The Currie Business University, Cor. Charlotte and Princess Sts. ST. JOHN, N. B. Thirty Years for Kelley.

DOVER, N. H., November 12.—Joseph E. Kelley broke down and wept last night for the first time since his trial began. This was at the close of the day's session, which had been taken up by the court in hearing Kelley's family and acquaintances, and the three insanity experts, employed by the defence to testify in his behalf to establish proof of his insanity.

Michael Kelley, Joe's father, told of his son's unshakable passion to stand and of his exceedingly strange doings when a boy at home. Edward E. Lund stated that Kelley told him a year ago that he began running a hotel at Harpswell, Me., but found that the devil was against him and so gave it up.

At ten o'clock this morning Joseph E. Kelley was found guilty of murder in the second degree, and was sentenced by Chief Justice Carpenter to thirty years at hard labor in the State prison at Concord.

When the Court came in at 9 o'clock this morning, the State introduced further expert testimony in rebuttal put in by the defence as to the insanity of the prisoner, but without exception the witnesses expressed the opinion that Kelley was a person of limited responsibility. Some went further than that and considered him to be insane to the extent of being unable to resist impulses. Witnesses were also put on by the defence. Dr. George F. Kelley, of Boston, did not think Kelley was feigning insanity. His mental development was no greater than that of a child. Dr. Walter Channing, of Boston, said that Kelley could not help stealing. He had been known to steal many things that were of no use to him. He said Kelley had tried to feel sorry for his crime, but could not do so. Five witnesses in all were examined. No arguments were submitted by the opposing counsel. After a recess of fifteen minutes the judges came in and rendered their decision. Kelley received his sentence without a show of feeling.

Engineer's Strike. LONDON, Nov. 12.—It is expected that when the conference is held between the Employers' Federation and Amalgamated

Society of Engineers, it will be found that the combatants are disposed to end the dispute. The terms under which the conference will be held will amount to the defeat of the engineers. They are to withdraw the strike notices prior to the discussion, while the lookout notices given by the employers will not be withdrawn. It is probable that work will be resumed on November 22. The employers are expected to give consent to a reduction of the working hours, if there is a corresponding reduction in wages. The leaders may accept these conditions, but the rank and file will probably prefer to work on the old terms rather than accept any reduction in pay. Indication of the weakness to which the Amalgamated Society of Engineers has been reduced, is that it has applied for admission into the Federated Trades Union.

Against Bolivia. VALPARAISO, Chili, Nov. 12.—Information from official sources is to the effect that the plan for a Dreibund, of Chili, Peru, Argentina, is in existence, which, if adopted by the three governments, will wipe Bolivia off the South American map. Chili, Peru, Argentina, dividing her territory. Chili and Peru have become entangled with Bolivia. What the result will be no one can tell.

On the best authority it is stated that Signor Salinas, Chili's Minister to Sagra, Bolivia has gone to Santiago de Chili to confer with the Government on the situation. The Government flatly denies that he will not return to Sagra, though there are grave fears that he will be murdered if he does return, as the feeling there against Chili is intense. In the clubs, cafes, at social gatherings, everywhere in Bolivia, one hears Chili talked of as a faithless, disloyal nation. The plan is to bring about war with Bolivia. For Peru's assistance Chili promises to return to Peru the provinces of Tacna and Arica, without putting the question to a popular vote or demanding of Peru the ransom as provided in the Aconcagua treaty. Chili is also prepared to furnish Peru with all necessary arms and munitions to carry on the war with Bolivia. In this connection the Deibund against Bolivia is being considered. Argentina, it is said, will be invited into the alliance to give strength to the movement.

