### HENSEL'S NEW RECORD.

Namath's 10 mile Race Lowered by Over 2 min.—On Oct. 28, 1893, Hensel, a Canadian, started at 4:45 p.m. at Rosedale yesterday in a trial for the 25-mile Canadian bicycle record. The track was heavy and the weather cold. After going one lap his tire was punctured and he gave up the attempt.

Then Hensel, "the village blacksmith," set out in an attempt to lower Namath's 10-mile record of 30:28, made two years ago. He succeeded in reducing the mark by over two minutes, and considering the untoward conditions, his performance was a wonderful one. The time at each mile was as follows:

Miles.	Min.	Sec.	Min.	Sec.
1	6	45	0	15
2	6	45	0	15
3	6	45	0	15
4	6	45	0	15
5	6	45	0	15
6	6	45	0	15
7	6	45	0	15
8	6	45	0	15
9	6	45	0	15
10	6	45	0	15

The Springfield team was beaten by Hyslop, Robertson and Carman. This morning at 10 o'clock Carman will start in another attempt to make a new 25-mile Canadian record.

### HAMILTON OR QUEEN'S?

Can the Students Take the Tigers?—How they'll Line Up. The Hamilton Tigers went through the city last evening on their way to Kingston. Owing to the stiff face demanded by the G.R. only the team and a few extra men went along. Captain Barney Dewar still holds out strong hopes for victory. The men looked in the pink of condition at the Union station, and every man was going down to play the game of his life. Of course, Queen's are the favorites, as they have proved themselves almost invincible on their own grounds. The teams will be:

Hamilton: Back, Ryckman, halfback, Turner, F. Martin, Southam, quarterback, Lyle, wing, Nelson, fullback, Giesey, center, K. Dewar, Logan, Laidlaw, forward, Dewar (captain), Macdonald, center, Brown, halfback, Morrison.

### The Intermediate Match.

Osgoode Hall's champion Intermediate team play in London today. The result will determine who is entitled to call themselves Intermediate champions for the next year. The Cockneys have practically a senior fifteen who are ideally strong players. Besides, they have practiced steadily together this fall and have knocked out Fetters and St. Catharines in the preliminary rounds. The Legalsites engaged in all the passing tactics that have made their senior fifteen famous. It will be an interesting battle with the chances in favor of the Toronto team.

### FOURTH POLICE HAND-TO-HAND.

Fifty-three Cracked Heads in a Vienna Socialist Row.—VIENNA, Nov. 3.—German Liberals met in a public hall to-day to discuss the party's political program for the year. Only persons who were invited were admitted. The proceedings had hardly begun when 800 Socialists broke in through the doors and marched down the aisles shouting for universal suffrage. A dozen policemen who were called from the street, and the Socialists to leave the hall, but without effect. A police company was summoned and they charged with drawn sabres. Most of the German Liberals had left by this time, and the Socialists refused to go. After a fight of six quarters they were driven out. Forty-five Socialists and eight policemen were injured.

### Exhibition of Water Colors.

Mr. G. Brunsch, A. B. C. has now an excellent collection of 45 water colors on exhibition at Matthews Bay & Co.'s, 95 Yonge-street. All day yesterday a constant stream of visitors came to inspect the work of this favorite and talented artist. Mr. Brunsch has never exhibited better work than Nos. 1, 2, 5, 7, and 29 of the present exhibition.

"A Fjord in the North of Norway," is an excellent picture in every way. In the foreground there are two immense, jagged, capped mountains, with the sun shining through the fjord. The purple on the mountains and the deep blue of the water patches that stand out on their sides are well treated, indeed. No. 5, "The Monarch of the Sea," is a very bold treatment of the famous Perce Rock off the Fjord coast. It is a view of the end of the rock with boat and figures in the foreground. "Mid Rising of the River," a good marine and landscape scene in Muskoka, shows a great deal of life. "Shadow River," another Muskoka scene, is an almost perfect water view. No. 20, another view of the same scene, shows this beautiful river clad in all the glory of deep, rich, autumn tints. The water is of a wonderful transparency, in which reflected trees seem to live. The collection, which as a whole is a really good one, will be sold by private sale between now and the sixteenth of the present month.

### PROHIBITION AND WINE MAKING.

A Growing Canadian Industry Would Be Kept by Prohibition—The Dominion Colonist.

The meetings of the Prohibition Commission came to a close after 6 o'clock yesterday. In the morning Mr. Spence continued his testimony. He condemned the present license system as being most imperfect. He treated at length on the condition of the liquor traffic in the Northwest, which he considered bad. He also took up considerable time in giving the causes of the repeal of the Prohibition laws of these years were in any sense new, though some were certainly ingenious. As for instance, that politicians should be so anxious to read newspaper clippings and again when Sir Joseph Hicks informed him that he had been so severely and again when the evidence collected from the medical men of the city was disallowed. Mr. Spence, called down, once for attempting to read newspaper clippings and again when Sir Joseph Hicks informed him that he had been so severely and again when the evidence collected from the medical men of the city was disallowed.

### FINED \$15 EACH.

It Will Cost the Six Varsity Students Exactly \$90 For Their Hallowe'en Frolic.

The Registrar called the six men charged by the council with destroying the University's property on the night of Oct 31 into his office separately yesterday morning and informed them of his refusal to pay the fine. Each one, the innocent and most guilty alike, was fined \$15. On refusal to pay the fine the registrar gave notice of further consideration.

This action met with the approval of the student body and led to the sending of a message up before the Literary Society.

It was the general opinion that the authorities exceeded their powers and the students say they will stand by their unfortunate ones and aid them in their resistance to the fine.

In the meantime a number of those wounded by the police are collecting evidence with the intention of taking action against the alleged offending policemen.

### WILL GOIN STANDARD DOLLARS.

Orders Sent to the U.S. Mint to Reissue the Coinage of Standard Silver Dollars.

WASHINGTON, Nov. 3.—Important action was taken by the Treasury Department today in regard to silver. Orders were sent to the superintendent of the United States mints at San Francisco and New Orleans to resume the coinage, suspended some time ago, of standard silver dollars. This action is taken under authority of sections of the Sherman law of 1890.

It is for the purpose of utilizing the large quantity of silver bullion which is held in the Treasury Department to issue standard silver dollars in exchange for the Treasury's silver certificates.

This action will give the United States Treasury a supply of about \$200,000,000 of standard silver dollars. It is estimated that the Treasury Department, at the other mints become clear of gold coinage, to have them coin silver and thus increase the coinage from 3,500,000 to 4,000,000 per month. This coinage is so much clear gain to the United States Treasury, and it is estimated all at once it would increase the balance by \$33,000,000. The amount of silver saved to coinage is 140,000,000 ounces.
