Charles Finkbeiner Loses Balance in Tree and Drops on Pavement.

[Special to The Advertiser.] SEAFORTH, May 25 .- A sad accident occurred here this afternoon, in which the young son of Charles Fink- LLOYD GEORGE CHANGED beiner lost his life.

It appears he was "bird nesting" in a tree that overhung the cement pavement in the old Coleman orchard, Goderich street east, and, losing his balance, fell to the pavement below, landing on his head. The boy only lived an hour after the

accident. He was 11 years of age.

## DISEASE IS DUE TO BAD BLOOD

To Cure Common Ailments the Blood Must Be Made Rich and Red.

Nearly all the diseases that afflict humanity are caused by bad blood-weak, watery blood poisoned by imd blood is the cause of headaches and backaches lumbago and rheumatism; debility and indigestion, neuralgia and other nerve troubles, and disfiguring skin diseases like eczema and salt rheum show how impure the blood actually is. No use trying a different remedy for each disease, because they all spring from the one cause-bad blood. To cure any of these troubles you must get right down to the root of the trouble in the blood, and that is just what Dr. Williams' Pink Pills do. They make new, rich blood and thus cure fails. Mrs. John Jackson. Woodstock. Ont., suffered from both nervous troubles and a rundown condition and experienced a complete cure through the use of Dr. Williams' Pink Pills. She says: "I was a sufferer for a number of years from neuralgia, and a general dehility of the nerves and system. I had tried several doctors and many medicines, but to no avail until I began Dr. Williams' Pink Pills. At the time I began the Pills I had grown so bad that I could hardly be on my feet and was forced to wear elastic bandages about the ankles. The pain I suffered at times from the neuralgia was terrible. I had almost given up hope when I began the use of Dr. Williams' Pink Pills. In the course of a few weeks I felt an improvement, and I gladly continued the of the Pills until I was once n quite well and able to attend to all my

usehold duties." If you are ailing begin to cure your Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Company, Brockville, Ont.

## Dandruff Surely

Destroys the Hair Girls-if you want plenty of thick beautiful, glossy, silky hair, do by all

means get rid of dandruff, for it will

starve your hair and ruin it if you

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the

finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely lve and entirely destroy every

single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails. A9-M26

### Ruinous Curling Iron No Longer Necessary

The woman whose hair has been burnt dreads the hot curling-iron. She knows only too well how destructive to the life and beauty of the hair this intrument for torture is. She will therefore welcome the information that a simple product the before a pay drug store will not the information that a simple product to be found at any drug store will not only give her tresses the desired wavy effect, but without burning, discoloring, streaking or injuring hair or scalp in any way. It is nothing more than plain silmering in liquid form. It should be applied to the hair with a clean toothbrush preferably at night

A convenient way is to divide the hair into strands and moisten these one at a time from root to tip. In the morning the hair will be found beautifully wavy and curly, having the appearance of perfect naturalness, no matter how the hair is done up. As the effect lasts many days, one need not get more than a few ounces of the liquid silmerine. This, by the way, is neither greasy lirish party at a meeting hor sticky.

# **BALFOUR IS NEW** "Bird-Nesting" LORD OF ADMIRALTY

Churchill Becomes Chancellor of the Duchy of Lancaster.

**Duties of Minister of** Munitions.

[Canadian Press.]

LONDON, May 25 .- 9:14 p.m.-Lord Kitchener retains the post of Secretary for War in the coalition cabinet which has received the approval of King George. The new first lord of the admiralty will be Arthur J. Balfour, Winston Spencer Churchill, former head of the admiralty, is given the portfolio of chancellor of the Duchy

Herbert H. Asquith retains the premiership, and Sir Edward Grey the Ministry of Foreign Affairs. David Lloyd George, chancellor of the exchequer in the old cabinet, will be minister of munitions in the new one. Official Announcement.

The official announcement on the new Cabinet says: "A place in the Cabinet was offered to Mr. John Redmond (the Irish Na-

tionalist leader), but he did not see his way clear to accept it.
"The Prime Minister has decided that new department shall be created, to be called the ministry of munitions charged with organizing the supply of nunitions of war. Mr. Lloyd George has ndertaken the formation and temporary direction of this department, and during his tenure of office as minister

of munitions, will vacate the office of chancellor of the exchequer. "It is understood that Mr. Henderson will assist the Government in matter relating to labor questions, especially

those arising out of the war. "The King has been pleased to con-fer upon Viscount Haldane of Cloan (the retiring lord high chancellor) the order of Merit."

The British public will not know the composition of the new cabinet until they read the papers tomorrow morning. The announcement was given to the press tonight with the stipulation that it should not be made public until the morning papers were issued.

