

CHINESE ASK THAT PROTECTION BE GIVEN

Members of Local Society Wait Upon the Provincial Government

(From Wednesday's Daily.)
Hon. W. J. Bowser, attorney-general, who returned from Vancouver yesterday morning, was waited upon by a delegation of Chinese representing the Chinese Consolidated Benevolent society of this city, which has affiliations in Vancouver, consisting of Lee Mong Kow, Lin Bang, a representative from Vancouver and Mr. Moresby, solicitor of the association, stated that they were in receipt of a request from the Vancouver board that they call upon the provincial authorities, lay the situation in Vancouver before them and request them to take steps to protect the life and property of the Celestials of the Terminal city.

Mr. Bowser informed the delegation that he believed that the police of Vancouver were perfectly able of keeping any lawless movement in check. The riot of Saturday evening had taken the chief of police by surprise, but he had immediately taken vigorous steps to bring the matter under control. He said on Saturday night, when the mob attempted to visit Chinatown a second time, prevented them from doing, and all day Sunday and Monday he had shown that the Vancouver police were quite able to protect the Asiatic quarter.

The delegation upon these representations of Mr. Bowser expressed themselves perfectly satisfied. They were particularly anxious to know whether the rioters arrested would be prosecuted. Mr. Bowser informed them that they would be prosecuted at the next session.

Fatal Gun Accident
Toronto, Sept. 10.—Ray Corry, 18 years old, son of Dan Corry, wagon-maker, was shot in the chest this morning and is lying at the point of death. He was camping at Gravelly point ten miles from here, and while pulling a gun towards him from under the tent, the trigger caught and discharged the contents into his breast.

Great Northern Work
Fernie, B. C., Sept. 9.—The Great Northern construction camp just below town is a little city in itself, more than 20 tents having been erected to accommodate the crews. Another camp will shortly be started at the rock cut near the coke ovens. More supplies and materials are arriving daily.

LOCAL TROOPS MAY GO TO VANCOUVER

If There Is Need for Them Detachment of Garrison Will Be Sent

(From Wednesday's Daily)
Lieut.-Col. Holmes, D. O. C., has been informed by wire by the mayor of Vancouver that there was a probability of the militia being required to preserve order in that city as a result of the Japanese riots. The telegram was practically an intimation to have troops in readiness for shipment to Vancouver.

In the event of any further trouble at the local garrison will send a detachment to Vancouver to preserve law and order.

It is not thought that there will be any additional trouble. It is believed that the Vancouver police are fully able to cope with any trouble in the Terminal city.

Pain anywhere, pain in the head, painful period, Neuralgia, Colic, etc., all pains can be promptly stopped by the thoroughly safe Little Pink Candy Tablet, known by Druggists everywhere as Dr. Shoop's Headache Tablets. Pain simply means congestion—undue blood pressure at the point where the pain is felt. Dr. Shoop's Headache Tablets quickly equalize this unnatural blood pressure, and pain immediately disappears. Write Dr. Shoop, Racine, Wis., and get a free trial package. Large box 25 cents. Cyrus H. Bowser.

LEAVES TO ATTEND MCGILL UNIVERSITY

Alfred Nelson King Who Won Scholarship Will Take Advantage of It

(From Tuesday's Daily)
Albert Nelson King, the local high school student, who writing in the matriculation examinations for McGill university last spring, secured a scholarship of \$150 for two years, will leave this morning for Montreal to enter the university. King is only 18 years of age, but he is a hard and conscientious worker, and his teachers and classmates look for him to accomplish something out of the ordinary in his college term.

WILL INVESTIGATE CHINAMAN'S DEATH

Hanging at Vancouver Will Be Looked into by the Authorities

(From Wednesday's Daily)
The provincial authorities will fully investigate the death of the Chinaman who presumably suicided in South Vancouver yesterday.

The attorney-general's department with this simple representation at the inquest and the matter will be thoroughly gone into.

Hon. W. J. Bowser, who was in Vancouver at the time of the riots states that the accounts which have gone out regarding them have been greatly exaggerated.

The chief of police of Vancouver has at all times dominated the situation and had there been the slightest warning of the trouble of Saturday night he would have taken steps to prevent it.

Only one Chinaman was assaulted throughout the affair and this was the act of irresponsible parties. There was considerable damage to property, but this was the work of boys or hoodlums.

