**British Foreign Secretary is Given Extra Police Protection**

**Miners Decline to Consider Armstrong's Proposal--Liberals and Labour Criticise the Budget--France May Also Adopt the Gold Standard.**

**PLOT AGAINST CHAMBERLAIN DISCOVERED.**  
LONDON, April 29.—Additional guards have been assigned to protect Foreign Secretary Austen Chamberlain. It is reported that a plot against his life has been discovered and the assignment of extra guards is presumably in connection with the alleged plot. The news of additional police protection for British Foreign Secretary, came from official quarters, but there was much reticence in discussing the nature of the supposed plot. It was intimated some of the details were discovered outside of London.

**CHURCHILL'S BUDGET CRITICIZED.**  
LONDON, April 29.—Spokesmen of Liberal and Labour parties launched an attack on Winston Churchill's budget when the House of Commons reassembled to-day.

Philip Snowden, who held the office of Chancellor of the Exchequer in the Labour Government and turned the public purse strings over to Churchill when the Conservatives returned to power, declared it was the worst rich-men's budget ever introduced. Sir Alfred Mond, who has held numerous high offices in previous Governments, doubted the wisdom of the country's return to the gold standard, saying it would tie the British monetary system to that of the United States and make the London bank rate more subservient to Wall Street than it has been in the past, in order to obtain a purely sentimental result. Both Liberal and Labour spokesmen objected to the reimposition of McKenna's duties and imperial tariffs, while the Conservatives who spoke on the subject thanked Mr. Churchill for reviving them.

**REFERRED TO GOVERNMENTS FOR CONSIDERATION.**  
PARIS, April 29.—The Allied Council of Ambassadors to-day referred to various governments represented in Council the supplementary report of Marshal Foch on Germany's violation of the Treaty of Versailles. Action on the document is thus postponed until members of the Council receive instructions from their chancelleries.

**SUGGESTS COLOGNE EVACUATION.**  
BERLIN, April 29.—In order to bring about staple European conditions the question of the evacuation of the Cologne area by the Allies must be speedily settled, Dr. Hans Luther, German Chancellor, declared in a statement to-day. "For more than three months," he said, "we have waited in vain for reasons held to justify non evacuation."

**LABOUR MEMBERS REPORT OF BULGARIA.**  
LONDON, April 29.—Two members and former members of the British parliament, who visited Sofia, Bulgaria, immediately after the recent bomb explosion in the Cathedral there and remained in Bulgaria to study the situation, to-day again described conditions as they found them. The description was given in a report which declared the existing Bulgarian Government had caused the deaths of thousands of persons and will surely arouse a volcanic upheaval. The report stated life is held cheap in Bulgaria. A distinguished foreign resident said, a murder in the street excites as little attention as a minor street accident in London. Through-out the country power is in the hands of the Koubrat, or Military Officers' League. Already at least 4,000 persons have been put in prison, many hundreds being killed without trial, or after a mere shadow of a trial.

**CRISIS RESULT OF PAST CONDITIONS.**  
OTTAWA, April 29.—This particular crisis is the apex we have reached as the result of conditions which have existed for three and a half years, stated Rev. Dr. M. McAvoy, Superintendent of general relief at Glace Bay, in addressing members of the House of Commons to-day on the situation among the striking miners and their families in the Cape Breton coal area. There are 4,500 returned men in Glace Bay, he said, to whom a layette is only a toy. If relief had not been given, he would have thought of what might have taken place. These men, he contended, naturally expected assistance in their crisis.

**MINERS OPPOSED TO ARMSTRONG PROPOSAL.**  
SYDNEY, April 29.—Reaffirming the contention that the mining industry of Nova Scotia can probably afford to pay better than 1924 rates, and defining the scale of wages as the absolute rock bottom proposal and then only as the rate for interim contract for one year

pending investigation of the wage paying capacities of the industry, the Executive of District 36 U.M.W. of America, in a telegram to-day to Premier E. H. Armstrong, decline his recent proposal of ten per cent. reduction for all classifications of mine labor receiving over \$4.50 per day. The proposal which constitutes the latest attempt on the part of the Premier to effect a settlement of the wage dispute between the miners and Besco has already been rejected by the Company.

