

MUSQUASH PICNIC IS TREMENDOUS SUCCESS

Whole Population Turns Out to Greet Dr. Pugsley

Fine Weather and Perfect Arrangements Mark Affair.

Splendid Speeches by Pugsley, McKeown, Sears and Lowell.

Minister Announces Breakwaters for Lorneville and Quaco.

The Liberal picnic at Musquash yesterday was successful beyond the most sanguine expectations of its promoters. The exceedingly beautiful weather contributed greatly to the enjoyment of the day and nothing was left undone by those in charge to add to the picnic's success. Fine weather, big crowds, good speakers, generous catering and display of warm enthusiasm all combined in making the event an historic one in the annals of the parish.

A special train left the New Brunswick Southern station at ten a. m. with a large crowd of city people on board. Stops were made along the way to take on more passengers and fully two hundred people were landed at the scene of the picnic. A large crowd was already on the picnic grounds and during the next couple of hours great numbers came in from the surrounding districts.

On the picnic grounds complete arrangements had been made for the comfort of the picnickers. A large tent and a dancing pavilion had been built and tables had been put up for serving meals.

A generous supply of cool drinks of all beverages, with peanuts and candy, were to be had without charge and added to the festive nature of the occasion. At noon a substantial lunch was served, which was well received by the thousands who were in charge of the arrangements.

The gathering lasted the big tent at two o'clock and the afternoon session followed the speeches, which continued for over two hours. After this leading feature was concluded, dancing was indulged in on the stage erected for the purpose.

The Carleton Place Band, which accompanied the party from the city, gave a musical programme during the day and greatly entertained the thousands who were in charge of the arrangements. Their vocal selections were also much appreciated.

Supper was served about five o'clock and the picnic train returned at 5.30. Before leaving the grounds, Dr. Pugsley made a short speech, regretting his inability to call on all the people personally and asked for the people's support in the coming election. He concluded by asking for three cheers for the ladies who had had charge of the catering arrangements. This was followed by a speech by Hon. Wm. Pugsley, Sir Wilfrid Laurier, the Liberal party, the people of Musquash and the band.

At the meeting in the afternoon, L. B. Knight presided and with him on the platform were the speakers, Hon. Wm. Pugsley, M. P., Hon. H. A. McKeown, M. P., B. H. McAlpine and ex-Mayor Sears. The various speakers were enthusiastically greeted and heartily applauded.

SPEECHES OF THE EVENING. Dr. Pugsley spoke of the pleasure it gave him to meet the people of the district. He thanked them for the confidence they had reposed in him, vouching for his representation and said he appreciated very highly the honor of representing them.

At the St. John exhibition, after Premier Hazen had told the farmers what they ought to do to improve their methods of farming, he had proceeded to claim that the farmers of New Brunswick knew their business, and what the government could do to help them would be to improve the means of transportation, and had suggested that they might join hands in securing a railway through the St. John Valley.

The premier had not taken the suggestion in good part, and later had asked why Mr. Pugsley had not arranged to have the G. T. P. brought down the valley. Mr. Pugsley pointed out that the late provincial government had arranged a subsidy for the valley railway and that he had introduced a measure providing for a subsidy of \$6,000 per mile.

As Minister of Public Works he had to look to the interests of the whole country, but he pointed out that he had not neglected the country at large for the benefit of St. John.

He announced that he had secured a large public building which would soon be erected in Fairville in this constituency.

He had also arranged for breakwaters at Lorneville, Quaco and other points along this coast.

He felt there was no class in the country more deserving of public works than the fishermen of the coast, and that it was the policy of the government to do what they could to help them.

None of the public works which he had authorized had been intended to condemn, although the largeness of his estimate had been criticised no one had been able to point to any particular item with which they could find fault. Mr. Monk of Quebec province had complained of some of the expenditure on the St. Lawrence, but when asked to name the place he had replied that he could not do so as it would make him unpopular in that constituency.

Referring to Hon. G. E. Foster, the speaker said that he was chiefly remembered at Ottawa as finance Minister, because of his effort to cut the pay of the charwomen down from 75 cents to 50 cents per day. (Laughter.) Mr. Foster had claimed that the opposition were watching the expenditures in the interests of the country, but they held up the estimates of the whole country because of their objection to the election law of Manitoba.

If some people in this meeting started talking in opposition to the speakers simply with the object of wasting time they would be ejected.

MEAN DEPRIVED OF WORK. This could not be done at Ottawa, but if tactics of this kind continued the rules would have to be changed. (Hear, hear.) As the result of this obstruction works which should have been commenced three months ago would not be started until next spring and men who needed work had been deprived of it.

Yet these "watch dogs of the treasury" had gone home to bed while five or six millions of his constituents had been passed in five minutes at the last session.

When he assumed office he found that although the government had been doing dredging in the St. John harbor they had not assisted in the work of wharf building. As the result of a request from the city he was doing dredging for a new wharf at the cost of \$300,000.

