BAD FALL

The 9 year-old son of Mr. Woods of the fifth concession, Harwich, fell a distance of fifteen feet yesterday afternoon, and received a severe gash in the side of his head. The little fellow, with a number of his school-mates, was returning from school, and when they were passing St. Paul's Church which is undergoing some interior improvements, they dropped in to see what was going on. Young Woods climbed up on one of the rafters and fell, striking his head on the floor, and was rendered unconscious for some time. Dr. J. W. Rutherford was called and dressed the little fellow's injuries.

A GUNNING SAFE PLACE

Miss Jessie Nelson spent two weeks the guest of Tilly Wilkins, at the Red House in the Valley. William Coyle stayed at the house that night, and Jessie alleges that he robbed her of her money, \$12 and of Wilkins \$32.

The money was in two purses concealed in the stockings which Jessie was wearing. This all is said to have happened a year ago last June. Coyle was located in Windsor about a month ago and brought back here for trial for his reputed researches in hoodlums. Yesterday morning he appeared before Judge Houston, and elected to be tried by jury and, after the preliminary hearing, was committed for trial. Crown Attorney Smith prosecuted and O. L. Lewis defended. Jessie Nelson was the chief witness. She said she went to sleep with the money concealed in her stockings, and awoke to find it gone. That is the money was gone, not the stockings. She was still wearing that.

BIG VEGETABLES

John Northwood, Head street, is one of the most regular attendants at the local market. He was examining some fine specimens of Kent cauliflower this morning when the Planet representative came along. "What do you think of those for cauliflower," said he. "They are some of the finest samples I have ever seen grown around here."

"They can't come up to the Manitoba cauliflower, though," continued he. "When I was out there I saw large patches of these plants which averaged 20 pounds in weight. That is a great country for mushrooms, too. We think we have larger sized ones here, but they are larger there. While I was passing through on the train the engineer got off at one of the small stations and in five minutes he had a pile of great big beauties. The ground was literally covered with them," and Mr. Northwood passed on and continued his purchases.

WERE WEDDED

A very pretty and interesting event took place at six o'clock Tuesday evening, at the home of the bride's mother, Mrs. Elizabeth Smith, Taylor Ave., when her youngest daughter, Anna, became the bride of Mr. Will H. Longmore, of Sault Ste. Marie. Rev. Mr. Cobbleick officiating.

The bride wore a handsome and becoming gown of white net and carried white roses. She was assisted by her sister, Miss Edith, who also looked charming in blue and white organdy, and carried white asters.

Mr. L. Stratford, cousin of the bride, was groomsmen, and Miss Hazel Dolan, niece of the groom, made a very pretty little ring-bearer.

After the ceremony a rehearsal breakfast was partaken of, after which Mr. and Mrs. Longmore left for their home at Sault Ste. Marie.

Many costly and useful presents were received, showing the high esteem in which the bride is held.

Guests were present from Sarnia and St. Thomas.

THE PRISONER

Who escapes from jail is by no means free. He is under the ban of the law and punishment is written over against his name.

Soon or late he will be caught again and bear added punishment for his short escape from his cell.

Those who by the use of palliative powders and tablets escape for a time from the sufferings of dyspepsia are in the same condition as the escaped prisoner. Soon or late they will go back to the old condition and pay an added penalty for temporary release.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the stomach and organs of digestion and nutrition. Its cures are lasting.

"For about two years I suffered from a very obstinate case of dyspepsia," writes R. E. Secord, Esq., of 13 Eastern Ave., Toronto, Ontario. "I tried a great number of remedies without success. I finally lost faith in them all. I was so far gone that I could not eat any solid food on my stomach for a long time; felt melancholy and depressed. Could not sleep or follow my occupation (business). Some four months ago a friend recommended your 'Golden Medical Discovery.' After a week's treatment I had derived so much benefit that I continued the medicine. I have taken three bottles and am convinced it has in my case accomplished a permanent cure. I can conscientiously recommend it to the thousands of dyspeptics throughout the land."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets stimulate the liver.

LOCAL LEGAL

Before Osler, J. A.

Middleton vs. Scott—Judgment (L.) on motion by plaintiffs for leave to appeal from order of a Divisional Court (I. O. W. R. 530) affirming order of Street, J., on defendant's appeal from the report of a Master. The action was by mortgage against mortgages for redemption. One question was whether a valid tender had been made of the amount due before action, or whether a tender had been dispensed with. Another was as to the rate at which interest should be computed after the principal fell due. It was held both by Street, J., and the Divisional Court that the tender was not sufficient, and that plaintiffs had not by words or conduct dispensed with the necessity for a legal tender. This only affects the question of the costs of the action. Held, that two courts, one of them plaintiffs' own choosing, having passed against them, and considering what is now at stake in the action, viz., costs only, it would be a wrong exercise of discretion to grant leave to bring a further appeal, even assuming, as the plaintiffs very strongly urge, that the judgments below are open to criticism as having proceeded upon some misconception of the facts or wrong view of the law. The case is just such a one as even if possibly wrongly decided, ought not, under all the circumstances, such as the subject matter and amount involved, the nature of the dispute, its origin, etc., to be further litigated. The Divisional Court have placed the right construction upon the judgment at the trial, and the rule of court in holding that, in the event of the question of costs being reserved by the original judgment, it is quite probable that the evidence would have justified the disposition which Street, J., made of them, i.e., giving them to neither party. Motion refused with costs. M. Wilson, K. C., for plaintiffs. W. E. Middleton for defendants.

Theatrical

The "Golden Giant Mine" put on at the grand last night, by the Bijou Comedy Company, was the best of the week, seemingly as the week progresses the show gets better. The audience was not as large last night as it would have been had the weather been fine.

Miss Marjorie Adams as Bess Fairfax, just what the part called for. Miss Adams captivated her audience and well earned the hearty applause.

H. Wilnot Young was well up to the mark as Jack Mason, taking his

part well. The other members of the cast also did well. Joe Bills, F. A. Ruff, Wm. Dyer Ed. Stauffer and C. D. McDonald were seen in well applauded specialty acts. The bill for to-night is Monte Cristo, which is said to be the Company's strongest show.

Miss Adams, as Mercedes, in Act IV, of Monte Cristo, which is the play for to-night, the London Free Press, Sept. 19th says—

Last night at the London another good audience witnessed the performance of the Bijou Comedy Company. Their production of the famous drama, "Monte Cristo," was well worthy the efforts of many higher priced organizations. Saturday afternoon they give a very funny farce, "Uncle Josh," for the children's matinee. At the conclusion they present to the lucky boy a baseball bat, and to the lucky girl a beautiful doll.

The Salt in the Ocean.

The ocean was once merely brackish and not salt, as it is now. This was when the earth was in its first youth and before there was any land showing at all or any animal life in the water. At this time the water was gradually cooling from its original state of steam, and the salts were slowly undergoing the change from gases into solids. Then came the appearance of land, and later on, rivers, which gradually washed down more and more salts, while at the bottom of the ocean itself chemical action was constantly adding more brine to the waters. At present it is estimated there are in the world's oceans 7,000,000 cubic miles of salt, and the most astonishing thing about it is that if all the salt could be taken out in a moment the level of the water would not drop one single inch.
