

Massey-Harris Drills Can Be Depended On

The work of a Drill can only be accurately judged at harvest time, for it's results that count.

It's worth while, therefore, to select a Drill that has a reputation for reliability as proved by actual results, and you will save yourself a lot of worry and uncertainty.

MASSEY-HARRIS DRILLS have been in use for many years in all parts of the grain-growing world and have won a very enviable reputation for

"A good start is half the Battle." Sowing your grain with a Massey-Harris Drill is a big factor in securing a good start of grain and a bountiful harvest. Uniformity in sowing is a characteristic of all Massey-Harris Drills. They sow the desired quantity at the desired depth and always cover satisfactorily.

their satisfactory work under varying conditions. Perhaps the best proof of their superiority is the steadily increasing demand for these Drills. Where most used they are most appreciated.

They are made in a great variety of styles and sizes to meet all sorts of conditions:—Hoe Drills, Shoe Drills, Single and Double Disc Drills, Fertilizer Drills, etc., so that no matter what your requirements there is a Massey-Harris Drill to suit.

Get the light-draft

"Bissell"

Don't make your horses wear out their energy dragging one of those common hard-running land rollers. Hitch them to the light-draft "BISSELL." The "BISSELL" runs easier than other land rollers, because it has large $\frac{1}{2}$ inch roller bearings instead of the usual $\frac{3}{8}$ -inch diameter. And because the bearings are encased in solid, one-piece malleable cages, whereas ordinary cages are of pieces riveted together. Our solid cages keep the bearings straight in line, whereas riveted cages soon twist out of shape and allow the bearings to grind, causing heavy draft. And because the heavy 2 inch solid steel axle revolves with the drums the "BISSELL" is so nearly frictionless that

oiling is scarcely ever necessary. The "BISSELL" is staunchly built. It is the only roller with steel plate bottom in the frame. Compare the "BISSELL" with any other roller, especially at work in the field, and you'll quickly decide to buy the "BISSELL." Send to Dept. W for booklet containing full description of the 6-, 8-, 9-, 12-ft. lengths. We also make a Grass Seeder Attachment for use with the "BISSELL."

And don't believe any roller is the "BISSELL" unless the name "BISSELL" is stamped on it. We tell you that for your protection.

Peerless Fences cost the least per year of service

THE longer a fence lasts the less it costs you. That is why Peerless Fence is the cheapest you can buy. It is made right in the first place. Heavy steel wire, well galvanized so that it cannot rust. Each intersection is held firmly together by the Peerless lock. Peerless Poultry Fencing is made to give long and satisfactory service. It is strong enough to keep the cattle out and close enough to keep the chickens in. It requires few posts, because it stands stiff and taut. Peerless Lawn Fence will add to the appearance of any property. It is attractive and strong—will last for years.

I have compared some of your Peerless Fencing that I put up the first year with other fences put up the same year and I find that Peerless Fencing shows no sign of rust, and the galvanizing looks as good as when erected, and I think you have been successful in turning out a good fence.

—Mack Lillis, Glenburnie.

Comparing your fence with other makes it is not hard to tell which is the best. There is no sign of rust on the first Peerless Fencing I put up here, and there are some other makes that were put up about the same time that are rusted in spots now. Where I have sold fencing once I can go back and sell to them again.

—G. A. Petapide, Oxford Mills.

We manufacture a full line of farm and ornamental fencing and gates.

THE BANWELL HOSIE WIRE FENCE CO., Ltd.
Dept. B, Winnipeg, Manitoba Hamilton, Ontario

VANCO LEAD ARSENATE

Kills Codling Moth and Leaf-eating insects every time.

VANCO contains a guaranteed amount of Arsenic Oxide. Simply mix VANCO LEAD ARSENATE with water and you have a spray that is sure death to Codling Moths, Potato Bugs, Cabbage Worms, Asparagus Beetle and all other leaf-eating insects.

Easy to spray—will stand two or three rains without washing off—and will not burn the foliage.

Absolutely guaranteed in quality and strength. Made in Canada. Factory near at hand, means low prices and less freight.

Write for prices and free book on spraying.

FERTILIZERS—We also sell Nitrate of Soda, Muriate of Potash, Sulphate of Potash and Acid Phosphate.

Chemical Laboratories Limited
126-136 Van Horne Street, Toronto.

POTASH MEANS PROFIT

During the fiscal year, ending March 31st, 1910, the consumption of Potash in the form of

Muriate of Potash and Sulphate of Potash

increased 89% over the previous year, which testifies to the beneficial effects attending the use of POTASH on all crops. Order your Potash supplies early from reliable fertilizer dealers or seedsmen.

We cannot sell you fertilizers, being engaged exclusively in educational propaganda work, but it is our business to advise you how to purchase and use fertilizers economically.

We can arrange for a limited number of free addresses on the fertilizer question to farmers' meetings in Ontario. Apply without delay to B. Leslie Emslie, P. A. S. L., F. C. S., 1105 Temple Building, Toronto.

Write us for Free copies of our Bulletins, which include: "Artificial Fertilizers: Their Nature and Use." "Fertilizing Orchard and Garden." "Farmer's Companion." "Records of Fertilizer Experiments." Etc., etc.
