TRAIN STALLED IN NORTHERN TUNNEL

The Engineer Was Killed-Five Others Were Overcome, But Recovered.

Seattle, Wash., March 27.-The first

serious accident in the new Great Northern tunnel, which was opened for traffic about three months ago took place Sunday night and resulted in the death of Engineer W. W. Bradley from suffocation from the poisonous gases in the tunnel. His fireman Jos. W. Smith, and five other trainmen were overcome, but recovered soon after getting into the open air. The train, which was eastbound, became stalled in the middle of the tunnel. The fumes of the engine filled the place and the men were forced to lie on the floor of the tunnel for safety. When the train failed to appear at the east end of the tunnel the watchers there started in with a relief engine. The body of the dead engineer was found face down in a ditch at the side of the track. The rescuers had a hard time getting to the scene owing to smoke and gas. All the men rescued are nearly recovered tonight

TRAIN DROPPED INTO CHENANGO RIVER. Binghamton, N. Y., March 27 .- Passenger train 808, on the Utica division of the Delaware, Lackawanna and Western, was wrecked this morning at a point a mile and a half east of Norwich. The train is said to have gone into the Chenango River. Engineer, fireman and two passengers were hurt. The wreck was caused by

They have been in this country for the past three weeks securing data for the benefit of the imperial army, and intended remaining for three or more months, but were called

home. Gen. Yatsumi said: "According to the communications we have received from my government, I think that a conflict between Japan and Russia is inevitable. While a struggle."

BUBONIC PLAGUE SPREADS.

The bubonic plague situation is assuming a graver aspect. The proportion of European victims of the disease is increasing. Among those attacked vesterday were three soldiers belonging to different corps. A native employed in the navy died at

Simonstown. Eight other colored cases and two of Europeans are reported from there, and one native has died.

The threatening attitude of the Ma-lays respecting the bubonic plague regulation causes the local authirities much uneasiness. Two Malays died of the disease vesterday, and three fresh cases were officially reported. In addition there are six fresh European cases. A soldier in the Queen's Regiment has been isolated under suspi Two Kaffirs succumbed to the

He has also taken seven cannon, rifles, 1,800 wagons and 226,000 head of horses, cattle and sheep. The dispatch from Vryheid is regarded as giving the total of Gen. French's captures throughout his

operations. FAILURE OF KITCHENER'S

POLICY. The Pretoria and Bloemfontein correspondents of the Times send long dispatches claiming that Lord Kitchpolicy and operations have failed to achieve the results hoped for, and pointing out that the British public must be prepared to return to the original policy of occupying towns and studding the country with military posts as the only means of affecting complete pacification. This process, the correspondents say, will occupy much time and necessitate a constant supply of fresh troops. The strain on both officers and men has been and will be immense, and arrangements must be made to send absolutely fresh troops to the front in order to enable the others to be sent home. "Until this aspect of the case is grasped by the authorities," say the advices to the Times, "there is a possibility of the war lasting for years. It is quite useless to renew peace negotiations. Nothing approaching 'terms,' as the word is generally understood, would be politic or even possible with the Boers.'

The Daily Express prints a rumor that Sir Alfred Milner is dissatisfied with his qualified authority and has asked the government to give him "either a free hand or no hand." CANADIAN ORDER OF CHOSEN FRIENDS

London March 27.-A dispatch from Hold Their Fourteenth Annual Session at Hamilton-Statistical Facts.

> Hamilton, March 27.-The fourteenth annual session of the Canadian Order of Chosen Friends opened in Association Hall yesterday, with 500 delegates in attendance from all parts of the Dominion. The officers' reports show the growth of the order since it was organized in Hamilton in March, 1887. Last year was the most prosperous in its history. Twelve new councils were instituted and 3,227 new members added. The total insurance carried by the 22,000 members is about \$23,000,000, and since its inception \$900,000 has been paid in death claims and \$50,000 on sick and funeral benefits.

Rev. H. J. Allen, Napanee, grand councilor, in his report, refers with satisfaction to the splendid growth of the order, its healthy financial condition, and compliments the grand re-corder and grand medical adviser on their work.
Grand Recorder Montague's report

contains a table showing the increase

of surplus funds since the beginning of the order. In 1887 it was \$800 in debt: 1888, \$2,500 in debt: 1889, \$1,643 89 surplus; 1895, \$100,734 surplus; and 1900, \$214,254 47 surplus. Grand Treasurer Broadfoot's report gives in detail the receipts and disbursements of the various departments for the year, all of which goes to show

order is in a sound condition financially. The report of Dr. Wolverton, Hamilton, grand medical adviser, shows that during the year 3,227 applications for membership were approved and 255 rejected. The total number of deaths was 141, about 30 per cent higher than the previous year, owing to influenza and grip. The total amount paid for death claims was \$17,000. The total claims for sick

benefit was 544.

be \$230,628 60, and total liabilities, \$22, 008 22. The grand organizer visited 70 coun cils during the year, the expense on organization being \$9,028 67. MANCHURIAN CONVENTION

