## MERCHANTS PRODUCE CO.

**Butter Eggs Poultry Honey  
Beans Apples Potatoes, etc.**

Our constantly growing trade demands large supplies of choice farm produce. We need yours. Write for weekly market letter.

**57 Front St. E., Toronto**  
Established 1899

Clerk (to Patent Medicine Man)—Here is a curious testimonial from one of our customers.

Medicine Man—Read it.  
Clerk—"Before I took your elixir my face was a sight. You ought to see it now. Send me another bottle for my mother-in-law."

## WINDSOR DAIRY SALT

### Is The Cheapest You Can Use

not alone, because it is the purest and best salt for salting butter. But because it will salt more butter, pound for pound, than any other salt you can use.

The big creameries will tell you this—and show you tests to prove it. The Agricultural Colleges demonstrate this every day.

Every farmer and dairyman—who is getting good prices for butter—is using Windsor Dairy Salt.

It is pure—it makes beautiful butter—it works in quickly—and it is the cheapest in the end. Just try it yourself.

### GOSSIP.

H. F. Hudson, of the Dominion Department of Agriculture, in referring to an article on the "Chinch Bug," which appeared in our issue of May 30th, page 1017, and who is now working on this insect, informs us that he would be pleased to hear, through "The Farmer's Advocate," from farmers, relative to the extent of injury to their pastures by the insect, and also as to whether or not its presence has been detected in any fields this spring.

Gerald Powell, commission agent and interpreter, Nogent-le-Rotrou, France, who is well known to horsemen in connection with the trade in Percheron and Belgian horses, informs us that all the winners at Calgary and Edmonton shows in the Percheron class, including both stallions and mares, with one exception, were bought through him. He has just made a shipment to L. T. Lyster, of Richmond, Que. This speaks well for Mr. Powell's judgment. Anyone wishing to import Belgians or Percherons from France should see his advertisement in another column.

Attention is called to the change of advertisement in this issue of Ormsby Grange Stock Farm, D. McEachran, proprietor, Ormstown, Que. Some extra choice Clydesdale fillies, and a two-year-old stallion just imported from A. & W. Montgomery, of which Mr. McEachran says, "This lot is the best I have yet had bought for me, and they are all in salable condition, having stood the journey well," are offered. This stock must be sold immediately to make room for a large importation in September, for the purchase of which Mr. McEachran is making a trip to Scotland in August. Look up the advertisement, and inquire about these good animals.

H. M. Vanderlip, breeder and importer of Large English Berkshires, Cainsville, Ont., in making a change of advertisement, writes: "Inquiries for Berkshires continue to pour in, and sales have been good, having sold over 50 head since January 1st, to as many satisfied customers. Most of our brood sows offered have been sold, and we only have two or three left due to farrow in September and October. Our stock at present comprises gilts and boars under six months from imported stock, and customers may rest assured of fair treatment. Money returned cheerfully if the purchaser is not satisfied with the selection made for him." See the advertisement in another column.

### BOOK REVIEW.

#### FEEDS AND FEEDING REVISED.

In 1898, Dean W. A. Henry, of the Wisconsin College of Agriculture, published his first edition of "Feeds and Feeding." In 1910, the tenth edition, revised and entirely rewritten, was issued. The twelfth edition of 10,000 copies has just come from the press, and the one before us is a volume invaluable as a reference, and containing results of innumerable experiments. All the information of former editions has been enlarged upon, revised, and rewritten. Later and better material supplants some of the experiments reported in earlier editions, and the new edition is a great improvement.

Feeds and Feeding is now printed in three languages. In 1907, a Portuguese translation by P. H. Draenert, Sao Paulo, Brazil, was published. A Russian translation prepared under the direction of Paul Dubrovsky, editor of "Agriculture and Forestry," by order of the Russian Government, for use of the Imperial Parliament of Agriculture, and for schools, was published at St. Petersburg, Russia, in January, 1912.

Practically all of the agricultural and veterinary colleges of America, and many of the secondary schools of agriculture, use Feeds and Feeding as a text and reference book. It is found in many of the public and school libraries, and thousands of copies have gone into the libraries of farmers and stockmen.

This latest edition may be procured through this office at \$2.25, postpaid.

# To Stock Breeders

## ANNOUNCEMENT OF EXTRA CASH PRIZES AT CANADIAN NATIONAL EXHIBITION, TORONTO, 1912

To every owner of an animal (horses, cattle, sheep or pigs) winning a first prize at the Canadian National Exhibition at Toronto, 1912, that was fed regularly with the original Molassine Meal, made in England, we will give

## \$25.00 IN CANADIAN GOLD

as an extra prize. The only condition is that the animal must have been fed regularly from July 1st, 1912, up to the time of the Exhibition on Molassine Meal to the extent of not less than **three** quarts per day.

The only proof we require is a certificate from your dealer stating the amount of Molassine Meal you purchased.

# MOLASSINE MEAL

The best feed for Live Stock known to Science

There is hardly a Farmer, Race Horse Trainer, Stock Breeder, Horseman, &c., in the British Isles that does not use Molassine Meal regularly for his stock

MOLASSINE MEAL is a food and replaces other food stuffs. It will keep all animals in good health. Prevents and eradicates worms.

The Original Molassine Meal, made in England, bears this Trade Mark on every bag.

**HORSES** will do more and better work, keep in better health and do not chafe from the harness so much when fed on Molassine Meal. Is equally suitable for heavy draft horses, hunters and race horses, and will bring Show Animals to the pink of condition quicker and better than any ordinary methods of feeding.

**MILCH COWS** will increase the flow and quality of their milk and make rich flavored butter and cheese, and will prevent any taint in the milk when cows are fed on roots.

**STOCKERS** can be fattened quicker on Molassine Meal than anything else. It aids and digests their other foods and keeps them free from worms.

**PIGS** will be ready for the market ten days to three weeks earlier when fed on Molassine Meal than when fed on any other food.

**SHEEP AND LAMBS**, fed on Molassine Meal, produce the finest mutton and meat obtainable, securing top prices.

**POULTRY** will fatten quicker and the hens will lay more eggs when fed on Molassine Meal.

MOLASSINE MEAL is put up in 100-lb. bags.

Order from your nearest dealer but be sure and get the genuine. Be sure that the trade mark is on the bag, as above.
