Railway Strike Affects Miners.

Numerous Volunteers Offering Their Services --- U. S. Govern- ment Demands Apology From Cossack General--Trouble Brew- ing in the Balkans -- Admiral Beatty's Opinion.

MANY VOLUNTEERS OFFERING.

LONDON, Sept. 30.

The response to the Government's appeal for volunteers continues astonishingly great. Members of the Cavalry Club, Royal Air Force Club, colonels, majors, barristers, accountants, consulting electrical, mechanical and civil engineers are to be found among the strikers at the underground power house and undertaking traffic duties at stations, working lifts, etc. The latest news from South Wales shows that most of the leading Welsh industries, including coal mining and tin plate, are working badly. The strike has affected at least four hundred thousand miners and twenty-six thousand tin plate men, while work on the docks is at a standstill. Pickets near Cardiff last night captured a number of pickers from the railway and handed them over to the police.

BLOCKADING GERMANY.

PARIS, Sept. 30.

The blockade of Germany, which was threatened by the Allies in case the German troops of General Von Der Goltz were not removed from the Baltic region will begin to-day, according to despatches. No food ships, it is declared, will be permitted to start for Germany until further orders are issued.

DEMAND APOLOGY.

WASHINGTON, Sept. 30.

Major Gen. Graves, commanding American forces in Siberia, acting upon official instructions from the War Department, has demanded an apology from Gen. Rozanoff, Cossack commander for the flogging of an American soldier, and an investigation of Japanese interference with American and Cossack forces. Gen. Graves has reported the incident in detail and army officials' said to-day the situation was the most serious which has occurred since American forces went into Siberia.

SIR R. BORDEN TO TAKE REST.

OTTAWA, Sept. 30.

Acting under medical advice Sir Robert Borden is to leave Ottawa this week for a rest of probably a month. Alarmist stories that his condition is serious are discounted, but the strain of the last four years has been so great that Sir Robert has become thoroughly run down, and a thorough rest will be needed to enable him to recuperate from an attack of grippe.

WILSON IMPROVING.

WASHINGTON, Sept. 29.

President Wilson, after two days of quiet and rest at the White House, showed further improvement to-day.

TROUBLE IN THE BALKANS.

PARIS, Sept. 30.

The inflamed conditions in the Adriatic region and the dissolution of the Italian Parliament for the holding of a general election on November 16, as Rome despatches have announced, is giving the supreme council much concern in view of the possibility of all the Balkans becoming involved in the turmoil.

GOVERNMENT'S STATEMENT.

LONDON, Sept. 30.

(Reuter's)—The following statement was issued by the Government to-day: "Railway services are improving. Schedules prepared by the companies yesterday were exceeded. Minor acts of sabotage were reported yesterday. In one case during the night red danger lights of certain signals were changed to green. Fortunately no loss of life occurred. Necessary steps have been taken. The distribution of food continues satisfactory, thanks largely to the admirable spirit and efficient work of the volunteers. Offers of volunteer service have been overwhelming. They are being collated as rapidly as possible and calls for service will be issued increasingly from day to day. The Ministry of Labor states that in view of the doubts expressed in regard to the position of the railwaymen remaining at or resuming work, the Government desires to make it clear they undertake not only to afford such men every protection during the present strike, but also to safeguard their interests as railwaymen against any measure of prejudice to which they might afterwards be exposed owing to such action."

BOTH SIDES OF THE QUESTION.

LONDON, Sept. 30.

(Reuter's).—The overwhelming majority of the public has not yet grasped

the issues in the strike, and consequently the newspapers are giving prominence to these. It may be worth while summarizing the position again. The railwaymen demand that every worker except the firemen and drivers who have no grievance, shall receive as permanent standard wages the 33 shillings weekly which was given as a flat war wage, plus the highest rate paid before the war in their respective grades, with a minimum of sixty shillings weekly. The Government offers that the new rates shall be one hundred per cent. above war rates with a minimum of 40 shillings weekly, that the difference between these new rates and present earnings shall be maintained until the cost of living has fallen to 110 per cent. over the pre-war figure. (When the aforementioned war wage was awarded the cost of living was 125 per cent. above pre-war, now it is 115 per cent.) That is and when the cost of living has fallen to 110 per cent. the residue of the war wage shall still be paid until the cost of living has remained at or below that level for three months and even then the residue of the war wage shall not fall off in a lump but shall be readjusted either by a sliding scale of by reference to an independent industrial tribunal. The difference between the demand and the offer may be briefly illustrated. The railwaymen demand that a man who received 18 shillings weekly before the war and now receives with the aforementioned a war wage of 51 shillings weekly, shall in future have a minimum wage of sixty shillings weekly. The Govt. offers the 18 shillings man a minimum of forty shillings, plus 11 shillings residue of war wage until Dec. 31, and thereafter until the cost of living has appreciably and permanently fallen. Then the 11 shillings may be reduced gradually in proportion to a further fall in the cost of living. Some of the labor correspondents are urging the Government to make it clear that the forty shillings shall be guaranteed as a permanent minimum. It is expected an official statement will be issued in this regard shortly.

A BROADER INTERPRETATION.

LONDON, Sept. 30.

Admiral Lord Beatty, speaking at Kirkcaldy, said he had noticed that the railwaymen's leaders had congratulated the men on their loyalty to the union. Admiral Beatty remarked that it seemed to him loyalty required a much better interpretation. When hanging out clothes, hang them with the openings facing the wind, so that they will dry quicker. Perspiration stains can be removed from a garment by soaking it in strong salt water before washing.

Grand Falls Garden and Industrial Ass'n.

The Association held their annual Show on September the 18th.

As compared with former years, the exhibition was a little disappointing. The number of entries was much lower than last year, being 159 as against 465 at the previous show. This is attributed to the poor weather conditions prevailing this season. Several sharp frosts, combined with heavy rains had a bad effect. As an example: the rainfall in July amounted to 8.2 inches, the highest recorded here for any month.

For several of the classes no entries were received; others were not nearly as full as they might have been. All things considered, however, the quality of the exhibits was excellent, and in many cases was surprisingly good.

The judging of the exhibits was done with much skill and care by Mr. Byers, from the Truro Agricultural College, who made the journey specially for the purpose.

In the evening, Mr. Pike presided at a well attended meeting. The prizes were kindly distributed by Mrs. Chamberlain. A list of the winners appears below.

After the distribution of prizes, Mr. Byers delivered a short and interesting address, taking for his subject the making of a garden. He spoke of the best method of preparing the soil, selection of seed and similar matters, in a clear and convincing manner, and gave many useful and suggestive hints, which, it is hoped will be put into practice during next season.

A vote of thanks to Mrs. Chamberlain and the lecturer terminated the proceedings.
