DISTRICT NEWS.

**William Reid, colored, borrowed \$1 from a Windsor colored woman named Mrs. Brown, giving her as security, what she thought was a \$50 bill. She can neither read nor see well. It was advertising scrip issued by a business firm. The police are looking for Reid. **Nicholas Bott, who was released from the Central Prison a few days ago after serving half of an eighteen months' sentence for embezzling \$806 from Hiram Walker & Sons, Walker ville, will, it is said, be taken back in to the firm's employ. Some years ago another employe was sentenced to term in prison for some dishonest transaction, and was given his old

position on his release. **The auditing of the accounts in the estate of the late W. C. McLeod, Woodstock, occupied several hours Tuesday afternoon before Judge Finkle, and there was quite an array of counsel in the matter. The audit covered a period from April 30th, 1898, the time of the last audit, to the present time. It appeared that since thas time some \$98,000 had been received by the administrators. A number of questions were raised as to whether the list of assets correctly represented all the assets of the estate, and some of the parties required an adjournment to look into the matter. The fixing of the remuneration of the Trust Corporation came up, and it was stated that their remuneration had been fixed at the outset, when they were appointed administrators, and it was understood to be one per cent. The audit was adjourned until July 13th, to be

completed in Toronto. **A very serious fire broke out Tuesday morning about 10 o'clock on the 16th line of Zorra, about four miles from Woodstock, as a result of which the house, barn and outbuildings on the farm belonging to Mrs. Wm. Chambers, of Woodstock, and occupied by William Clark, were completely destroyed. The buildings were all large, and with most of what was in them are a total loss. The fire broke out in the barn. Right across the road is the farm of Robert and Peter Chambers, sons of the owner of the farm on which the fire broke but. The flames managed to reach the barn on this farm, and it was also consumed. What the loss will be to Mr. Clark, Mrs. Chambers and the Chambers boys it is hard to say, but it can hardly fall short of \$5,000. It is said that no insurance was carried by any of the parties affected. Mr. Clark just moved on the place this spring, it having been occupied previously by George

About 75 brick-makers, employed in five of the Hamilton yards, are on strike. The men were compelled to accept a reduction a couple of years ago, when bricks were lowered in price, and now that the price of bricks has been raised they ask for the old wages. The increase demanded is at the rate of 3 cents per thousand.

 HOW WE SHOULD FARE IN JULY AC-

July will open with fair weathen for the

nt temperatures with a brief spurt of uite cool weather immediately after the ew moon on the 7th. The yulcan storm eriod central on the 9th and blending with he Mercury period up to the 12th, will ring one of the 'heated terms' of the ummer. Moon being on the equator on he 12th, heat, low barometer, and other term conditions leading up to that date, evere electric storms are apt to culminate on and touching the same. A welcome hange to cooler weather is probable, for a rief spell behind the storms of this period. Heavy, local rains will visit narrow sectors during these storms, but empty clouds and severe bluster will be the more general

and severe bluster will be the more general rule. About the 14th to 16th will bring failing barometer and much warmer weather with tendency to local, summer storms generally. We predict that rains will be light, except in rare cases, during all the remainder of July. Threatening clouds and heavy blustering winds, with lightning and thunder, will appear more or less at the regular periods; but a general deficiency of diffused, normal rains will be the order, with local "cloud-bursts" here and there in regions contiguous to the sea coasts and nd severe bluster will be the more general with local "cloud-bursts" here and there in regions contiguous to the sea coasts and lakes. The next regular storm period will fall from the 19th to 22nd. Moon will be furthest south on the 19th and nearest the earth at her full on the 22nd. This will be a period of threatening weather, with some rain and heavy bluster. The period will reach its culmination on and touching the 22nd, about which date look for a change to cooler and more pleasant.

for a change to cooler and more pleasant weather, the same to reach most sections before the 26th. The reactionary storm days, 26th to 28th, will begin with rapid tange to much warmer in all westers promptly on the 25th, this being t 00000000000000 ate of the moon's passage over the equa or. Another depressed state of the barom ter will pass over the country during the 6th, 27th and 28th, breaking into loca inmer storms over most parts. Threateng louds with sosts of wind, lightning of thunder, will be the order during this
griod. Moderate rains will fall, of course,
many localities, but general complaint
scarcity of rainfall will be heard by

of scarcity of rainfall will be heard by the end of July. The first stages of a Vulcan storm period will be gathered in western sections as July comes to its close. That is, it will be growing warmer, barometer will be falling with increasing cloudiness and the usual conditions that precede and attend the regular storm periods. These storm conditions will work their way eastward over the continent during the first few days of August.

Summer Waists and Summer Dresses

Are the principal attractions of the store at present.

EOPLE are getting ready to go out of town; and who can enjoy a stay in the country or at the seashore without a goodly lot of Summer Waists and Skirts? Our stock of these indispensable garments is well nigh limitless—everything imaginable made on both continents is here, and, what is more, is here at prices at which it is nowhere else in London.

You'll do well to "look us over" before purchasing—for you will not only be thoroughly pleased, but you will also

save quite a bit of money on your purchase. For Wednesday we call attention to several important Special Sales of Summer Apparel, as follows:

A Skirt Sale.

Ladies' Linen Urash Skirts, Sample Shirt Waists made in the circular shape and deep hem, special 85c. Ladies' White Duck Skirts, made in the circular shape and deep hem; see them, 98c Ladies' White Pique, made up-
