Orders are filled by us in place orders as far ahead as possible.

Our Office is connected with the N. B. Telephone by two separate lines. Incoming Prompts Attention. Office hours—7 A. M. to 6 P. M.

FARMERS MEET AT DALHOUSIE

Organization Delayed Because of Absence Through Illness of Advertised Speakers

Dalhousie, June 26.—A meeting was held on Monday afternoon in the Court House to discuss organizing a branch of the United Farmers of New Brunswick, and the meeting was adjourned.

Among those present were—John Jamieson, Rufus Hicks, Wm. Thompson, Dalhousie Junction; Wm. McNeish, Geo. McNeish, John Nowlan, St. John's, Wm. McNeish, Rankin Evans, Councillor John Dickie, Point La Poudre; Wm. McKinnon, James Wright, John McKinnon, Dundas; Hugh Archibald, Peter McKinnon, Thos. Dundas, Shannon Vale; James C. Miller, Summerside; Wm. Murphy, Eel River; Hon. C. H. LaBelle, Sheriff Thos. Craig, St. Blanchard, Arthur Miller, Dalhousie.

C. Cook, Vice President for Restigouche County of the Farmers and Dairyman's Association of New Brunswick was present and acted as chairman of the meeting. In view of the unavoidable absence of the speakers the meeting considered the idea of appointing a committee of three farmers to take up the question of organization with the promoters of the present movement. Mr. Cook, the chairman spoke at some length, and made a splendid impression on the meeting. Among other things he said that in the past prices for farm products were made by others. Today the farmers if properly organized would have the fixing of prices on what they raised. In Ontario and in the western provinces beneficial results had already been achieved due to the active work done by the Grain Growers Association, etc. His desire was to see the farmers of Restigouche County join hands with the farmers of other counties in New Brunswick, and stand together for furtherance of their own interests. The farmers if united could make and break government.

Hon. C. H. LaBelle spoke briefly. He was not a farmer. He was present as an Ex. Minister of Agriculture, to throw out any suggestion his past experience had enabled him to do. He very strongly advised the progressive farmers, who were present at the meeting, to appoint a good committee to act in case of any emergency. The great war was making great changes in our country. Canadian farmers had brought credit to Canada in supplying foodstuffs for our allies, and our future depended a great deal on agriculture.

Upon resolution moved by Walter Glover and seconded by John Nowlan, and several others Rufus Hicks, Robert Archibald and James C. Miller were appointed a committee to confer with C. L. Smith, of Woodstock, (N. B.) president of United Farmers of New Brunswick, and R. McKinnon of Winnipeg, Secretary of the Canadian Council of Agriculture, etc.

REGISTRATION DAY AT CAMPBELLTON

Results Show Citizens Registered Promptly—Campbellton Growing

Saturday, June 22nd was registration day, and owing to the fact that most of our citizens had not waited until the last day, there was very little rush on.

During all of last week various Registrars worked in their offices and were busy. On Saturday registration took place at the Grammar School, where the Registrars and teachers as assistants were on hand, but there was no rush.

The total number registered was 2912. Of these 1445 were males and 1467 females.

One of the Registrars went carefully over the cards and found that there were 2328 children under 16 years of age reported on the cards, which makes Campbellton's population 5240 according to this registration.

Of course some people may have registered here who do not reside here, but the same applies to Campbellton citizens who registered out of town.

LACK OF LABOR DELAYED WORK

Roads Now Being Put in Good Shape—Much Rebuilding Under Way.

Owing to the scarcity of labor, the ordinary repairs to the highways which should have been begun before early in May, had to be postponed until after seeding had been completed by the farmers.

The steel for the Armstrong bridge in Restigouche County has arrived and erection will begin within a few days.

Work on highways already is under way in the following sections of the province: St. Andrews to St. George, Charlotte; St. George to Lepreau, Charlotte; and McAdam to Harvey, York; Marsh Road, St. John; Coverdale Road, Albert; Nova Scotia border to Sackville, Westmorland; Kouchibouguac Swamp, Kent; Barnaby to Rogersville, Northumberland; Eel River Bar to Dalhousie, Restigouche; Campbellton to Dalhousie, Restigouche.

