PAID THE BILL

British Bering Sea Claims

Settled. Washington, June 17 .- The claims of the Canadian sealers arising out of seizures made by the United States in the Bering Sea were finally settled yesterday by the payment to Sir Julian Pauncefote, the British ambassador, of approximately \$473,000, being the full amount of the claims, as settled under

LOCUST PEST

States and Great Britain.

Feared That the Plague Will Be General Next Year.

Winnipeg, June 17.-It is reported that the Rocky Mountain locusts have made their appearance in small sections in Southwestern Manitoba. They are the same as the hoppers that overran the country in 1874-5, and at different periods previously. The insects are doing great damage in the Dakotas, and it is feared the plague will be general next year. The state entomologist of Minnlesota has issued warnings to farmers, after making an inspection of the Dakotas at the solicitation of the Northern Pacific Railway officials, to adopt every means of destroying the eggs that will be deposited this year, by plowing their land deep, fire, etc.

It's not the cough, but what it may end in, that makes it so serious. The cough may be cured, the serious consequences prevented by Dr. Chase's Syrup of Linseed and Turpentine.

Bombarding The Batteries Bequillul Teeth

Sampson's Ships Have Another Go at the Forts

Guard the Entrance to That Santiago Harbor.

One Totally Knocked Out the World from Key West says: An and Others Smashed.

Steps Taken to Release Hobson and His Comrades.

Stampede of 3,000 Mules and and Horses at Tampa.

Left for Manila to Prevent Dewey From Bombarling the

On Board the Associated Press Dispatch Boat Dauntless, off Santiago de Cuba, Thursday, June 16-Navy, via miral Sampson's fleet bombarded the batteries at Santiago de Cuba for the hours the ships pounded the batteries only sparing El Morro, where Lieut. Hobson and his companions of the Merrimac are in prison. The western batteries against which the main assault was directed, were badly wrecked. One was utterly destroyed. In

others many guns were dismounted. At first the Spaniards replied wildly, but impotently. Then most of the guns were deserted. Not a ship was struck, nor a man injured on the American

It is believed that the enemy's loss of

life was heavy. Coffee was served the men at half past 3 in the morning, and with the first blush of dawn the men were called quietly to quarters. The ships steamed in five-knot speed to a 3,000 yards range, when they closed up broadside on until a distance of three

cable lengths separated them. They were strung out in the form of a crescent, the heavy fighting ships in the center, the flagship on the right flank and the Massachusetts on the left flank. The line remained stationary throughout the bombardment. In fifteen minutes one western batery was completely wrecked. The Massachusetts tore a gaping hole in the emplacement with a thousand pound projectile and the Texas dropped a shell into the powder magazine. The explosion wrought terrible havoc. The frame was lifted, the sides were blown out and a shower of debris flew in every direction. One timber, car-

ried out of the side of the battery, went tumbling down the hill. The loss of life must have been great. The batteries on the East of Morro were harder to get at, but the New Orleans crossed the bows of the New York to within 500 yards of shore and played a tattoo with her long 8-inch rifles, hitting them repeatedly, striking gun squarely muzzle on, lifting it off

somersaults in the air. When the order came at 6:30 to cease firing, every gun of the enemy had been silenced for ten minutes, but as the ships drew off some of the Spanishcourage returned and a half shots were fired spitefully at the Mass-

achusetts and Oregon, falling in their wakes. At the close of the action a stream of multi-colored flags floated from the New York, generally complimenting the ships, and especially commending the work of the Texas and New Orleans. The men of the New Orleans raised a cheer, which was passed quickly on from ship to ship, untif every jackie in the fleet was howling an agreement between the United

himself hoarse. The destruction and death at the western batteries must have been appalling. Many of the guns had been mounted during the last two days. From this it is inferred that Admiral Cervera had given up all hope of ex-tricating himself from the trap in which he is caught, and had removed the guns from some of his ships to

strengthen the land defenses. Admiral Sampson is highly gratified with the results of the bombardment. He thinks the western batteries practically demolished. As some of the guns on the eastern batteries did not fire, he thinks it possible they were only dummies.

The only regret expressed it that Lieut. Hobson and his men by their presence in El Morro made it sacred. Otherwise it would now be a pile of

The number of shots fired is not known when this dispatch is sent. Judged from a position near the flagship, which during the bombardment, with several interruptions, fired 208 shots, 35 from her 8-inch guns, 134 from her 4-inch guns, and 39 from her 6pounders, probably no fewer than 5,000 projectiles were fired, of a total weight of half a million pounds.