**HALIFAX'S NEW MAYOR.**  
HALIFAX, April 29.—Alderman J. B. Kenny, K.C., was elected Mayor of Halifax to-day by a plurality of 215 votes over Alderman B. W. Russell, K.C.

**NEW BUDGET ENCOURAGES CANADIAN TOBACCO.**  
CHATHAM, Ont., April 29.—Tobacco growing will now become one of the leading industries of the Southeastern part of West Ontario, said ex-Mayor Fred Briscoe, of this city, in commenting on the preference accorded Canadian grown tobacco by the British Government.

**TWO KILLED IN EXPLOSION.**  
MAIDEN, Mass., April 29.—The bodies of two men were found by firemen to-day in the ruins of a building of the Boston Rubber Company's plant here which was wrecked by an explosion this morning. A third victim of the explosion was believed to be dying in hospital. Damage estimated at \$75,000 was caused.

**FRANCE MUST ALSO ADOPT GOLD STANDARD.**  
PARIS, April 29.—The establishment of the gold standard by Great Britain will necessitate France taking the same step, in the opinion of the best French financial authorities. Minister of Finance already is studying the question and has intimated it is necessary for the French people to make sacrifices to accomplish return to the gold standard.

**VOLUNTEERS NOT FORTHCOMING.**  
SOFIA, April 29.—The Bulgarian Government is considering calling one of the army classes to the colors as it has been unable to get ten thousand additional volunteers recently authorized by the Council of Ambassadors at Paris to pacify the country.

**Recommendation Came From Fellow Workers**

**So Says Toronto Man of Dodd's Kidney Pills.**

Mr. P. M. Raggatt suffered with rheumatism and found relief after taking half a box of Dodd's Kidney Pills.

Toronto, Ont., April 29.—(Special)—"I am writing to say how wonderful and quick your pills were in arresting and relieving an attack of rheumatism I had a few weeks ago. My occupation, a coal teamster, necessitates me being out late at nights during the severe winter weather. I had an occasion to get on my knees in the snow to put fuel into a basement. Two days later I had to stay at home with rheumatism in both of my knees. I was recommended to try Dodd's Kidney Pills, which I did. The first half box gave me relief and all signs of rheumatism have now gone after taking three boxes. I thank you for being able to give me relief. The recommendation of your Dodd's Kidney Pills came from several other coal teamsters that I work with."

This statement comes from Mr. P. M. Raggatt residing at 222 Woodmount Avenue.

Dodd's Kidney Pills act directly and promptly at the seat of the trouble.

**Pleasing Presentation**

A very pleasing presentation took place on board S.S. Portia on Friday evening, April 24th, when Charles E. White (Purser) was the recipient of a valuable silver tea service and tray from the officers and men of the combined ships Portia and Prospero on the occasion of his marriage, as a token of their good fellowship and esteem. Mr. White in reply for himself and Mrs. White thanked the donors, and assured them of his deep appreciation of their good wishes and handsome gift.

**International Police**

(By P. N. R. HILL)

It may be that as a result of the International Police Conference to be held in New York next month something more will be heard of the often repeated suggestion of an international police force. Actually of course such a matter is for Governments to decide, but it is hardly likely that when the police chiefs of the world meet in conference they will neglect to discuss, if only privately, such an important idea.

The project was first put forward by one of the European countries some years ago, but nothing came of it. Since then, however, crime, and by that I mean large scale crime—always excluding murder—has become international rather than national in character. The great financiers are not content to confine their operations to their own countries and similarly the really big crook finds one country too small for his operations.

