

New Improved DE LAVAL SEPARATORS

DAIRY SIZES
\$40.00 to \$175.00

There is no difference in the quality of the ten styles and sizes of De Laval separators: the difference in price simply indicates a difference in size or capacity. Uninformed buyers are sometimes induced to buy an inferior separator because it is offered at a price below that of the prevailing size of De Laval in use in the district. If they had ascertained by test the actual capacity of the machine purchased they would have learned that for less money a De Laval of equal or greater capacity and infinitely superior mechanical construction could have been purchased.

Intending purchasers are advised before buying to secure the free trial of a New Improved De Laval through the Company or its nearest agent and thus familiarize themselves with the standard by which creamerymen and dairymen of international repute have measured every other cream separator and found it wanting.

on FARM and TOWN

Telephones and Switchboards

Poles, Wire, Brackets, Insulators, Tools, Lightning Arresters, Ground Rods, Batteries, Insulated Wire, and everything necessary.

NO CHARGE for our experts' letters of advice, drawings, explanations, instructions, telling you in any language, non-technical, just how to build, own and operate your rural, town or long distance lines in a good but economical way and at a profit, thereby getting your own telephone free.

We are the largest, exclusive and the only bona-fide independent Telephone and Switchboard makers in Canada or Great Britain.

Our Telephones are extensively used in Canada, England, France and by the U. S. Government.

Our great illustrated book on the Telephone sent Free to anyone writing us about any new Telephone lines or systems being talked of or organized.

We have a splendid money-making proposition for good agents.

The Dominion Telephone Mfg Co., Ltd. Dept. Q. Waterford, Ont., Canada.

A Model Kitchen

With our forefathers the hearthstone was the centre of the home—the special sphere and pride of the housewife. Here all her talents as a home maker found full expression. Here before the great hearth—whose flue kept the air as pure and clean as the fresh scoured tiles—she prepared the great white loaves—the delicious flakey brown pastry—the roasts whose juicy tenderness made her simplest meal a feast—

Have a kitchen you can *always be proud of*—always clean and sweet—always free from stuffy, smelly air—always cool.

Have meals you can *always be proud of*—everything just browned to a turn—never over-cooked—never under-cooked—always just right.

The Wonderful Oxford Economizer

guarantees such a kitchen—such meals—always.

The Oxford Economizer sucks all the foul air from the room just like the old-fashioned chimney, leaving it sweet and pure.

It gives you an even, steadier fire than ever before known.

It insures the best results in cooking always.

It saves you at least 20% of your coal bill in real dollars and cents.

It is the most remarkable device ever found on a cook stove.

Yet this is only one of the special features found only in

Gurney-Oxford Stoves and Ranges

There are many others, each one of which will save you time, money and inconvenience. Send the enclosed coupon, mentioning whether you are interested in a steel or an iron range and let us send you our book on how to save time and money in your kitchen.

How Weather Changes Bring Death to Roofing

The life of Roofing is Saturation and Coating. Yet this vital part is sorely neglected by nearly every Roofing maker. The Basis of most Roofing, except Brantford, is wood pulp, jute or cotton-cloth—all short fibered. When it passes through "Saturatory Process," it does not become actually saturated—merely coated. This "Coating" is of refuse and quickly evaporates—wears off—exposing foundation to savage weather. It absorbs water and moisture, and becomes brittle, cracks, rots and finally crumbles. Even when new it softens under heat, sags and dripping. But the Foundation of Brantford Crystal Roofing is a heavy, evenly condensed sheet of long fibered pure Wool, saturated with Asphalt, which is forced into every fibre—not merely dipped. It is heavily coated with time-defying, fire-resisting Rock Crystals, which require no painting. This special Coating cannot evaporate and protects insides. Brantford is indestructible, pliable, tight, water, weather, spark, acid, alkali, smoke, fire-proof.

Brantford Roofing

cannot absorb moisture, freeze and crack in cold weather, or become sticky and lifeless in hot weather. Brantford Crystal Roofing is not the kind all manufacturers care to make, because it costs extra money, yet it costs you no more than short-life Roofing. Roofing Book and Brantford Samples are free from dealer or us. Brantford Asphalt Roofing, Nos. 1, 2, 3. Brantford Rubber Roofing, Nos. 1, 2, 3. Brantford Crystal Roofing, one grade (heavy) Mohawk Roofing one grade only
