn, editorially, in the same journal. that certain members of the Government had offered to pay the Grand Trunk \$150 condition of receiving the support of that Company during the recent elections. Hon. Mr. Holton, Hon. Mr. Dorion, and Hon. J. S. Macdonald made statements in which they contradicted the truth of the allegations. The subject was still under

discussion when our report left. LEGISLATIVE COUNCIL. Quebec, August 25.
The Speaker took the chair at three

LEGISLATIVE ASSEMBLY.

Quebec, Aug. 29. Last night after our report left, the vote was taken on the Hon. Mr. Sicotte's amendment on the twelfth paragraph of the address, with the following result :- Yeas, 60; Naya, 63.

The twelfth to the seventeenth paragraph Jan., 1863. inclusive were then agreed to.

On the sixteenth paragraph being read,
Mr. Currier moved that the following be
March 12 added to the end thereof: that we think it our duty to take the earliest opportunity of expressing our opinion that the public interests will be best served with the comletion, with all necessary speed, of the gov ernment buildings at the city of Ottawa, which her Majesty has been pleased to se lect as the metropolis of Canada; and that until these buildings are ready for occupation, a due regard to economy makes it ex-pedient that the Seat of Government should be retained at the city of Quebec.' After some debate the amendment was

withdrawn. Paragraphs sixteen and seventeen were

On the eighteenth paragraph being read, Mr. Ferguson, of South Simcoe, moved the amendment by adding: "But at the same time, we must express our surprise that others, praying to have the Government althis Province, by which the important fact is established that the population of Upper Canada exceeded that of Lower Canada in the month of February 1861, by not less than 285,427 votes; and as the execss in population in Upper Canada was only 61,-773 at the last census in 1852. It appears that the disproportion is fast becoming greater every year, and that the continuance of a system which gives to the two sections an equal number of representatives in the Legislature is in view of these facts manifestly unjust and fraught with danger Nev. 3 to the peace and good government of the country. We therefore deeply regret that His Excellency has been advised to recommend for our adoption some measure for securing to this large population of Upper Canada their rightful share of the Parliamentary representation, and their just influence in the government.