Things are done on a wholesale scale nowadays; just as there are great commercial corporations so are there criminal organizations with their ramifications all over the world. Just now Canada is alarmed about the discovery of a large number of forged notes on one of its principal banks; the detectives are not looking for the forgers in Canada, but have come to Europe. Montreal is a far cry from London and the Continent, but the investigators know what they are doing. In Spain there is reported to be an organization which on the shortest notice will provide bona fide crooks with passports and the necessary visas for any country.

America is the home of the "big idea" in crime, and in the great cities of the United States there are organizations which, existing by fraud and chicanery, have their branches and agents throughout the world. It is with organizations of this description and the pursuit of a wanted man from one country to another that the proposed International Police would deal.

Presumably it would be composed of detectives of all nations, and their warrants and authority would run in any country. A member of the force would go anywhere in quest of his man and would not be met, as at present, with the hidebound regulations and often fatal delays of national procedure.

Matters the New York conference would undoubtedly discuss next month are the application of wireless to the prevention and detection of crime, with particular reference to the new

**DODGE BROTHERS SPECIAL TOURING CAR**

police car which has been prepared to facilitate rapid communication between the police forces of the world. This perhaps is based on that which is in existence in this country for use with the ordinary telegraph service. Then Scotland Yard's recently introduced system for telegraphic identification by finger-prints will be considered, to say nothing of plans for tightening up the co-operation between police forces and the intensifying of the war against crime.

**L. O. O. F. Parade at Clarenville**

The officers and members of Caribou Lodge, No. 148, celebrated the 106 Anniversary of our Order on Sunday last, by parading, and attending Divine Service. The route of march extended from Apsey Point, via Shoal Harbor, and on to Clarenville South. The service was held at Shoal Harbor, and the preacher was the Rev. Isaac Davis. From the text, "Have faith in God" the Rev. gentleman prefaced his remarks by saying, in part, that our entrance into life was a matter over which we had no control. Our existence is not a matter of choice, but was forced upon us. It was now not so much a question of "how we came" as that "we are here," and for a purpose. "There is a Divinity which shapes our beginnings, as well as our ends." Our very existence substantiates the fact that we should "Have faith in God." "By Him we live, and move, and have our Being." Going on to the subject of fraternalism the preacher, in choice language, said in substance that people from the beginning felt their sense of insecurity, isolation, and loneliness, and that they, in consequence, banded together in tribes, bands, etc., until we are today in possession of Social, Fraternal and Religious institutions that almost link the world in bonds of Brotherhood. Speaking particularly of the Order of the "three links," the Rev. Gentleman fully covered the principles for which it stands. "The three links," Friendship, "what a word to conjure with," "Love" the central link that joins friendship to truth. Its position is central around which all else must revolve. The last link "Truth" is indestructible.

"Truth crushed to earth shall rise again. The eternal years of God are hers, But error, wounded, writhes with pain And dies among his worshippers."

Not only did man find strength in unity, but gradually he learnt the greater lesson, that banded together as brothers, mankind could keep bright the ties of friendship, love, and truth, without which life would always be a burden greater than could be borne. All the great philosophers of the ages stressed the beauty of the fraternal spirit, the blessings of peace and unity, and the pursuit of Truth.

The preacher then discoursed on the great example of brotherhood Christ measured up to the highest principles of brotherhood in his life on earth. "He went about doing good." The key note of His idealistic achievements were made possible by "His Faith in God." "I go about my Father's business." Social, fraternal and Christian institutions have not measured up, though they have rendered valuable service. The vision is for the pure of heart. The utmost service can only be realized by having "Faith in God."

The parade lined up after the conclusion of this most impressive service and headed by the Salvation Army Band of Bonavista under the capable management of Commandant Ebsary, marched on to Clarenville South, and from thence to the Hall, where after the customary expressions of thanks were tendered the members of the Band for their stirring airs, so skillfully rendered, were given by officers of the Order, all dispersed feeling that they had rendered honor and service, to the institution in which we are proud to be a link.
