

DOMINION PARLIAMENT. NINTH PARLIAMENT--- THIRD SESSION.

HOUSE OF COMMONS.
OTTAWA, March 24.—In regard to the redistribution bill there are only two alternatives in New Brunswick, Restigouche and Gloucester, will be united, or Kings and Albert. Mr. Fielding announced today that the redistribution bill would be ready shortly.

In supply Col. Sam Hughes asked the minister of public works to consider the idea of preserving Fort LaTour at the mouth of the St. John River as a public park, on account of its historical value. Mr. Sutherland said he would look into this.

Mr. Geoffrion introduced a bill to increase guaranteed stock of the Grand Trunk on approval of the shareholders.

Doctor Roddick gives notice of motion for establishment of a Dominion board of health to be administered under one of the existing departments of the government.

Mr. Bell (Pictou) moved the following resolution: "That, in the opinion of this House, there is no justification for the application of the diseased animals' act of Great Britain to Canadian cattle. The Canadian cattle at the time of the passing of the said act, and ever since, have been free from all contagious diseases. The House is of the opinion that the application of the said act to Canadian cattle has an injurious effect upon the cattle trade of this country. This House regrets that the representative of Canada at the colonial conference utterly failed to obtain any redress or promise of redress for this grievance. This House further regrets that this government has not succeeded by more vigorous protests or by other effective steps in finding means to obtain the removal of the unjust restrictions of the said of Canadian cattle in Great Britain.

Mr. Fielding said the time was not favorable for such a resolution. In the first place it was a vote of want of confidence in the government and upon these grounds it could not be accepted. In the second place a resolution for papers on the subject was passed by the House a few days ago and until they were produced so that it might be seen what the government had done, it would not be right to pass Mr. Bell's motion.

Dr. Eproule said Mr. Bourassa had introduced a similar resolution last year under precisely similar circumstances, and it had been received without a protest. The government had sought shelter behind a cautious reasoning.

Mr. MacLean accused the government of utter lack of interest in the rights of Canadians in this matter.

Mr. Cosgrain declared the resolution was being met in a high handed manner, and demanded some better explanation than that given.

Mr. W. Laurier claimed the government had done its best to have the question of the cattle embargo considered at the conference.

ence, but as it was only of interest to Canada it had to be referred to the board of agriculture. He asked to have the question laid over until the papers were brought down. He claimed the resolution was too drastic.

Mr. Tarte supported Mr. Bell's claims that the British authorities were treating Canadians unfairly, but he claimed that the government had done its best in the matter. One lesson to be learned was that Canada should look after her own interests, as John Bull was doing in this case.

Messrs. Sheritt, Cargil, McGowan, Boyd, Clancy, Hughes, Ingraham, Roche and Hachett also spoke against the government's policy.

After further discussion at the suggestion of Mr. Haggart, Mr. Bell withdrew his amendment to supply.

Mr. Fielding stated that the budget would not be taken up on Thursday.

The house went into supply and took up consideration of votes for public buildings. The grant for public buildings in New Brunswick and Nova Scotia caused a lot of discussion. It was ascertained that \$23,874 was already expended on the new custom house at Halifax. Mr. Sutherland asked for a new vote of \$60,000, which passed. A vote of \$1,500 for quarantine station passed.

There was a discussion on the item of \$8,000 for water service, drainage and heating in connection with the quarantine station at St. John. Messrs. Monk and Casgrain opposed the item on the ground that more information was wanted. Mr. Sutherland explained the matter fully, pointed out that the amount was for finishing the works. Mr. Blair showed the necessity for providing water for the quarantine station and the difficulties that had already been experienced in endeavoring to get water. Now it was found necessary to get it from the city. An engagement was made with the city.

Mr. Tarte explained that the proposed arrangement was a good one, but on account of factious opposition to the item it was decided by the minister to hold it over until a detailed statement was given from the government.

The items for \$108,000 for Restigouche public buildings, \$12,000 for St. John immigration building and \$3,000 for Dominion buildings were passed.

The item, St. John Dominion buildings, was also allowed to stand over.

Richibucto got \$10,000 for its new public building.

For Dominion buildings for the Maritime Provinces generally \$12,000 was voted.

The House then took up the Quebec votes, and strong objection was made to the public works department carrying on work without tender. Another feature contained was the indiscriminate advertising when a small amount of work was to be done.

Mr. Haggart read newspaper summary of the speech delivered by Sir William Mulock at the Young Liberals' banquet in Toronto Monday night, in which he said he had advocated public aid to the Grand Trunk or any line projected to unite eastern and western Canada, and running through the unsettled regions of Northern Ontario. Based on this Mr. Haggart asked what the policy of the government in reference to the transportation problem was: what assistance it would give the Grand Trunk or any other enterprise that proposed to open up the North west, and whether part or portion of any scheme was the building of a road from Quebec to connect with this important enterprise.

