ing 1 per cent in limos central. Are closing hour the tone was firmer and higher prices prevailed.

In New York the temper of the market at the opening was feverish, especially for the industrial stocks, whichlywere fractionally lower, led by Sugar, in which there was some realizing on yesterday's spurt. Tobacco and Lead were the strongest of the industrials. The buying of both is very confident and the insiders in Lead predict a further substantial rise in the common. Distillers opened at from 25 to 25% and sold off still further on the decision rendered yesterday by Judge Gibbons. Around 25 the picking up of stock by the room to cover and buying by insiders started a rally of 1 per cent. The railroad list was strong and almost without exception higher, due principally to the covering of a large amount of shorts, Stories that insiders were selling Mo.P. were denied and Mr. Sage was quoted as saying that he was a large buyer of it. Points are outto buy R.I. The short interest in it is said to be very large and the earnings of late very tatisfactory. In other directions prices held steady and converts to the bull side are daily and hourly being made. The condition of the sterling exchange market is such as to permit shipments of gold to Paris at a profit, but we hear of no arrangements having been perfected and it is probable that none will go out.
