## Amatite ROOFING

Better Than Shingles

THOUSANDS of people buy shingles for their roofs rather than face the prospect of painting a ready roofing every year or two.

Shingles are expensive, but they are actually cheaper during ten years than a ready roofing which needs frequent painting to keep it free from leaks.

Amatite roofing costs less than half as much as shingles and does not need painting either. It is easier to lay and will give years of long hard service without any care.

Amatite has a real mineral surface. That's why it needs no painting. Once laid on your roof

your building has real protection.

Amatite is easier to lay than ever this year. The liquid cement for the laps does not require heating before use. A three-inch smooth margin is left at the edge of the sheet so that the laps will be tight fitting and easily cemented. The large headed nails which we furnish save fussing with caps, which rust easily.

Amatite is up to date. Send for a Sample and look it over. You'll never buy any other.