Thirteen Remain.

The Cabinet is composed of twelve Liberals, eight Conservatives, one Laborite, Arthur Henderson, and one nonpartisan, Earl Kitchener. Thirteen members of of the old Cabinet remain in office. Of these, Mr. Asquith, Sir Edward Grey, Earl Kitchener, Mr. Runciman, Mr. Birrell and Mr. Wood,

retain their old portfolios. The promotion of Sir Stanley Buckwhose greatest activities during the war have had to do with the management of the official press bureau, to the high honor of lord chancellor, and the acceptance by Winston Spencer Churchill, former first lord of the admiralty, of the merely nominal duties of the Duchy of Lancaster, are two dis-

tinct surprises. The most pror tires from public life is Viscount Haldane. His affiliations with Germany, and the continued newspaper attacks, pased on these, made his retirement as nevitable as Prince Henry of Battenberg's retirement some time ago from Irish soil." the admiralty for the same reason. Viscount Haldane received an expression of the Government's confidence by the bestowal of the Order of Merit

upon him. Relief for Kitchener.

The retention of Lord Kitchener as ead of the army, while David Lloyd George, with the newly-created portfolio of the ministry of munitions, relieves him of the responsibility managing the supply department, and also A. J. Balfour's acceptance of the admiralty post, were fully expected. The Marquis of Lansdowne, whose nealth forbids hard work, becomes a nember of the cabinet without duties, except participation in its councils, and Mr. Churchill's position is virtually the same. His willingness to accept a position and work for the success of the new Government, is likely to make him popular with the country and aid his future political

career. To Rally Workingmen Mr. Lloyd George and Mr. Hender-

son will be especially charged with the task of rallying the workingmen to the Government's support, and much s expected of the former chancellor in organizing the country's industries. Sir Edward Carson represents Ulster faction of Ireland, and there s regret that Mr. Redmond declined to enter the cabinet and make the representation embrace all political

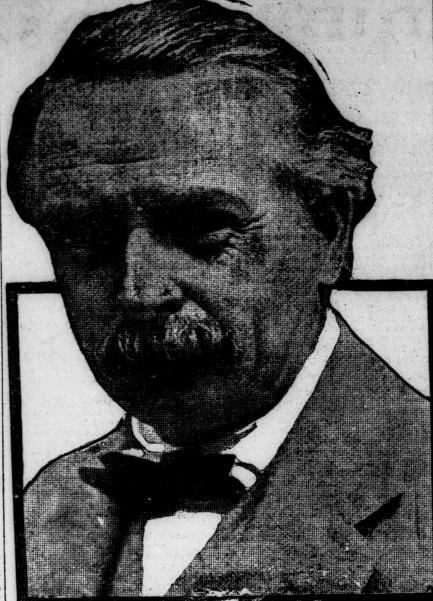

The cabinet undoubtedly includes the strongest men in public life; whether they will prove correspondingly strong ed that there are about 5,000 reservists as a working body is a question, the answer to which the country anxiously await.

DUBLIN, May 25. - 11:17 p.m. - The Irish party at a meeting today unani-mously adopted a resolution approving John Redmond's action in declining seat in the new cabinet. The party issued a statement declaring that "the events of last week have created a sitnation demanding the serious and careful consideration of the Irish people."

Reciting Premier Asquith's assurance that the coalition would not involve arms after a single treatment with dela- the surrender by any person of his tone. To remove the hairs, make a stiff paste with a little powdered dela-ment continues: "We accept that declaration, and so long as the pledge is onorably and strictly observed, we shall be ready to give to the new Government, in carrying on the war, the same hearty co-operation as has been given by the party to the last

> "This war, as the world has repeatedly been assured by British statesmen, is being waged for the strict and honorable maintenance of treaties and for the right of small nations to freedom and the unhampered development of their national life. These principles are very dear to Irishmen and of incalculable value to the future of the dent that these principles will be re-

Aged Brooklyn Woman Finds Health in Vinol

Brooklyn, N. Y.—"I was in a run-down, weakened condition caused by old age and the loss of my daughter. I had no ambition, strength or appetite, and it was hard for me to attend to my household duties. I tried different medicines without benefit. My son bought a bottle of Vinol and asked me to try it, and in a week I noticed an improvement. I continued its use, my appetite returned and I regained my strength so I am now able to do all my household duties although I am advanced in years."—Mrs. JOHN WERNIGER, 293 Hawthorne St., Brooklyn, N. Y.

It is the tissue building, curative elements of the cods' livers, aided by the blood making, strengthening properties of tonic iron contained in Vinol, that makes it so successful in building up strength for old people, delicate children and for all run-down conditions.