The department has in contemplation work upon the following sections of highway: North Lake Road, York; Spruce Lake Road, St. John; Leger's Corner to Fox Creek, Westmorland; Newcastle to Chatham, Northumberland; main road along the Nashwaak River, north of Marysville, York. This work will depend entirely on the labor supply.

Half a dozen permanent structures now are under construction and in all cases the contractors are complaining of the scarcity of labor and the delay which is causing in the work.

HEAVY RAIN FLOODS COUNTRY

Rivers and Brooks Bank High and Low Ground Covered With Water.

Saturday afternoon rain began to fall, the wind blowing gently from the east. As the night progressed the fury of the storm increased until a high wind was blowing and rain was falling in torrents. This continued all Saturday night, Sunday and Sunday night with calm spells.

In town the streets were flooded, but the property owners on the east side of Minto Street suffered most. The surface sewer became plugged and the street was flooded at some points to a depth of three feet. The water entered Geo. G. McKenzie's & Co's. basement and destroyed a quantity of goods and at Dr. Price's residence did some damage. Town employees removed the obstruction to the sewer about noon and the street was dry by night.

The rain was general throughout this section and the rivers and brooks are at flood levels but very little damage has been reported.

STEAMER DAMAGED BADLY BY FIRE

Capt. Allard's Tug Had a Narrow Escape at Carleton last Week.

The towing steamer Grande Ligne, Captain Allard, arrived here on Thursday from Dalhousie. She sailed Saturday, and caught fire that night while lying at Carleton. The fire broke out in the coal bunkers and spread quickly to the gallery, where four members of the crew were sleeping, the men having a narrow escape. This delayed the boat two or three days. She called at Burnt Church for a pilot, and no regular pilot being available, Mr. Wm. Anderson volunteered for duty and guided her safely to the Miramichi Foundry wharf. She will be hauled out for repairs, and will have in tow, on her return trip, the sidewheel steam saw 'boat' has been built by the Miramichi Foundry for the P.Q. Lumber Co., of Dalhousie. Capt. Allard estimates the damage to his steamer by the fire at \$3000.—World.

RIDE A BICYCLE

Ivanhoe Bicycle \$50.
75% of bicycles used in town, are Ivanhoes, follow their cases, they are guaranteed for the year. Buy early at year's price, \$40 while our stock lasts. New price will be \$50.

COMPLETE STOCK OF SUPPLIES ALWAYS ON HAND

AGENT FOR VICTOR AND CECILIAN GRAMOPHONES AND RECORDS.

CENTRAL BOOK STORE.

Why Bonds Are Demanded of Students Now Entering Normal School

The recent decision of the Provincial Board of Education to require a bond of one hundred dollars from student teachers in attendance at the Normal School guaranteeing that after they have received their licenses they will give three years of teaching service in the Province before going elsewhere and teaching in some other province, has met with some criticism, the charges of which are that the circumstances are not thoroughly understood.

Premier Foster in view of this fact requested a statement from Dr. Carter, the Chief Superintendent of Education, to the board, in order to secure a minimum of service.

"The supply of teachers is at present not up to the demand, and the outlook for a supply in the future is far from promising. Many country districts find it impossible to procure licensed teachers, though up to the present school year our Normal School has been taxed to capacity.

"In order to provide relief it has been deemed advisable to lower the age of Normal School entrance by one year, and require the first three years of teaching service to be given to this Province.

"An increasing number of teachers leaves the Province each year without teaching a day after completing their Normal training.

"There has been for many years a moral obligation imposed upon each teacher to refund to the Province Twenty Dollars if he failed to give three years' service. Scarcely anything has been received from this source. We pay a maximum of Twenty-Four Dollars travelling expenses to each student attending Normal School.

"Our teachers are enticed to the West by the offer of larger salaries, and this Province, as one of the original partners of Confederation and therefore entitled to a share of school lands of an estimated potential value of One Hundred Million Dollars, is contributing a share of the money which enables these Provinces to take away our best instructors.

"The cost of educating and training teachers for other provinces without any return, is more than we can well afford. Any teacher who does not intend to give us the three least valuable years of his teaching experience, would better, I think, not seek his training here, but go to the province in which he intends to work, for the same.

"The amount of the bond is not very large and I feel sure that any intended teacher will have no difficulty in obtaining a satisfactory surety. I hope that it will not be necessary in any case to exact the penalty. The chief purpose to be served will be to prevent teachers from training here and going elsewhere without giving some return."