CARDENAS BLOCK-HOUSES DE-STROYED.

auxiliary cruiser reports a bombardment near Cardenas this morning. The Americans were determined to destroy three or four blockhouses which were being erected. The American ships went close in, according to the auxiliary cruiser, and peppered the blockhouses, which did not re-spond. The bombardment did not last

TO RELEASE HOBSON.

Washington, June 17.-Capt. Nicol Ludlow, commander of the monitor Terror, sailed from Key West this morning for Havana on a tug flying a flag of truce, to arrange for the exchange of Lieut. Hobson and the crew German Admiral Said to Have of the Merrimac. As soon as the Madrid government had authorized Gen Blanco to make the exchange of the Americans for the Spanish prisoners, orders were sent to Capt. Ludlow to proceed to Havana to make arrangements for the exchange. CRITICISM OF THE CUBANS WELL

ANSWERED. Washington, June 17 .- The work of the Cubans in reinforcing the marines Kingston, Jamaica, June 17 .- Rear-Ad- at Guantanamo, and particularly in occupying Acerraderos, is receiving unstinted praise from officials here Senor Quesada and the Cuban offithird time at daylight yesterday. For | cials also feel much satisfaction. Mr. Quasada said today that the Cubans had not seen fit to reply to criticisms at the right and left of the entrance, current during the last few weeks, as to the ineffectiveness of the Cuban soldiers, as they knew the criticisms were due to ignorance of the careful plans, largely matured at Washington. by which the Cuban forces were to execute their part of the well-considered programme. "But now that the Cuban flag is flying over Acerraderos," continued Mr. Quesada, "all the criticisms are answered. Acerraderos is but 15 or 20 miles west of Santiago de Cuba, and is the port for the great iron and copper mines of the lo-

GERMAN INTERFERENCE.

London, June 17 .- According to a special dispatch from Shanghai, Admiral Von Diedrich left Nagasaki, Japan, for Manila, with special instructions from Berlin to prevent Admiral Dewey from bombarding the city, and also because consul the Caroline Islands as a coaling station in case operations should be

undertaken against Manila. The Berlin correspondent of the Times, after quoting the Berliner Post and other official papers, and insinuating that some foreign power is trying to sow dissension betwen Germany and America, says: Why does not the official agency condemn the statements of the Maritime Politische Correspondiez, that Germany is hoping the outcome of the presence of her squadron at the Philippines may be the possession of a

harbor? Why not do this, instead of attacking foreign journals? The Vienna correspondent of the Times says: There is every probability that Austria will continue to maintain her neutrality. Such reports as to Austria's impatience for mediation are

completely void of foundation. El Imparcial says the government will shortly take steps against "American spies residing in Madrid and the provinces, who pretend to be English correspondents," and the paper adds that it is very probable "that the government will speedily adopt rigorous its trunnions and sending it sweeping measures against such agents of Am-

erica's interests." A 'STAMPEDE AT FLORIDA. which several lives may have been lost, occurred here last night among the horses and mules belonging to the army, corralled near the camp of the Second New York, Fifth Maryland and First District of Columbia volunteers. The camps are near the business part of the city. At midnight it could not be ascertained if any men were killed how many were wounded. The night was very dark and the camps in great confusion. The stampede started from some mysterious cause about 10 o'clock. More than three thousand mules and horses made a wild dash, breaking the fences of their corral and charging through the camp. Most of the men were in bed, and before they could receive the slightest warning many were under the feet of the animals. The soldiers attempted to break the stampede by firing a volley of shots, but this only made matters worse. The camps

of several regiments were destroyed. In Spain.