It is a great step forward since the time when Mr. Foster had made the city pay \$40,000 for the Carleton branch railway.

Proceeding he referred to the opening of the G. T. Pacific, which would soon be carrying immense amounts of freight to the eastern coast. In view of this he had with the help of the province and city arranged for the Courtenay Bay wharves and these had proved that the bay was suitable for the docks which could take care of the immense trade of the G. T. P. He pointed out that the development of the city of St. John would assist in the prosperity of the surrounding country.

We are not giving St. John more than its share. What we are doing is in the carrying out of the policy of the Liberal party, which is to develop the country's trade to Canadian ports.

This was not the government's policy before 1906 and this is now one of the chief differences between the government and the opposition. Mr. Borden had wanted the G. T. P. built to North Bay and there to connect with the Grand Trunk Railway, which carries all its exports. Portland, Me. The Laurier government had determined to have an all Canadian road and he asked which was the best policy. As Minister of Public Works he was doing what he can to carry out the policy and no part of the nation is more interested in its success than the people of the Maritime Provinces.

He related the immense increase in trade since the present government had returned the tariff. The increase was in twelve years from 127 millions to \$80 millions. This increase had lowered the average taxation and had provided revenue for immense public works which under the Conservative policy would have been paid for out of borrowed money.

If you adjust the Conservative policy of shutting out the imports you cut off this revenue. Although we have this great revenue it is ridiculous to say that the rate of taxation has increased. You might as well say the C. P. R. has increased its rates because its revenues are larger than they were twenty-five years ago.

The country's business has increased, and the increased prosperity of the country had proportionately reduced the rate of taxation.

Turning to the post office department, he showed that the deficit had been wiped out, while all the rates had been lowered, and now the department showed a surplus of a million dollars.

Sir Wilfrid Laurier, in a recent speech, had said that he wanted to see the completion of the transcontinental railway which meant so much in the development of the country, and he had every right to expect that he would be kept in power until this was done.

LARGER MAJORITY THAN EVER. The speaker prophesied that he would be returned with a larger majority than ever before.

Taking up the so-called scandals, the speaker said that he would be glad to reply to any question regarding any charges which had been brought against the government. The North Atlantic Trading Co., which had been the position which the opposition had done a large work in bringing in immigrants. The immigration policy of the government had increased the population of Canada by one million people.

The speaker next took up the Saskatchewan land scheme, in which he showed that the quantity of land given as subsidies and sold at \$1 per acre, a large part was of a semi-arid nature and was found almost impossible to cultivate. It was only by bringing settlers from Nebraska and Arizona, who were accustomed to the same land, that the district could be populated.

In this way land that was formerly regarded as arid is now being cultivated and this is in value is due to the efforts of the company.

In none of the charges brought against the government could any more foundation be found than in these which he had exposed.

In closing, Mr. Pugsley said that he was proud of the position which he now held owing to the confidence of the people and promised that he returned to his post to do his best to represent the constituency to the best of his ability.

H. A. McKeown was the next speaker. He thanked the people for the support which they had given him in his last campaign.

Turning to the subject of the meeting the speaker pointed out the honor that had been done St. John county in giving their representative the most important portfolio in the cabinet. Such an office brings with it great responsibilities and a man to carry this burden must be not only a man whom nature has fitted for the position, but

also one whose honor and integrity must be beyond question and one who holds the confidence of the people. It is not the office for a small man. It calls for a man of broad statesmanship. It is a fortunate thing not only for this constituency, but for the Dominion, that Sir Wilfrid was also to secure such a man as he who has just spoken.

If we believed some of the statements made we would be asked to believe that the department is run for election purposes. He believed, on the contrary, that the minister had nothing dearer than his desire to keep his conscience free from stain in connection with any of the matters of his department.

You have heard much of extravagance in regard to public expenditure. **KEPT TRACK OF IT.** A member of the government had kept track of the expenditures which had been questioned by the opposition. The result showed that the Conservatives only claimed that \$115 in every \$300 expended had been spent extravagantly. This would be considered a very good record in any business transaction. This is a small matter, all the more so as the critics of some of the men who are seeking the confidence of this constituency. When he compared Mr. Pugsley with his opponents he found a difference that looked like \$300 compared to \$115. (Laughter.)

If the Conservatives had remained in power and had continued their progress at the same rate as in the eighteen years they were in power it would have taken them one hundred years to accomplish as much as has been done in the last twelve years. (Applause.)

In Canada we do more business per man than any other country in the world. We are too busy to allow the Conservatives to run the country at that rate.

The Conservatives do not say that they have learned anything while in opposition. They ask to be returned that they might bring back the old conditions. Are we prepared to let them do that? ("No, no.")

In closing the speaker made an appeal to the people to make Musquash one of the parishes which would help to roll up a big majority for the Liberal party.

