It was indeed a "brilliant ceterie" as one paper said. Do anything you think best, but let the A.E.A. be only these to the end, and then take some other name.

Give my love to them all, and let's held tight together all the tighter for the one that's gone. Casey called me the "little mother of us all", and so I want to be; I love all our boys, and there can't be any others just the same, etc.