Sir Wilfrid Laurier replied that he had not seen the report and did not know whether his colleague had been accurately reported or not, but the postmaster general would be able to speak for himself. "As to the rest of the question," the premier went on to say, "whenever the government has framed its policy it will submit it to parliament. I think, and most of my colleagues do also, that it is their passing duty to have more communication between the east and the west.

Does it not seem more effective to breathe in a remedy, to cure disease of the breathing organs, than to take the remedy into the stomach?

Vapo-Cresolene

Established 1879.
Cures While You Sleep
It cures because the antiseptic strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.
Is a boon to asthmatics.

- Whooping Cough
- Croup
- Catarrh, Colds
- Croup and Hay Fever
- The Vapo-Cresolene Lamp, which should last a lifetime, together with a bottle of Cresolene, \$1.50. Extra supplies of Cresolene 25 cents and 50 cents. Write for descriptive booklet containing highest testimony as to its value.

SOLE AGENTS FOR CANADA
Vapo-Cresolene Co.

4111 Notre Dame Street Montreal

Tommy Figgiam—What makes people call the Rev. Longwood "doctor"?

What did he ever cure anybody of?

Paw Figgjom—He's cured many a person of a supposedly hopeless case of insomnia.

Those terrible pains from Rheumatism and Neuralgia promptly relieved by Kendrick's Liniment.

There is nothing that will relieve pain, lameness and swellings like Kendrick's Liniment, and swellings like Kendrick's Liniment, useful in a hundred ways in the household and stable.

Dusty Daniel—Please, sir, will you lend me a dime to get something to eat?

Swell—Why, you've got a quarter in your hand now! What's that for?

Dusty Daniel—That's to tip the waiter.

Minard's Liniment Relieves Neuralgia.

Hewitt—What became of that fellow who was always telling people to go to grass?

Jewitt—He took his own medicine at last.

Hewitt—How was that?

Jewitt—He married a grass widow.

Minard's Liniment for Sale Everywhere

Three Thousand Men are Logging.

It is estimated that there are over 3,000 men engaged in the pines upon the M'connell river and its tributaries engaged in getting out logs. This would make quite an army could they all be placed in a body and demonstrate the extensive amount of labor connected with getting the logs from the stump to the streams.

When it Hurts To Cough

The cough that hurts, the cough that gets tight in the chest is daily getting deeper and deeper into the bronchial tubes and is making directly for the lungs, to become pneumonia, inflammation of the lungs or consumption. Such coughs are sometimes referred to as "graveyard coughs," because they usually bring their victim to that last resting place.

Dr. Chase's Syrup of Linseed and Turpentine has long been known as mother's favorite remedy for croup, bronchitis, coughs and colds. It gains in popularity every day and now has by far the largest sale of any similar preparation.

It loosens the tightness in the chest, allays the inflammation, cures the cold and prevents pneumonia, consumption and other lung troubles. 25 cents, all dealers, or Edmanson, Bates & Co., Toronto.

Dr. Chase's Syrup of Linseed and Turpentine.

Never Too Old To Get Well.

Stricken With Paralysis at Eighty-Eight Years of Age, Mr. F. A. Knapp Comes Very Near Death's Door.

Without Hope of a Cure He Tried Powley's Liquefied Ozone and Was Pleasantly Surprised With Beneficial Results.

Gradually He Improved, Day by Day Growing Stronger, Until Every Trace of This Usually Fatal Disease Was Eradicated.

It is with great pleasure I add a few particulars of the perfect relief of a somewhat dangerous and very disagreeable ailment with which I have been afflicted for about three years past. The several convalescences I have had on the nature of this complaint doubtless convinced medical men that I was suffering from paralysis, and the only advice possible to give under the circumstances was to keep quiet, with all any hopes of a perfect eradication of the disease itself.

In order to exhibit to you a more detailed synopsis of the normal operation of the disease I will relate how the last attack proceeded in its course. On May 14, 1902, while spending the day with friends at Shannon street, the first symptoms appeared in the third finger of the left hand, very similar to gentle shock of electricity. In this manner it crept up the arm, reaching the brain, when all power of articulate speech ceased and a comatose state supervened, lasting about four hours, when sensation gradually returned. Since that time very slight symptoms of ptyalism have been experienced, but at present no remains exist.

Now, in order to account for so sudden a total cure of such a generally fatal affliction, we have to refer to two causes, either the interminable counsels of Higher Powers or the result of happily having taken the contents of a small bottle of Powley's Liquefied Ozone, taken, not with the hope of curing paralysis, but to try its effect on the system.

