and promised to serve its interests to the best of his ability. If his head was not quite as free from hair as some of those present, he would endeaver to make up the deficiency by serving them well. It was a well-known fact that the most intellectual wein-known rack that the most intellectual men of the land were bald, and he trusted that the influence of the society would place its members in the position they ought to occupy in the respect of the general public. The committee will report at the next meet-ing, which will be held two weeks hence. The question of appointing a standard of baldness by which the eligibility of candi-dates for membership sheuld be decided

ing. which will be held two weeks hence. The question of appointing a standard of baldness by which the eligibility of cardi-dates for membership sheuld be decided upon was next taken up. Some claimed that if the society were to have a large membership, the standard sheuld not be placed very high, and that men who are moderately bald should be admitted. This was demurred against by others, who con-Oanada was 14,666, and in 1883 this had been increased to 98,687 The products of the Canadian fisheries during the first year of Confederation amounted to four millions in provide the Society depended largely upon the balances of its members. This matter was which was swelled to seventeen millions in coughs and colds, but diseases of a far graver acture like Pneumonia and Chronic Lung which Sir Charles called stanting, was the balances of Consumption, are also arrested.

not give much of it away, and by the time a son of his, to whom the bulk of his fortune FRED. will go, is as old as he now is, this sum would It is estimated that there are now in the United States 350,000 manufacturing establishments, employing 6,000,000 workmen and \$4,500,000,090 capital, and that the product is worth \$8,000,000,000 a year: \$2,000, 000.000 more than that of Great Britain. A grand wedding in India is remarkable for many things, but no feature of it is more extraordinary than the universal hospitality by which it is attended. At the wedding of THOMAS W. SMITH the Rao of Outch 84,000 people were fed on the first day, on the second 87,000 and on the A neighbour of ours lost a valuable English, Scotch and Canadian recently, it is supposed from bots. If he had used 25 cents worth of Sherulan's Cavalry Condition Powders he would have been driving his pretty Uhestnut to-day. Sorry for you, Doctor. These powders are immensely valuable. ENGLISH, The people have to "stand" a good deal on railroad trains, but there is at least some chance of relief. A bill has been introduced that it shall be unlawful to collect fare on any conveyance in the United States when engers are unable to secure a seat.

Although the main building of the world's exposition in New Orleans is the largest ever erected in the United States it being 1375 feet by 900 feet, yet it is now thought naces sary to construct another immense building-1000 feet by 400-for the reception of Gov-ernment, State and agricultural exhibits. From 100,000 to 150,000 lbs. of butter sub

himself, no member of the Cabinst would create such a vacancy. But he can be of un-doubted service to Canada in England, in the exalted position of High Commissioner, and his sanvices, although lost to public life here for the present, are transferred to a wider and more influential arena. Sir Charles was ban-quetted at Ottawa, last Thursday, and on the 22nd inst., the twenty-ninth anaiversary of his entrance into public life, his constituents stitutes, generally known as "oleomargarin." though a very large proportion of them are not what is scientifically so termed, are sold in Boston every week. This will continue to be the case just as long as so large a proportion of our receipts of genuine butter ranges from inferior to nasty.

A theatre manager has been explaining why it is that actresses retain their maiden names after they are married. He says that 22nd inst., the twenty-links and versary or his entrance into public life, his constituents in Oumberland, are to entertais him in a simi-lar way.
