WIND ON THE STOMACH QUICKLY RELIEVED.

It is a good thing to know just what to do when gas belching starts. One sufferer related the following experience: "A few months ago I ate some green vegetables and some fruit that was not quite ripe. It brought on indigestion, hiccoughs, nausea and cramps. I belched gas continually. A neighbor urged me to use 'Nervine.' I took it in hot, sweetened water, and found relief. I will never again be without this valuable remedy." Nervine is a household necessity. Large, 35-cent bottle sold everywhere.