Mr. Bowser is confident that there will be no further trouble in the Terminal city.

Stomach troubles, Heart and Kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. It promptly and surprisingly relieves which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the stomach, etc.

A weak stomach, causing dyspepsia, a weak heart with palpitation or intermittent pulse, always means weak stomach nerves or weak heart nerves. Strengthen these nerves with Dr. Shoop's Restorative and see how quickly these ailments disappear.

Dr. Shoop, of Racine, Wis., will mail samples free. Write for them. A test will tell. Your health is certainly in his hands. Trial. Sold by Cyrus H. Bowser, Druggist.

Tragedy at Michel
Michel, B. C., Sept. 9.—G. Romano, a young Italian about 18 years of age, met with a fatal accident early this morning while attempting to blow out a stump near No. 8 fan house. He had placed a heavy charge of dynamite under the stump, and had turned away to reach a pile of safety, when he was struck in the back of the head by a piece of wood, being hurled by the explosion with terrific force. He was at once taken to Michel hospital but died several hours later without having regained consciousness. Coronor, Eisdell arrived on the passenger on Thursday night and an inquest will be held today.

NO COAL FAMINE ON PRAIRIES THIS YEAR
C.P.R. Divisional Superintendent Says Large Amount Has Been Distributed

(From Wednesday's Daily)
Gus Erickson, divisional superintendent of the Crown's West Pass railway, says that there is no likelihood of any suffering in the prairie towns this year on account of lack of fuel. Taught by the experience of last winter the householders, have generally speaking, already laid in their stocks of winter coal. Mr. and Mrs. Erickson have come to the coast to settle their children in school at Vancouver and are now spending a few holidays in Victoria prior to returning to East Kootenay. When seen at the Driard yesterday morning Mr. Erickson said: "I don't think there will be any fuel shortage in the prairies this year. To begin with from 20 to 25 cars of coal have been sent into that district daily all the summer. Last winter we went practically speaking, just before coming to the coast I was talking to a couple of prominent mine owners at the head of the Crow's Nest trip of investigation through Calgary and other prairie towns. They told me the cellars were full of coal everywhere. There was so much inconvenience and even suffering last winter, that the householders have learnt their lesson, and when the winter comes they will be prepared for it. The result is that there does not seem to be any likelihood of a shortage of coal for domestic purposes this winter, even if we were to have another exceptional season this year."

"It may be a different matter with the railroads. We have not a pound of reserve coal in my division. Last year I had ten thousand tons at Cranbrook. This year there is none. The policy of the railroad all the summer has been only to take what coal was absolutely needed for immediate purposes and to do everything to facilitate the movement of fuel supplies east in the meantime. Many of the mine owners, too, have been helping all they can by giving long credit on the coal selling at three and sometimes four months credit. The coal people for instance have been shipping a hundred tons a day east on 30 days' credit. The coal mines situated along the line of the Crown's West Pass road have a combined daily capacity of about 7,000 tons, though a larger tonnage may be expected as the mines are being opened up. If properly distributed this supply should meet the requirements."

Enderby High School
Enderby, B. C., Sept. 9.—The residents of the town and district who have children will be pleased to learn that a high school has been opened at Enderby. The establishing of this branch of education in the town will do much to attract home-seekers to the district, as one of the first questions asked by those seeking new homes is in reference to the educational advantages offered.

In former years those of our residents who wished to give their children a better education than that of a public school, had either to go to the expense of sending them away to distant schools, or to the expense of having them educated at home, or to be content with what could be obtained here.

H. McDonald, principal of the public school, will be in charge of the high school, which will be conducted in one of the public school rooms.

NOTED PHYSICIAN AND SCIENTIST IS VISITOR

Sir Thomas Lauder Brunton Spends Some Days in Victoria

(From Wednesday's Daily)
Sir Thomas Lauder Brunton of London, a distinguished physician and scientist of the metropolis, has spent the last few days in this city and left yesterday for Vancouver en route to the east. He is accompanied by his son, Stanford Brunton, who will enter McGill university this fall for a scientific course. Sir Thomas is a well known traveller and has been prominently identified with philanthropic movements.

In recent years he has been identified with the movement for the formation of a national league in Great Britain for physical education and improvement.

