CHURNS! CHURNS!

Labour Saved in Money Gained.

MESSRS. TAYLOR & TWEEDY of Smith's Falls, have at considerable expense and trouble obtained from the inventor the Patent for the

Best Churn Power

ever offered to the public; it is worked by a Crank and Rotary Lever, with the greatest ease, and is adapted to the use of the Old Dash Churn, which notwithstanding all the new inventions, has proved to be the best for making butter.

If you wish to afford your children amusement, and at the same time make them highly useful, buy one of the

New Churning Machines.

As their power is such they may be worked by a mere child, and will make Butter in much less time than the ordinary way.

Their simplicity, convenience and cleanliness elicits the praise of all. They work slow or fast, or with as short or long a stroke of the Dash as required. It occupies little space and may be removed at pleasure.

In fact it only requires to be shown to be appreciated, and should be in the possession of every Butter maker at once!

Farmers! you can spare your families labor, save your time, and thus save your money, by buying one of the cheapest and best of Churning Machines. They are different sizes, and sold on terms to suit purchasers.

Saleable Produce and old iron taken in exchange, or a discount for Cash. On exhibition by the Agents:
