obtained for mechanical devices, medical or other compounds, ornamental designs, trade-marks and labels. Caveats, Assignments, Interferences, Infringements and all matters relating to Patents, promptly attended to. We make prelimary examinations and furnish opinions as to patentability, free of charge and all who are interested in new inventions and Patents are invited to send for a copy of our "Guide for obtaining Patents," which is sent free to any address, and contains complete instructions how to obtain Patents, and other valuable matter. During the past five years we have obtained nearly three thousand Patents for American and Foreign inventors, and can give satisfactory references in almost every county in the Union.

EYE CLASSES

A RE the best for the preservation of the sight, and took the medal at the Centennial Exhibition.

The lenses are made of the best material, uniform in density, and of high refractive power, their perfect polish and spheroidal shape adapt them to ease and improve the sight of the wearer. The eye being the most delicate organ great care should be exercised in selecting spectacles; it is not enough that the glass be of the right focus, but the lenses must be perfectly centered and in many cases perfect relief is only given by having each eye fitted separately. To effect this the lenses are made interchangeable, and having an Opto-A TTENTION is requested to the following list of FIRST CLASS Insur-fit is guaranteed.
