COUNTY AND DISTRICT.

A consent judgement for \$4200 was entered on Monday in favor of Mrs. James Banks, of Orangeville, against the Canadian Pacific Railway Company. Mrs. Banks sued the company on behalf of herself and two children for damages for the death of her husband in the Caledon wreck that occurred last summer.

How to Remove Warts—It's really a simple matter to remove warts and calluses if you apply Putman's Corn and Wart Extractor. Cure is certain—failure impossible—if you use "Putman's."

Medical reports say there are 15,000 to 20,000 cases of tuberculosis in the province of Ontario. It is intended after this to have compulsory notification in cases of tuberculosis as in other contagious diseases. It is also proposed to organize County Boards of Health, to meet annually, and to have jurisdiction in tubercular troubles. The latest medical knowledge should be employed to fight consumption.

To cure Sniffing Colds—The easiest and pleasantest cure is "Catarrhzone" which fills the nose, throat and lungs with healing balsams and pine essences that kill a cold instantly. You experience a pleasant sensation of relief at once. Soreness, congestion and irritation leave the nose and throat, the head is cleared and every trace of cold or Catarrh is cured. Catarrhzone is so sure, so pleasant, such a safe remedy for winter ills that you can't afford to do without it. Sold by all dealers, 25c and \$1.00. Get Catarrhzone to-day.

In a certain Ontario municipality there was a dispute between the printer and the council about the printing. The printer wanted \$65, the council wanted him to do it for \$50, so the matter was referred to the Peterboro Review as an arbitrator. That paper furnishes supplies just the same as the Municipal World. They replied that they would do the work for \$119, and this is about the actual value of the work that has been done for scores of municipalities while the amount received by the home printers has been less than one-half what the job is worth.

Pity This Roor Girl.—Growing fast—yes, into weakness, but without strength. Tired of course she is—pale and thin too. She doesn't eat enough and digests far too little. This condition is so common, but how seldom noticed even by fond parents. Give her Ferrozone—then watch her appetite improve—see her cheeks and lips grow ruddy—watch her spirits rise. This gain is simply the result of eating and digesting enough, and thereby nourishing blood, brain and nerves. To a woman Ferrozone restores strength she has lost—to a girl it brings strength perhaps she never knew. You will try it. 50c at all dealers.

There are still some people in this world who get annoyed if a merchant or business man of any kind sends them a statement of an account with a request to pay up. It makes no difference whether the account has been running 6, 12 or 18 months; they are mad when asked to pay. The trouble with these people lies in the fact that they do not know anything about what it means to have a lot of money standing out on open accounts. The farmer expects and gets spot cash for practically everything he sells, the laboring man and mechanic gets his pay every Saturday night, the merchant gets his pay in some cases whenever the other gets ready.

Tickling or dry Coughs will quickly loosen when using Dr. Shoop's Cough Cure. And it is so thoroughly harmless, that Dr. Shoop tells mothers to use nothing else, even for very young babies. The wholesome green leaves and tender stems of a lung healing mountainous shrub give the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Demand Dr. Shoop's. Take no other, J. Coates.

A measure of especial importance to farmers is already in the statute books of the Province. This provided for the application of the local improvement principle to the building of rural telephone lines by making it possible for people in a section to apply to the township council for the creation of a telephone service and to have the cost of same made a charge on the property of the petitioners. It is now proposed to amend this Act so as to allow municipalities to issue debentures for the purpose of meeting the first cost of the service. This should render it possible to easily finance the building of rural lines all over Ontario.

INVESTIGATE
Into the merits of the

CENTRAL Business College
STRATFORD, ONT.

It is the most successful business training school in Western Ontario. Our Commercial, Shorthand and Telegraphic Departments are in the charge of able instructors of experience. All our courses are thorough, up-to-date and practical. We have become one of the largest business training schools in the province. Get our free catalogue and learn what we are doing. Commercial schools as well as business men employ our graduates. Students are entering each week. Enter Now.

COURTSHIP IN CHURCH.

A young man happened to sit in church in a pew adjoining one in which sat a young lady for whom he conceived a sudden and violent passion, was desirous of entering into courtship on the spot; but the place not suiting a formal declaration, the exigency of the case suggested the following plan: He politely handed his fair neighbor a Bible (open) with pin sticking in the following text:—"And now I beseech thee, lady, not as though I wrote a new commandment unto thee, but that which we had from the beginning, that we love one another." She returned it pointing to the second chapter of Ruth, verse tenth—"Then she fell on her face and bowed herself to the ground, and said 'Why have I found grace in thine eyes, that thou shouldst take knowledge of me, seeing that I am a stranger?' He returned the book, pointing to the thirteenth verse of the Third Epistle of John—"Having many things to write unto you, I would not write with paper and ink, but I trust to come unto you and speak face to face, that our joy may be full." From the above interview a marriage took place the ensuing week.

The Dominion Government will spend \$2,500,000 in buying seed grain for the farmers in the West. This is necessary, owing to the amount of frosted grain in the western provinces. The agreement is that the loan is to be repaid in one year.

Croup positively checked in 20 minutes. Dr. Shoop's 20 minute Croup Remedy acts like Magic. No vomiting, nothing harsh. A simple, safe, pleasant dependable croup syrup. 50c. J. Coates.

All indications point to a Provincial election in June. It is not probable that there will be more than four sessions of the present Legislature, though another session might be held. There is a good deal of activity in political camps at present.

