Mr. Asquith Speaks Concerning Laurier's Pronouncement

Sir Wilfrid Spoke With Voice of Empire, He Says-No Form of Preference Involving Taaxtion on Corn, Meat, and Raw Material Can Bei Adoptedby Great Britain-Colonial

Administration.

London, Aug. 26.—Mr. Asquith, speaking on Saturday night, referred to Laurier's pronouncement that none but British would have given autonomy to South Africa. Laurier, he said, then spoke with the voice of the small, disappointed faction at home.

Alhding to preference, Mr. Asquith said the United Kingdom couldn's adopt any form of preference involving taxation on corn, meat and raw material and the colonists, on their part, could give no form of preference which would admit the British manufacturer on level terms nto competition with their own protected industries. That was the principle upon which the Canadian, best of all colonial tariffs, was based.

Its principle is still more conspicuous than the new Australian tariff.

If the Government left office to-day he would wish them to be judged by whether they hadn't justified the confidence of the nation in colonial administration.

UNIONIST WON SEAT.

Sury St. Edmunds Rejects Liberal Candidate by Large Majority. Candidate by Large Majority.

Bury St. Edmands, Eng., Aug. 28.—
The Unionists scored a triumph here Saturday when their candidate for a seat in the House of Commons, Hon. Walter Guimness, received 1,631 votes as against 741 cast for W. E. Yates, the Liberal candidate. This is a majority of 890 as against the majority of 434 obtained by Capt. F. W. G. Hervey, Unionist, in the last general election. Capt. Hervey succeeded to the peorage upon the death of the Marquis of Bristel, and the seat consequently became vacant.

The campaign attracted a great deal of interest, and was fought out on the question of tariff reform. Mr. Guinness is an out and out protectionist.

Strike Settled.

Montreal, Aug. 26.—The Valleyfield strike has been settled and the men agreed to return to work this morning. On the whole, the Montreal Cotten Co., has won, as the men have abandoned their demand for 10 per cent. general increase. This was the main dispute in the strike. The company, however, agrees to pay the mine spinners, who are a small part of the strikers, the 10 per cent. sevence. The company agrees to submit disputes and claims not properly looked into by foremen to arbitration under the Lemieux Act.

During the strike the cotton mills, employing some 2,500 men, have been closed down.

Douks Causing Trouble.

Kenora, Aug. 26.—The question of what to do with the Doukhobors is growing serious. Saturday the charge of wilfully treepassing on the C. P. They pleaded guilty and were remanded in custody until to-day, when it is thought the Government will have to come to some decision in regard to deporting them.

CANADA HAS ARRIVED, Y.

Dominion Has Grown and Pros pered Since Confederation.

Ganada recently celebrated the 40th anniversary of her present political organization. The provinces then known as Upper Canada and Lower Canada held their first united Parliament in Kingston on June 14, 1841. The demonstration under that system of Canada's ability to manage her own affairs led to the confederation, which became effective on July 1, 1867. The anniversary of this event is known as Dominion Day.

Forty years ago Canada's population was a little less than 3,500,000. To-day it is probably not far from 6,000,000. In this respect the country has grown but slowly. Few immigrants came in, and many Canadians crossed the border to share in the large growth and the greater prosperity of the United States. The census of 1901 shows only 5.2 per cent. of the entire population as of foreign birth. The cemsus of 1911 will in all probability show a marked change in this respect. Many Canadians are returning to their own country and large numbers are going in to become Canadians of alien birth. Within the last five years the arrivals have increased more than threefold, and Canada is now getting more than 200,000 new citizens a year from other lands.

In 1868 Canada had only 2,269 miles of railway in all her vast domain. She now has about 22,000 miles, and in a few years will have 30,000. The foreign trade 1858 was \$131,000,000. The sand in a few years will have 30,000. The foreign trade 1868 was \$131,000,000. The mail business has grown from the 18,000,000 letters posted in 1868 to nearly 300,000,000 at the present time. She has paid enormous sums in bounties. The first three decades of her 40 years of experience as a Confederation were a time of plowing and planting. For the last ten years she has been garnering an ever-increasing crop. She was slow in finding herself, but it may be said to-day that Canada has arrived.—New York Sun.