In Great Britain the need of the physical vigor is chiefly apparent in the infant mortality of the large cities. Mothers are weak and exhausted, the milk furnished is often bad; it is kept in dirty vessels, and the child takes dysentery and die by thousands.

There are many philanthropic agencies operating in the mother country, but there is a lack of cooperation among these agencies and there is considerable overlapping. What is required in the opinion of some of the gentlemen who are interested in the material advancement of the country is a national league which would supervise the work of all these agencies.

We are specially interested in the matter of physical training in the schools, but it has been made clear that all of the physical training in the schools must be under the direction of competent physicians.

Sir Lauder has made repeated visits to Canada. He was here first in 1876, when he was accompanied by William Black, the novelist. The materials for his novel, "Green Pastures in Piccadilly," were secured by Sir Lauder during this trip. Sir Lauder attended the exposition at St. Louis as the guest of the management and delivered addresses at the Science college there on the general theme of the "Physical Education of the People." In 1905 he was in South Africa with the British association, delivering an address on the subject "Climate and Health." On that occasion he was present at the opening of the Victoria bridge over the river at Victoria falls. Last year he spent considerable time in Africa.

VEHICLES PLYING FOR HIRE WILL BE TAXED

Oak Bay Council Gives Bylaw to That Effect Its Third Reading

(From Tuesday's Daily)
At a special meeting of the Oak Bay municipal council held yesterday morning, the bylaw for the licensing of automobiles, taxicabs and other vehicles plying for hire within the limits of the municipality was given its final reading. The bylaw will go into effect at once. It provides for a \$40 license fee with reference to the number of the vehicle. Owing to the fact that nearly three-quarters of the present year has passed it was decided to cut the fee for the year down to a quarter, which amounts to \$10. The owners of the vehicles will be notified to pay up immediately.

The proposed bylaw for the regulation of the waterfront on Oak and Shoal bays and the property required for municipal purposes were discussed at length, but the presentation of the petitions now in circulation among the ratepayers, will not be taken up by council. For all money by-law, a petition from the ratepayers aggregating half the assessed value of the municipality has to be presented to the council first before the bylaw can be considered.

The selection of sites for the erection of municipal stables, a pound, sheds, and at some future time, a public hall, created considerable discussion among the members of council, and eventually it was decided to leave it in the hands of the ratepayers themselves. Two properties were favored. One at the corner of Cranmore avenue and a half block west of "One Wood" near the corner of Hampshire road and will cost \$3,000. It is only one acre and a half. The other property is favored by some, both on account of its larger extent and because of its being cheaper. In addition, it is considered the better investment. The Oak Bay property has many advocates, however, who consider that it is the more central as the population of the municipality now lies.

The ratepayers will determine which site is to be purchased. When the by-law is finally passed the petitioners to the ratepayers the two properties will be named on the ballots and the ratepayers will be asked to name which property they think should be secured. On the result of this vote will depend where the new municipal buildings will be located. The members of the council considered that this was a much better system of dealing with the matter than taking it in their own hands as there is much to be said in favor of each location.

MAY GO TO HAGUE

Ottawa, Sept. 10.—The government has signified its willingness to submit to The Hague tribunal all questions regarding the rights of Canadian and United States fishermen in the waters of the Atlantic and Pacific. This is the result of despatches which have recently passed between London and Ottawa.

The American government has not signified its intention of agreeing to this proposal, but it is expected that it will, as it has already agreed to submit the Newfoundland fishery question, which resembled the Canadian dispute, to the peace tribunal.

DEEPLY INTERESTED IN REFORESTATION

Ian Macpherson of Invernesshire Looking Into Conditions Here

(From Wednesday's Daily)
Ian Macpherson, of Invernesshire, Scotland and late of Kingussie, N.B., is at present in the city. Mr. Macpherson is an authority upon forestry and yesterday he called on the chief commissioner of lands and works with a view to finding out the extent to which reforestation was practiced in the Pacific province. Conditions here are so different from those in Scotland that Mr. Macpherson has had hardly time to readjust his ideas, but he expressed great interest in the problem which the situation presents.

The chief commissioner of forestry for the Dominion government is expected to arrive in the city about the middle of this month. Mr. Macpherson trusts he will be able to accompany him prior to his return to Ontario, where, the process of reforestation is being carried on over the wide extent of northern Ontario and the Ottawa depleted by the woodman's axe.

