DRPRCES Gream Baking Powder

Dr. Price's Cream Baking Powder is free from alum and lime phosphates. Made from grape Cream of tartar and absolutely pure. Its use is a safeguard to health, for it actually aids digestion, and relieves from all anxiety as to the wholesomeness of the food.

On the other hand each attempted imposition of an alum baking powder upon the consumer is a covert attack upon the health of the family. Of course, no grocer would knowingly sell injurious food to his customers; but he has himself been deceived as to the true character of the cheap powders by their manufacturers.

Forewarned, and solicitous for the health of her family, the housewife will be influenced to a constant watchfulness and a stubborn resistance against the danger.

Baking Powders sold at a lower price than Dr. Price's are almost invariably made from alum, and therefore inferior, and prejudicial to health.

Are Domestics Looked Upon as Business Women?

THE following letter received from a housekeeper deals with a very wide and vital question, considering the amount of help engaged in this country and city. Perhaps it is only fair, however, to say here that the reason why the domestic branch of work was not represented on the executive of the Business Girls club was because no domestics have to be granted, whether or no, to obtain and keep any help, rather than as rights which should be will-ingly given to the hard-orking members of an honorable occupation? their business to make representatives on the executive possible. Special scenery is being prepared so that it will be staged as an exact du-plication of the original production in London, England. The costumes have sirved and prove to be very handsome and correct in detail.

"The Yeomen of the Guard" is a notoriously expensive opera to produce. Some idea of the thoroughness with which the society is doing this work may be obtained from the fact that the expense of placing this before the public will amount to close on twelve hundred dollars, exclusive of the theatre proportion; by far the most ex-pensive the society has attempted. Under the directorship of Mr. A. P. NOT FAULTLESS, SAYS REV. A. D. MAGDONALD

Children's Aid Society Agent Correct Impression of Report Previously Published

'To Say Conditions In Stores Are Faultless Would Be Absurd," He Says

MISS JOSIE KIRKPATRICK, close friend of the Misses Woodrow Wilson, daughters of President Wilson, Miss Kirkpatrick is to have the first big wedding of the Wilson administration, when she marries George B. Huntingdon, a Washington lawyer, at the United States capital in May. Mr. Huntingdon is a Canadian by birth, his home being near Myrtle, Ontario.

Signed program was an advertising contest, in which keen interest was taken a guessing game, in which the names of prominent people were suggested by short phrases, was another interesting feature.

The program was concluded by the singing of the dorm boys' favorite selection, "One Girl For One of Us," to believe that every statement made in this report is absolutely correct. We do not believe, nor did we say that conditions in department stores in this city are faulties. Such a statement would manifestly be absurd.

It might not be necessary to say that we are in most hearty sympathy with every movement calculated to improve the conditions under which women are working and living, and that consistent with the aims and principles of our society we shall keep on doing everything possible to promote the moral and physical welfare of the young girls of the city.

I regret that my report

Rev. Mr. McDenald has further explained that the report in question referred only to Pryce Jones Ltd.

"Alberta West" took exception to the report of Rev. Mr. McDenald, published in an evening paper, as giving a misleading impression of conditions in department stores in general, Rev. Mr. McDenald not having stated the name of the firm in whose store he made his inquiry,

LECTURE ON MORMONISM

On Monday afternoon under the auspices of the Women's Missionary society, Mrs. Baker addressed a large audience in the Wesley Methodist church, when she outlined the theory and practice of the Mormon creed.

The speaker explained that the preorganized Mormon church, or Latter Day Saints, should not be confused with the Utah Mormon church, or Latter Day Saints. The former does not practice or does not sanction polygamy. Further, it denies the revelation concerning plurality of wives as said to have been given through Joseph Smith.

Joseph Smith.

These facts are not evimental today. spread, two numered minions in the world today. These facts are not evidence that these systems of religion were of God. Neither do we find in the spread of Mormonism any evidence that it is of divine origin. As a system of religion Mormonism is one of materialism. The organization is largely Judaistic. be Christian as it gives Christ a place. It contains pagan elements.

The founder of Mormonism—Joseph Smith—was compared with such true prophets as Moses and Isaiah fullness, perfection and end of revelation is found in Jesus Christ the Son of God.

The Mormon sacred books were discussed and a meager delineation given to the conception of God and of Christ. The doctrine of polygamy was considered and traced through the intire fabric of Mormonism.

In order to counteract the influence of this teaching we must elevate the standard of morality, that people may be prepared to resent every form of sensuality; we must teach a pure, spiritual gospel, and lead men and women to worship God in the beauty of holiness.

Rev. Mr. Shearer who also addressed the meeting, said that Mrs. Baker had been very temperate in her remarks and read extracts from a sermon by Young, who he stated, must have been one of the vilest men who ever lived. A vote of thanks was proposed at the close of the meeting by Mrs. Scott