Not Yet Signed by Chinese Authorities,

And the Time Set by Russia Has Now Expired

Intimation That the Imperial Court WITHOUT ANY Will Move to Pekin

Pekin, March 27.-The Chinese had not signed the Manchurian agreemen last night when the time expired. London, March 27 .- The officials o the Japanese embassy confirm the re-

port that an imperial decree has been issued by the court at Sian Fu through Liu Kun Yi, the viceroy of Nankin, ordering that the Manchurian convention should not be signed March 26, the date fixed by Russia. An intimation of this decree has been telegraphed to the various governments concerned. The Shanghai correspondent of the Times, wiring yesterday, says: "I am informed on the best authority that the Chinese court has instructed Li Hung

A NEW PHASE. Washington, March 26 .. - While attention has been centered upon the having Lord Kitchener at his elbow to crisis connected with the Manchurian agreement, a new and important phase of the Chinese question has been presented by the action of the Gen. Babington's victory over ernments whether articles 8 and 9 of the Chinese protocol shall be carried out by the military authorities of all the powers interested in China, or only by those powers who are continuing to take part in the application

of these articles. These two sections appear to involve territorial affairs, and it may be that if their determination is left only with such powers as continue their military forces in China. The United States Government may be quietly, but effectually deprived of all voice in the set tlement of so much of the Chinese suestion as relates to the determinaforces to be continued there in th future by powers. It is also possible that this decision by the powers excluding the United States from partic pation in the discussion on this import ant point might be extended to put us

out of China altogether. ATTITUDE OF THE UNITED

STATES. London, March 27.-The Morning Post, in the course of a sarcastic editorial dealing with the memorandum of the United States Government on the Manchurian convention, says: The only thing that can bring the

powers together in support of China against Russia is the initiative of the British Government of which, however, there is no sign.' The Daily chronicle, discussing the same subject, says: "The United States Government objects, yet de-

clines to fight. It is not a very dignified attitude, but it is at least clearly defined and intelligible." "Owing to the South African com-plications the British Government apparently does not see its way to re peat the tour de force of Fashoda and as made up its mind to swallow the

snub as best it may." MEDICINAL SPRINGS DESTROYED Berkley Springs, W. Va., March 26 .-The fine medicinal springs, set aside over a century ago for the use of the public by Lord Fairfax, was dynamited by unknown persons Sunday morning. The controversy over the leasing of the springs to outsiders has caused ill-feeling, and the work of the vandal is attributed to this.

THE GALT TRAGEDY. Galt, Ont., March 27.-A coroner's inquest to determine, if possible, the cause of the mysterious death of Mrs. Cowan, convened at 2 o'clock yester day afternoon. OPPOSITION

The University Bill Given Its Second Reading.

Railway Bill Affecting London Passed the Committee-Sugar Beet Bill Amended.

Toronto, March 27 .- The government's bill to provide aid for the University of Toronto provoked a spirited debate in the legislature yesterday on the occasion of its second reading. Hon. Mr. Harcourt explained the bill in a speech which, while delivered in his usual eloquent manner, was a concise, business.

like statement of the situation. Mr. Whitney followed, taking the ground that the government had not gone far enough in its measure of relief, and declaring that even now the opposition would back them in giving all the senate asked for, and would allow the government to take credit for the step.

The premier replied in a clear and argumentative speech, in which he set forth the advantages which will accrue from the bill, such as the relief of the university from deficits and the splen encouragement the expanded science department will offer for the development of our industrial resources

The bill was read a scond time out division SUCCESSION DUTIES ACT. The premier introduced a bill to amend the succession duties act. This provides that only bona fide debts are to be deducted in ascertaining the value of an estate; adds to the preferred class of beneficiaries grandchildren and other lineal decendants, adopted children and children to whom

the deceased has stood for ten years

in the acknowledged position of parent.

It makes it clear that all estates in

Ontario which are taxable taxed, whether the deceased has been a resident of the province or not. INOPERATIVE STATUTES. The attorney-general introduced a bill to repeal the various imperial statutes, either obsolete or spent, or otherwise inoperative. Mr. Gibson men-tioned a number of ancient statutes,

dating back as far as Edward I., which were still in force in Ontario, though SHOPS REGULATIONS. Hon. Mr. Dryden introduced an amendment to the shops regulations act. This provides that owners of shows shall bear the onus of providing sanitary safeguards; makes it quite clear that employes in bakeshops shall not be compelled to work more than twelve hours a day, and enacts that employ-

ing barbers shall not have the power

compel their workmen to work on

Sundays. BEET SUGAR BILL. Hon. Mr. Dryden's resolution setting apart \$225,000 for the encouragement of the beet-root sugar industry was adopted, and the bill providing the manner in which the money is to be applied was discussed at some length in committee. The bill was amended so as to provide that for the first and second years a bonus of one-half a cent per pound on refined sugar will be paid to the factories, and during the third year one-quarter

of a cent.

that the sum provided was sufficient for the purpose the government had in view Mr. Pattullo said the measure was one feature of the government's policy of which he was not greatly enamored. He would like an assurance that the sum mentioned was as far as the government intended to go. The premier said that so far as the Provincial Government were concerned the measure went as far as they thought would be needed, and as far