OBITUARY NOTICE

(From Wednesday's Daily)
A well known resident of the city passed away last night in the person of Alexander McGregor, of the firm of McGregor & McKinnon, blacksmiths and carriage builders, Johnson street. The late Mr. McGregor, who was 52 years of age, had been ill for some time, so that his death did not come altogether as a surprise. Mr. McGregor was born in Nova Scotia, but came to Victoria 30 years ago, and has since made his home here, the firm being well known in the city for years.

A widow, two daughters and three children, the children, with the exception of one son who lives in Vancouver, are residents of Victoria. The late Mr. McGregor was a member of Victoria lodge, I.O.O.F., Court Vancouver, A.O.F., and also of the Companions of the Forest. The funeral will take place tomorrow afternoon at 3 o'clock from the family residence.

To check a cold quickly, get from your druggist some little Candy Cold Tablets called Preventives. Druggists everywhere are now dispensing Preventives, for they are not only safe, but decidedly certain and prompt. They are "Preventives," Quinine, no laxative, nothing harsh nor sickening. Taken at the "onset stage," they will prevent the development of Croup, Bronchitis, La Grippe, etc. Hence, name, Preventives. Good for feverish colds, coughs, etc. Trial Boxes 5 cents. Sold by Cyrus H. Bowser.

CAPT. FERRIS GIVEN PROMINENT POSITION

Has Been Appointed Assistant Superintendent of Pacific Coast S. S. Co

(From Wednesday's Daily)
Capt. Frank E. Ferris, who recently left the steamer Princess May, has proceeded to San Francisco to take the position of assistant superintendent of the Pacific Coast Steamship company. Capt. Ferris is a native son and his success in the company is welcomed by a host of friends in this city. After serving his apprenticeship at sea Capt. Ferris went to the China coast, where he served as chief officer and in command of the "Shan" line of steamers, lastly as master of the steamer Pakshan, one of the best known vessels in the China coast trade. Returning to Victoria a few years ago Capt. Ferris married Miss Cox, daughter of Charles G. Cox, of this city, and since has been serving as chief officer and pilot on some of the C. P. R. steamers.

It is not known whether Capt. Ferris will reside at San Francisco, the headquarters of the Pacific Coast Steamship company, or at Seattle. He will assist Capt. Rinder, superintendent of the Pacific Coast Steamship company, in the management of the large fleet of the San Francisco shipping concern, which has two dozen steamers and is about to secure more.

JAPANESE ARE NOT IN LEAST ALARMED

Oriental in Vancouver Confident of Ability to Take Care of Themselves

(From Wednesday's Daily)
H. B. Thomson, M. P. P., who returned yesterday from a trip to Vancouver, says that quiet reigned in the Terminal City when he left, though the Japanese were still patrolling the sections where they lived. He says that they do not seem alarmed but appear to be quite confident of their ability to take care of themselves. There are a great many Japanese in Vancouver, and many were coming in on every train from Steveston. They spoke of a parade with four thousand Japanese on the line, but this was abandoned. Mr. Thomson says there is no rioting or drunkenness among the Japanese who appear to obey the orders of their headquarters implicitly.

"One thing amazed me. The effigy of the representative of the crown was carried round the streets in the afternoon and it was probably intended to stir it up to prepare for possible serious consequences. Every body knows that there is always a gang of hoodlums ready for mischief on such occasions."

Jack—I think this bay has a long arm.

Eva—That is more than some men have.—Chicago News.

SPECIAL CONSTABLES TO GO TO VANCOUVER

Eight Men Leave Today to Assist in Maintaining Law and Order

(From Wednesday's Daily)
Eight Victoria special constables will leave on the Princess Victoria this morning for Vancouver to assist in preserving law and order in the event of any trouble following the arrival of the Asiatics on the C. P. R. steamer Montague.

The local police were asked if they could furnish 20 specials, and accordingly on the public bulletin board of an employment agency in Trunoe alley a notice calling for 20 specials was posted.

The locals did not respond to the call, however, in the measure expected. It is not, however, thought probable that the Vancouver authorities will find it necessary to press into service the provincial police.