HOT FOR THE CORRESPONDENTS

New York June 17.-A dispatch to the World from Madrid says: The position of American residents and correspondents is becoming critical. The press has thought fit to denounce them so persistently as spies, that the authorities are said to be on the point in this matter, as in so many others. of giving way to the dictation and outcry of the press. Expulsion is the mildest step threatened, while "severe repression" is coolly insinuated. majority of the correspondents are not American citizens, but Spaniards, Englishmen, Germans and Irishmen. The Spanish newspapers display intense animosity towards all foreign correspondents, maliciously calling the attention of the authorities to the presence of several correspondents in Cadiz, Algecerras and Ferrol, denouncing the English correspondents as quite as bad as the Americans. It is interesting to note that at the same New York, June 17 .- A dispatch to time all the Madrid papers publish

without a bottle of our fragant Odontine. It is all that is needed to keep the teeth pearly white and free from decay. It is pleasant to use, and lends a delicate perfume to the breath. Odontine is also excellent for the gums, keeping them firm, rosy and healthy.

telegrams from their special representatives at Washington, New York, Tampa and Key West. A dispatch from Madrid says: Capt. Aunon's visit to Cadiz was with a

view of emperimenting at sea with a

new and py verful explosive shell which liberates poisonous gas."

THE LATEST BUGABOO. The Gibraltar correspondent of the Daily News says: "There is great indignation here at the American threat to bombard Cadiz. As for the rumor that Spain has sold the Philip pines to Germany, there have been s. many irregularities in the war thaone more would not matter. So sa, the Spaniards. The German view given vent to here is this: President Mckinley never wanted the war not did any members of his cabinet want It was the politicians, the jobbers behind the scenes, and some philan-thropists, who dragged the president into war and have forced him as far as he has gone. The taking of Manila by the Germans would enable him to say to the war party: "What did I tell you? Are you going to try conclusions with the Germans, the Russians, and possibly the French? No. It would throw the development of

the United States back too far to do THE PHANTOM CADIZ FLEET. Gibraltar, June 17 .- The captain of a German steamer which arrived here this morning reports having sighted the Spanish Cadiz fleet off Centa, north coast of Africa, about opposite and miles south by southeast of Gibraltar, yesterday evening. The warships, it is added, were going in az easterly direction. The fleet consisted of two battleships, four large cruisers, and four

large torpedo boat destroyers. SAMPSON'S COMMENTS. Off Santiago de Cuba, Thursday, June 16, per the Associated cress dispatch boat Dauntless, via Kingston, Jamaica, Friday, June 17.-While Rear Admiral Sampson, on the bridge of the flagship New York, watched the bombardment of Santiago de Cuba this morning, he saw two guns of the eastern battery apparently in position. He stopped the New York, as she was going back to her blockading position, and personally directed the firing of the eight-inch guns at these marks. Admiral Sampson, after the bombardment, said: "I do not believe there is much Capt.-Gen. Augusti offered the German left of the western battery. It got a great hammering this morning. The eastern fortifications were harder to hit. I think some of the guns we see there are Quakers. I wish Hobson and his fellows were not in Morro Castle We would knock that down were it not for that reason. I suppose the Spaniards deserted their guns soon after our fire opened. It would not do them any good to stay thee."

FIGHT AT MANILA.

Heavy Losses Inflicted on the

Spaniards. Insurgents Claim to Have Taken 3.000

Prisoners. London, June 17 .- The Madrid correspondent of the Standard says: The news from Manila is most unfavorable. and has made a corresponding impres-Misgivings are felt for the safety of Gen. Montejo at the hands of a strong column operating some dis-Tampa, June 17. - A stampede, in tance from the coast. It is said that many foreign residents, with their families and valuables, have taken refuge on British, French and German war vessels, while others have left for China and Japan. Most of the papers express a fear that the next news will be of the fall of Manila. The whole question, in the eyes of the Spaniards, is whether Admiral Dewey can prevent Aguinaldo from committing hostilities against Manila until the American reinforcements arrive, previous to which it is supposed he will have to allow European war vessels to co-operate in the difficult task of maintaining order

and saving Manila from the masses of insurgents.

A FIERCE FIGHT. New York, June 17.-The Journal has the following from Hong Kong: The most severe and important battle since Admiral Dewey's annihilation of the Spanish fleet has occurred at Manilo. One thousand insurgents attacked 2,000 Spanish, inflicting heavy losses and almost forcing the entrance to the city. The insurgents under Gen. Aguinaldo

and the American sailors and marines (Continued on page 5.)

An Explanation. The reason for the great popularity of Hood's Sarsaparilla lies in the fact that this medicine positively cures. It is America's Greatest Medicine, and the American people have an abiding confidence in its merits. Then buy and take it for simple as well as serious ailments, confident that it will do them good. HOOD'S PILLS cure all liver ills. Mailed for 25c. by C. I. Hood & Co.
