PIANOS TUNED AND REPAIRED.

THE LIGHT RUNNING ROYAL Sewing Machine.

In the history of the ROYAL Sewing Machine, from the first day its name was first given, the machine has made 25 years of history. All the time it has been able to give its name to the most successful, reliable and best-sold.

The name is large and strong, and has a fine reputation, and now it is able to make people like it when they have given it a trial.

To good men we can give the best inducements to make money, and also their entire territory.

Be sure and use the ROYAL before you purchase a machine.

Those who have not given it a trial should be sent to see it.

Apply to the Manufacturer, or any of the Branch Offices.
