Summer School of Science. The ninth annual session of the Summer School of Science for the Maritime Provinces which is now in session at Amherst, is proving one of the most successful in the history of the province. Not only is the attendance good, but the interest which the students are taking in their work seems to be even greater than in previous years.

The steamer Prince Rupert is again on the Bay route making her double round trip each day. The new cylinder will not be here for several weeks, but the builders called that if the broken cylinder were disconnected the engines running compound could drive the steamer sixteen knots an hour. The experiment was tried and proved successful.

The second band concert at Evangeline Beach, on Wednesday evening, was a success. It is estimated that about 400 people were present. The music by the band elicited much praise and all who attended spent a most enjoyable evening. Bathing, boating and promenading were the chief sources of amusement, and the bath-houses and restaurant were liberally patronized.

Probably the man best known and most sought after by tourists who visit this town is Mr. Edward Chase. For many years Mr. Chase has conducted a livery and express business in this place and has probably driven more tourists than any man in Nova Scotia. His acquaintance with all the places of note in this vicinity and with local history makes him an entertaining companion, and tourists who employ him as a guide are sure to be pleased with his visit.

We are sorry to learn that Rev. J. B. Hemmison, of this place, has been compelled to undergo the operation of having one of his legs amputated just above the knee. The operation was successfully performed at the Victoria General Hospital, Halifax, on Saturday last, and at last reports the rev. gentleman was doing as well as could be expected. For some time past the limb has been giving him considerable trouble, and of late has been so bad as to necessitate amputation. We understand the trouble was tumor in the arteries of the leg.

Married. CURRY-REICHMAN.—At Lynn, Mass., on June 24th, Capt. Arthur Curry, of Windsor, and Mrs. Beatie Reichman, of Wolfville.

CIVIL SERVICE STUDENTS. Can join the class, preparing for the November exam, at any time at Whiston & Frazee's COLLEGE. For rates of tuition and conditions of Free Scholarship write to S. E. WHISTON, Barrington St., Halifax, N. S.

BOOTS AND SHOES. In Tans & Blacks--Calf, Pebble and Cordovan. CALDER & CO., Wolfville, June 28th, 1895.

THE ACADIAN.

WOLFVILLE, N. S., JULY 19, 1895.

Local and Provincial. Mr. F. J. Porter has had his store greatly improved in appearance this week by a new coat of paint. He has also had his name painted in heavy black letters across the top of the awning in front.

A number of the lady tourists who have favored Wolfville with a visit this year, have brought along their wheels and they may be seen nearly every day enjoying a spin on our excellent roads.

The next annual meeting of the Baptist Convention of the Maritime Provinces will be held with the German St. Baptist church, St. John, N. B., commencing on Saturday, August 24th, at 10 o'clock, a. m.

London Shrub—the latest & ink, 5c. glass, at the Drugstore. We would call the attention of the street authorities to the fact that some of our streets, especially Main street, would be the better for another cleaning up. The gutters want cleaning out and the grass should be removed.

We understand that Messrs. Blenkhorn and Torrie, of this town, are making arrangements for having a steamboat excursion to Parrboro on Aug. 17th. The steamer Huestwa will leave Hantsport, calling at Horton Landing and Kingsport. A good time will no doubt be had.

Sunrise walks and sunrise picnics are the order of the day in Berwick. They have been instituted to encourage the habit of early rising among the young people. The picnics start at 5 in the morning, or earlier, and it is no uncommon sight to see a pair or more of young people parading the streets some hours before breakfast.

The steamer Prince Rupert is again on the Bay route making her double round trip each day. The new cylinder will not be here for several weeks, but the builders called that if the broken cylinder were disconnected the engines running compound could drive the steamer sixteen knots an hour. The experiment was tried and proved successful.
