"From No. 1 hard"
That designation means a whole lot when it is lived up to, as it is in Horton Flour. It means the very finest Canadian wheat; it means greater strength and more nutritive value in your bread; and it means more loaves of crisp, appetizing texture and snowy-whiteness.
By looking for the trade-mark on the bag you make sure of getting all the goodness that the term "No. 1 hard" implies.

Great Drive of Czar's Army Goes on Successfully

Petrograd, June 25—via London—Occupation of the entire Austrian Crown Land of Bukovina was announced today by the war office. Possession of the Province was completed by the capture of the town of Kimopol in the southern part of Bukovina at the foot of the Carpathians. More than 2,000 prisoners were captured.

Petrograd, via London, June 24—The capture by the Russians of the town of Kudi, in Galicia, across the Bukovina border at the foot of the Carpathian mountains, was announced today by the war office.

The text of the Russian statement says:
"In Bukovina, west of Skiatyn, our troops are fighting their way and advancing. Last night they occupied the heights of the banks of the Rybnitza."
"The town of Kudi has been captured by us. The Don Cossacks made 150 men prisoners and captured four machine guns near there."

Commission of Three Experts.

Ottawa, June 25—Sir Robert Borden and Hon. Frank Cochrane, Minister of Railways, left this evening for New York. The railway situation in Canada is crucial, and it has been decided to appoint a commission of three experts, not Canadians, to examine railway affairs in Canada and advise as to what action the Government should take. It is generally believed here that next session of parliament will see the steam railways of the Dominion nationalized.

THE AUTOMOBILE IN WAR

England Leads in Number of Automobiles Of All Sizes

Mr. Howard C. Felton contributes some interesting particulars about the automobile in the present war. In August, 1914, there were more motor-cars of all sizes in use in England than in all the other warring nations combined. Germany and Austria together showed a census of about 115,000 cars of all kinds. France had in the neighborhood of 90,000, and Russia about 10,000. Great Britain had 250,000 in daily use. In 1913 France paid out nearly 750,000 dollars in subsidies to the owners of motor-trucks, and Austria about 500,000 dollars. Germany's output in that direction is not known. Like other military information, the figures were closely guarded. But to the owner of every car in Germany there was given a registrar number, together with instructions to bring his vehicle to a certain point at the instant required.

HEALTHY BABIES SLEEP WELL AT NIGHT

A well child sleeps well and during its waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers, if your children do not sleep well; if they are cross and cry a great deal give them Baby's Own Tablets and they will soon be well and happy again. Concerning the Tablets Mrs. Chas. Diotte, North Temascaming, Que., writes:—"My baby was greatly troubled with constipation and cried night and day. I began giving her Baby's Own Tablets and now she is fat and healthy and sleeps well at night." The Tablets are sold by medicine dealers or by mail at 25 cents a box, from The Dr. Williams Medicine Co., Brockville, Ont.

Compulsory Training

Australia has adopted a system of compulsory military training for every young man between the ages of twelve and twenty-six years. From the ages of twelve to eighteen, drills, athletic exercises and shooting are a part of the regular school work. The junior cadets have not less than fifteen minutes daily for one hundred and twenty days a year, and the senior cadets considerably more. At the age of 18 years the young man becomes a citizen soldier, and for the next eight years from sixteen to twenty-five days a year to training, a part of the time in camp.

Temporary Railway Quarters

Gen. Manager Graham; Sydney Abbott, travelling auditor; P. N. Parker, traffic auditor; and Mr. Sellar, of the General Passenger Department of the D. A. R., were in Middleton on Wednesday. They arranged for temporary ticket and baggage office in the Jones Block and the Middleton Fruit Co's warehouse is being used for the accommodation of freight.—Outlook.

WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y.—"For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired. I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation."—Mrs. JOHN A. KOSMIC, 502 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed; or if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

If you want advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.