E. H. McAlpine then followed with a characteristic speech which aroused the enthusiasm of the people present.

He said he had been in the country for many years and it made him angry to see men like Hazen going around the country blackguarding Mr. Pugsley. There is more ability in Mr. Pugsley's little finger than in Hazen's whole arm. He said that Mr. Pugsley was the real leader of the Conservative party, had been chased out of his own constituency, and now represented a district in Ontario.

In the last provincial election Hazen was elected as the result of the highway act. Now that he is in power he has doubled the toll tax of the farmers.

Turning again to the personality of the candidate, he asked if it was not something to feel that the representative was a man who at Ottawa was rated among the biggest men in the country, and quoted a prominent man from St. John who said that Mr. Pugsley was the ablest man in Canada.

Regarding the Central Railway the speaker said that Mr. Pugsley had secured the road at a good bargain from a group of Philadelphia capitalists who had lost money in it and had made it a valuable asset of it. He scored Hazen's commission of inquiry, which he said would cost the province \$10,000.

When Mr. Pugsley was elected he went into the history of the two parties and showed the spirit of progress which had always animated the Liberal party as compared with the reactionary policy of the Conservatives. Touching on the railway policy of the two parties, he showed the immense subsidies of land and money with which the Conservatives had enriched the C. P. R. and compared it with the businesslike methods of the present administration.

Touching on scandal talk, the speaker exposed the hypocrisy of the opposition in talking purity while running elections like that in Colchester with "chocolate tomatos" as the leading feature. He referred to Mr. Powell's statement that in Colchester he had his own money he had spent, and attention to the fact that in the last Dominion election \$35,000 had been sent from Montreal to Mr. Powell's partner, Edward Sears was next called on.

Edwards in broad manner on the principles of the Liberal party and the current issues, showing the immense development which had come to Canada under Liberal rule. He referred to the position which Canada under the leadership of Sir Wilfrid Laurier had attained, he referred to the fact that Canada was now allowed to make her own treaties.

Touching on the development of the harbor of St. John, he condemned what he termed the "peanut policy" of the Conservative party in their treatment of the port.

He continued with a discussion of the questions of the day, and concluded with an appeal to the voters to return Mr. Pugsley by the largest majority ever rolled up in the constituency.

James Lowell, M. P., was called on and in a brief speech he summed up the sentiment of those who had preceded him. As he expected to again address the parish at an early date, his remarks were not lengthy.

The management is to be congratulated on the great success achieved. At least nine-tenths of the people of Musquash were in attendance, the total attendance would exceed 1,500.

HOW TO CURE HEARTBURN. The cause of heartburn and hiccoughs is the cause of the stomach. Magical relief comes from NERVINE, which cures the condition which causes heartburn, just as it relieves and cures indigestion, cramps, gas belching and other ailments which the stomach causes. No summer medicine half so good as a 2c. bottle of Falsion's NERVINE.

Now let the cold Korean breezes come and "widly" go to it. We have a brand-new overcoat, by sum, And want to show it.

JERUSALEM REJOICES OVER LIBERTY'S BIRTH IN TURKEY.

Jerusalem, which has been under the Moslems for a long period of its modern history—was taken by the Sultan of Turkey in 1917. The city was then a scene of the most terrible suffering. The streets, buildings and vehicles have been decorated with branches, fountains and flags, and at night the city has been illuminated. When the Governor, Ekrem Bey, announced the constitution of the new regime, the Moslems, Christians, Jews, Samaritans, Turks and Armenians all fraternized and then formed up in procession preceded by banners with emblems of liberty, the Jews by the torch, the Christians by the cross, the Moslems by the crescent and star. The inhabitants wanted to manifest their joy sooner, but the Governor, who is a pessimist, was formerly a secretary at Yildiz Kiosk and would not take the news of the proclamation seriously till it had been fully confirmed.

A GIRL'S ADVENTUROUS CAMPING TRIP IN THE WILDS OF NORTHERN CANADA.

Now that every day we hear of parties returning from camp, our readers will be interested to hear of a camping trip that was taken by four persons last autumn in the Canadian woods. The camp was sixteen miles from the nearest village, which consisted of a church and a few houses occupied by the guides at the rare intervals they were not in the woods. The start was made at five o'clock one morning in October. The dawn had not yet broken and it was bitterly cold. The party consisted of a man and a woman and two young girls. They had a drive of forty-six hard miles ahead of us every one wrapped up very warmly. Each member of the party had a gun, and then a start for the back of the wagon, and had been made as light as possible. They consisted of one entire change of clothing, besides three or four pairs of stockings, a brush, a comb and a great variety of other things. They had a drive of forty-six hard miles ahead of us every one wrapped up very warmly. Each member of the party had a gun, and then a start for the back of the wagon, and had been made as light as possible. They consisted of one entire change of clothing, besides three or four pairs of stockings, a brush, a comb and a great variety of other things.
