The Confederate Price is very troublesome in Missouri. He captured and burned two Railway trains near Palmyra, damaged railroads, burned bridges and sacked Franklin, Norton, and other towns.

The Presidential war is waged with energy. Connecticut is now pronounced safe for Mc-

It would have been much better to save than to destroy all that property if there were no reason to dread a return of the Confederates in force suffic ent to compel the Federals to fly back to the Potoms

Another frightful tragedy is reported from the Chinese seas. The brig Louisa was or 30th of May off the coast of Hainan, when sh was attacked by a junk, and the Malay crew after fighting gallantly till their only cannot burst, jumped overboard. The pirates the came on board and cut off the captain's hand. nd commenced to cut off his toes, to make confess where his money was. At las he captain jumped overboard, but after a deed effort for life, said to have lasted four irs, sank from fatigue and loss of blood .-The mate was already dead, and the gunne having thrown his wife and child overboard jumped after them with a plank, and kep n and himself afloat till he was picked up other vessel. The Chinese then tied the hands of the captain's son, threw him into the sea, and fired the vessel, which was seen burning by the crew of the Young Greek. They nicked up the gunner and his wife, and rescue the Chinese cook and a passenger, the only survivors of all who were on board. Th murderers slipped away.

We can not imagine where all the peopl who arrived in Fredericton on Tuesday nigh found shelter of any kind. The Hotels an Boarding Houses were all crowded on Tuesda ng. On Tuesday evening the Anna Augusta brought over three hundred passengers Some of these had rooms previously engaged but the majority were rushing about wildly and almost hopelessly in search of lodgings After that the Sunbury arrived with a larg number, and later still the Heather Belle. The Forest Queen arrived there about four or fiv in the morning, and her passengers would have at least shelter until daylight.

We saw something in the newspapers abou reception committee, but we saw no sign in ericton of the existence of any such body The strangers who arrived there on Tuesday night were left to find lodgings if they could and the Globe says that numbers of them wer compelled to spend the night on the street.

Fever appears to be again on the increase in iverpool. At the workhouse there are no ewer than 207 fever patients—a number exceeding the return of any previous period. The irulent character of the epidemic is indicated to the return of the medical officers of health, who reports that the deaths from fever last week in the town were 31, or 18 above the average.