FOLLOWED HER MOTHER'S EXAMPLE

And Kept Dr. Fowler's Extract of Wild Strawberry in the House

Mrs. W. J. Wilson, Teesler, Sask., tells of her experience in the following words: "I wish to tell you of the good I have found in Dr. Fowler's Extract of Wild Strawberry. Last summer my little girl, aged two years, was taken ill with Summer Complaint, and as my mother always kept Dr. Fowler's in the house, when I was a child, I seemed to follow her example. As I always have it also, I at once gave it to my baby as directed, and she was at once relieved, and after a couple of doses were taken was completely cured."

Dr. Fowler's Extract of Wild Strawberry imparts a healthy tone to all mucous surfaces, corrects and heals all forms of canker and counteracts all tendency to pain and inflammation, while it gives tone to the debilitated system when weakened by exhaustive discharges and fluxes of whatever nature, thus making it the best and safest remedy for Diarrhoea, Dysentery, Colic, Cramps, Pain in the Stomach, Sea Sickness, Cholera Infantum, Cholera Morbus and all Summer Complaints.

Price 35 cents. Manufactured by The T. Milburn Co., Toronto, Ont.

EXHIBITION WILL OPEN TWO WEEKS FROM TODAY

Promises to Be by All Odds the Best Ever Held West of Winnipeg

(From Tuesday's Daily)
Two weeks from today what is confidently expected to be the greatest exhibition in the history of Victoria will commence. The Victoria exhibition has long had the reputation of being the biggest and best affair of the kind west of Winnipeg, and the directors are confident that this year's exhibition will not only be in keeping with the high character of those that have gone before, but will establish a new high water mark for quality and excellence all round.

The fair will as usual extend over a period of five days, opening on Tuesday, Sept. 24, Thursday, Sept. 26, Friday, Sept. 27—Armstrong's Day, Saturday, Sept. 28—Children's Day. A catalogue of the stock entries is being prepared for distribution during the fair. When the stock are led into the judging ring in the race track enclosure in front of the grand stand they will each bear numbers corresponding to numbers in the catalogue, so that the spectators will be enabled to distinguish not only the names and addresses of the exhibitors but the different breeds of stock.

Arrangements are about complete for the exhibit in the women's department and any intending exhibitors may be assured of their exhibits being properly cared for at the fair. The directors extend a cordial invitation to all women to exhibit in this department.

A letter has been received from J. A. Turner, of Balgownie stock farm, Calgary, to the effect that he will bring down a Palace car of imported Clydesdales and hackneys. Mr. Turner is well known as one of the largest importers of these classes of horses in the Dominion and anyone wishing to improve his stock should make it a point of attending Victoria's exhibition, as Mr. Turner's stock alone will be worth the trip.

The details of the "big" or rather little, baby show, are being arranged, but so far nobody has come forward and volunteered to act as judge. The committee are anxious to have one, carries with it certain disadvantages, and the necessary individual with the requisite amount of tact, resourcefulness, ability, coolness, courage, decision, and other qualities of the like, which a judge of a babyshow is supposed to possess, has not been discovered as yet. The prize for the contest is a \$25 Columbia gramophone, donated by Fletcher Bros., music dealers, of Government street, for the best looking baby under 18 months of age, at the exhibition. Donating mothers and fond fathers are given notice that the competition will be held on the afternoon of Thursday, Citizens' Day, in the band stand upstairs in the main hall.

Port-of-Spain, Sept. 10.—Yellow fever has disappeared from this port. Clean bills of health are now issued to departing steamers.

Skeena River Hatchery
(From Wednesday's Daily)
Thomas Whitwell, officer in charge of the Skeena River hatchery, came over on the Princess Victoria last night and will be in town a few days before he returns to again take charge of the hatchery. Mr. Whitwell had instructions to secure some sockeye salmon as early as possible for exhibition at the Westminster fair. He brought down over 100,000 eggs in the eyed stage, which he secured on August 6, and transferred them over to the hatchery in charge of Bon Accord on the Fraser river to be cared for there until required for the exhibition. The weather up north is so far this year, and all the rivers are very low and difficult to navigate either by river boats or canoes.

A Nursing Sister
Ottawa, Sept. 10.—Miss Emma P. Kense, daughter of E. J. B. Pense, of Kensington, Ont., has been gazetted nursing sister of the army medical corps, and at present will be stationed at the Westminster fair. He