I have since seen wonderful results from the use of this remedy, and earnestly recommend its application to all sufferers.

I am, yours sincerely,
(Signed) F. A. KNAPP,

CONSTITIATION Causes Headache, Abdominal Pains, Piles and in Severe Cases Insanity and Apoplexy.

It is a common mistake to conclude that Constipation is not a dangerous condition. Although at first it is only accompanied by slight inconvenience and pain, yet if not corrected, it will inevitably lead to very dire results.

Great care should be used in selecting a remedy for constipation, because if a violent purgative is employed, it assures us a more or less violent attack of griping, and result finally in piles.

The experience of those who have tested all the cures for constipation, seems to prove that Ferreroze is the most agreeable and satisfactory treatment. It makes the bowels so well ordered that natural and permanent action is established. Nothing can give the immediate sense of comfort it produces, and pairs in the head, and stomach, and in the intestines, disappear almost at once.

Ferreroze is very mild and certain in its action, and never causes inconvenience or distress. Ferreroze can be taken early as long as required, and it does not interfere with business or pleasure, and nothing may be feared from its use, how ever prolonged it may be.

For Constipation, Piles and Sick Headache, Ferreroze stands unrivalled. The drive of the city Express Company, who have used Ferreroze for years, can give the immediate sense of comfort it produces, and pairs in the head, and stomach, and in the intestines, disappear almost at once.

Ferreroze always cures, and can be purchased at any reliable drug store for 50 cts. a box or three boxes for \$1.25 Sent to your address by mail. Prices forwarded to N. C. Folsen & Co., Kingston, Ont.

I dunno what to do about Josh, said Farmer Cornstossel. He don't seem to have much enterprise.

You've been complainin' bout the boy ever since he went to that theayter, replied his wife reprovingly. You've gone ahead and cleared a' the debts off the place, an' ef there ain't any incentive for Josh to go out in the wide world an' hustle, so's he can come home back an' lift the mortgage jes' as the landlord is about to foreclose, ef's your own fault.

Bertha—I'm sorry you asked me to marry you. It pains me to refuse.

Will (cheerfully)—Oh, don't worry! Perhaps you know best what I'm escapin'.

Minard's Liniment Cures Dandruff.

The food value of a pound of veal is little more than half that of a pound of beef. Eggs and lean beef have the same value in equal weight.

EQUALITY OF RACES

MAY BE SO THEORETICALLY, BUT NOT REALIZED PRACTICALLY.

An Article From the London Express Which Will Cause Many Unprejudiced Canadians to Open Their Eyes Wide—The Color Line Problem Under the Free Union Jack.

Throughout the whole British Empire, wherever the white man is confronted by the black man en masse, the prejudice against the latter is bitter in the extreme.

The theory of equality, the "man and brother" doctrine, however beautiful it may appear on paper is absolutely unworkable in the practice of every-day life. We rule our dependencies—India, South Africa, the West Indies, Ceylon, Australia, the Straits Settlements—by a rigid enforcement of the superiority of the white man. And this is inevitable, and it is as necessary as it is inevitable.

We should not hold India for a day did we not realize and act up to the well-proved and absolutely undeniable fact that the white man, in all essentials, is immeasurably the superior of the black.

Of course, to the ignorant, untraveled sentimentalist this is appalling, and he will indignantly deny the truth of my assertion. To many an untraveled cockney the black man is as good as, if, indeed, he is not better than, the white man.

A Stern Duty.

But to the initiate, to the minority who know, as opposed to the unthinking majority who do not know, the suppression of the black man is a stern duty. Nothing, surely, is more remarkable than the dislike and distrust of the black which is invariably felt by the white when he encounters the former mass. There must be a reason for this.

Carlyle and Froude—the latter to me personally—both pronounced the emancipation of the slaves in America a very mixed blessing indeed. And certain it is that in the old days the condition of things between white and black was infinitely happier and more desirable, safer and more natural, than it is to-day.

For one Legree there were a hundred owners who treated their slaves as friends more than servants; to-day there is nothing but hatred between the two.

In India, of course the line of demarcation is necessarily very rigid. We are in a minority, and if we are to keep the upper hand it is absolutely essential that white supremacy should be enforced, even at the sword's point.

CONSTIPIATION

Causes Headache, Abdominal Pains, Piles and in Severe Cases Insanity and Apoplexy.

It is a common mistake to conclude that Constipation is not a dangerous condition. Although at first it is only accompanied by slight inconvenience and pain, yet if not corrected, it will inevitably lead to very dire results.