Hibernia. To EDITOR QUEENS COUNTY GAZETTE. The letter in your issue of the 27th ult., needs some criticizing as there are some misleading statements concerning our election. In the first place about the name New Ireland—that change of name came about long, long ago and the inhabitants had nothing to do with it; it being done by the late Mr. Farris, then M. P. for Queens county. 2nd, concerning the name your writer gives New Jerusalem. He calls it a hamlet. Such name would be more appropriate applied to Woodville and the district below. 3rd, about Mr. Darrah's nomination papers being too late to be filed; true Mr. Rathburn was away from home as mentioned in the letter—so was Mr. Darrah, away the same day to the same place. The first mentioned was trading horses, the second retailing apples, but the Parish Clerks office was open just the same and Mr. Darrah's nominees had every opportunity to take the necessary declaration as your correspondent is creditably informed that he met near Mr. Rathburn's a J. P. This J. P. could have taken the declaration and Mr. Darrah's papers could have been filed in time, but, rather

than let Mr. Nickerson (which J. P. it was) know about it, away he drove, and the consequence was Mr. Darrah's papers were too late.

Extreme Nervousness FREQUENTLY BRINGS ITS VICTIM TO THE VERGE OF INSANITY.

The Case of a Young Lady in Smith's Falls Who Suffered Severely—Given Up By Two Doctors—Dr. Williams' Pink Pills Have Restored Her Health.

From the Smith's Falls News. Many cases have been reported of how invalids who had suffered for years and whose case had been given up by the attending physician, have been restored to health and vigor through that new world famous medicine, Dr. Williams' Pink Pills, but we doubt if there is one more startling or more convincing than that of Miss Elizabeth Minshull, who resides with her brother, Mr. Thos. Minshull, of this town, an employe in Frost & Wood's Agricultural Works. The News heard of this remarkable case, and meeting Mr. Minshull asked him if the story was correct. He replied: "All I know is that my sister had been given up as incurable by two physicians. She is now well enough to do any kind of household work and can go and come as she pleases, and this change has, it is my honest conviction, been brought about by the use of Dr. Williams' Pink Pills. Mr. Minshull then related the following story to the News: "My sister is twenty years of age. She came to Canada from England about ten years ago, and resided with a Baptist minister, Rev. Mr. Cady, at Sorel, Que. In April, of 1896, she took ill and gradually grew worse. She was under a local physician's care for over five months. The doctor said that she was suffering from a complication of nervous diseases, and that he could do little for her. The minister with whom she lived then wrote me of my sister's state of health, and I had her come to Smith's Falls, in the hope that a change and rest would do her good. When she arrived here she was in a very weak state and a local physician was called in to see her. He attended her for some time, but with poor results, and finally acknowledged that the case was one which he could do very little for. My sister had by this time become a pitiable object; the slightest noise disturbed her, and the slightest exertion would almost make her insane. It required someone to be with her at all times, and often after a fit of extreme nervousness she would become unconscious and remain in that state for hours. When I went home I had to take my boots off at the doorstep so as not to disturb her. When the doctor told me he could do nothing for her, I consulted with my wife, who had great faith in Dr. Williams' Pink Pills, as she knew of several cases where they had worked wonderful cures, and I concluded it would do no harm to try them anyway, and mentioned the fact to the doctor. The doctor did not oppose their use, but said he thought they might do her good, as they were certainly a good medicine. In September of last year she began to use the Pills, and before two boxes had been used, she began to show signs of improvement. She has continued their use and is today a living testimony of the curative power of Dr. Williams' Pink Pills. Mr. Minshull had no hesitancy in sounding the praises of a remedy that has worked such a change in the health of his sister and cheerfully gave the News' the above particulars, and when asked to do so most willingly signed the following declaration:—

SMITH'S FALLS, Sept. 11th, 1897.

I hereby make declaration that the statements in above as to the condition of my sister, and the benefit she received from the use of Dr. Williams' Pink Pills are absolutely correct.

Dairy and Creamery. Vegetable gardeners have found there is refuse on their farms to feed several cows, and that keeping them pays well in connection with the added fertility which the cow brings to the soil. A butter factory in the vicinity of a large tract of vegetable gardens is the right thing. When there is no creamery and vegetable gardeners have a retail trade they can add delicious butter, cream, and pot cheese to their goods and make money in two ways.

A milk aerator is a necessity on every farm where cows are kept. So is a milk cooler. An expert declares that after a butter tub has once become mouldy it is impossible even by steaming and sandpapering ever to clean and purify it again. Put up in big letters at the entrance to every door in the creamery or in your milkroom if you keep a private dairy, likewise in the cow stable, the sign, "No smoking."