Pain can be quickly stopped. A 25c box of Dr. Shoop's Headache Tablets will kill any pain, everywhere, in 20 minutes! Besides they are thoroughly safe. Painful periods with women, neuralgia, etc., quickly cease after one tablet. J. Coates.

Farmers who have young fruit trees should tramp the snow about them as a protection against field mice. These mice must have green food and readily bore their way through the loose snow to the trees where they feed upon the bark, but if the snow is packed down they cannot make their way through it. Three or four years ago when the snow was deep many young trees were girdled by mice and ruined.

Does Your Side Ache?—When the first symptoms appear, rub with Nerviline—rub it in deeply. It penetrates to the muscles and chords that are sore—takes away stiffness—removes all strain inflammation. If the condition is chronic, put on a Nerviline Porous Plaster on the affected spot. This draws out any virus or neuralgic irritation, restores the tissue to their wonted healthiness, permanently cures any weakness or tendency to pain. Nerviline Plasters absorb all the deleterious secretions through the relaxed pores and when used along with Nerviline itself, every muscular pain or ache must go.

According to a report issued on the operation of the Liquor License Acts of Ontario there were issued in Bruce County in 1873, one hundred and eighty tavern licenses. In 1906, the last year for which figures are given, there were issued 62 tavern and two shop licenses in the county—less than one-third of the number issued 33 years ago. The numbers varied greatly at different periods. For instance in 1878 the number had gone down to 83 tavern and nine shop licenses and by 1882 they had gone up to 109 and 18. Since 1889 there has been a steady decline in the number of licenses in the county. In 1906 the numbers were cut down from 74 tavern and 3 shop licenses to 62 and 2 respectively. During 1883—86 and 87 the Scott act was in force.

WHY STAY RHEUMATIC?

NOTHING SHORT OF FOLLY WHEN CURE IS GUARANTEED WITH FERROZONE.

Rheumatism can't be cured so long as the system is weak and run down.

You must first build up and get strength to fight off the disease.

Ferrozone cures because it builds up, because it renews the blood and dissolves the Uric acid and the poisons that cause rheumatism.

It is proved right here that Ferrozone does cure.

Col. H. M. Russ, of Edwards, St. Lawrence Co., one of the fine old heroes of the Civil War, was completely restored by Ferrozone. Read his statement:

"I couldn't get around without a cane and then only with difficulty. Rheumatism took complete control of my limbs.

The suffering was more intense than hardships on the battlefield. When my doctor had done his best I got Ferrozone.

Then came a quick change. Ferrozone gave me comfort at once, eased the pain and took the stiffness out of my muscles.

I am well to-day. Ferrozone cured me completely. I can jump and run like I did forty years ago.

Be sensible about your case. If you present medicine is useless give it up. Don't experiment again. Ferrozone is known on all sides to be a cure that does cure. Why not get a supply to-day. The sooner you begin Ferrozone the quicker you'll get well. Price 50c. per box or six boxes for \$2.50. at all dealers.

ONTARIO WHEAT.

Facts are constantly multiplying, that tend to prove that Ontario wheat is going to be a mighty profitable crop to grow. The demand for Ontario wheat is increasing every year. As people get better acquainted with Manitoba wheat flours, they find that Ontario blended flours are better for bread as well as for pastry. It has been proven, time and time again, that blended flours yield more bread, pastry, etc., to the barrel, than any others.

In the face of such proof, it seems astonishing that some of our farmers still persist in buying Manitoba wheat flours. They do not seem to realize that it was the coming of Manitoba wheat, which lowered the price of Ontario wheat. It was the introduction of western flour which drove many of our millers out of business, and sent up the price of bran and shorts. It is the wide use of western patent flours by Ontario farmers themselves, that helps to keep Ontario wheat out of the market. Every farmer in the province ought to be raising Ontario wheat, and ought to be eating bread and pastry made of Ontario blended flours. Then the money, which is now going to enrich western wheat growers, would stay right here at home where it belongs. The price of wheat would go up, and the prices for bran and shorts would go down.

Mr. J. McCool, public school inspector informs us that the Education Department is now distributing flags to the rural schools. One will be supplied to each rural schoolboard on application to the Education Department. If however, a board has already purchased a flag, the cost thereof, when not greater than that of the flag now offered, will be paid by the Education Department on presentation by the board of a receipted bill. The trustees however, are expected to supply the flag pole, either in the school yard or over the schoolhouse.

WHY THE CHANCE WAS LOST.

A young lady working in a stocking factory, fearing that her chances for matrimony were small, wrote the following and slipped it into the toe of a gentleman's sock: "A young lady, good looking and of some means, would like to correspond with the wearer of this sock, if he is single, with a view to matrimony." A young man bought the sock and said, "There's my chance." He wrote to the young lady, offering himself as a suitable party, and to his surprise got this reply: "I have been married eight years, and have a family of five children." The man from whom he bought the socks had never advertised, consequently they had lain on the shelves for over eight years.

With a population under three hundred thousand, British Columbia during the past year produced in mines, timber, fisheries, agriculture, fifty-five million dollars, and has a surplus of nearly a million and a half after redeeming loans of nearly one million.

Our method of roasting our perfect blend of Mocha and Java coffees, develops and preserves the rich essential oil of the berries—brings out the fullness and richness of the flavor. That's why

GREIG'S White Swan COFFEE

has such a delicious, appetizing aroma—helps digestion—satisfies. White Swan Coffee is first sealed in parchment, then placed in tins, preserving its full flavor and freshness.
