The spirit of neighborhood improvement fills the very air. The glad, bright colors of spring have replaced the somber hues of winter. Grass is green —flowers are springing into glorious bloom. Nature is providing a beautiful setting. Is your house in harmony—or do the fresh-looking surroundings only serve to emphasize its dullness? Does it complete the picture —is it well painted?

Now's the time of all times to dress up your home in fresh, new colors. The first essential in home improvement is good paint, and the paint that you can depend upon to be good is

HIGH STANDARD LIQUID · PAINT

You take no chances, you know exactly what the contents of every can of "High Standard" better the surface of your building a paint that does not fade, that holds tight to the surface in perfectly protecting coats—that fails will do. Forty years of experience and countless exposure tests have made this knowledge only by gradual wear and leaves a good surface Chemical analysis of the raw materfor repainting

ials and thorough machine mixing insure a You get in "High Standard" a paint that It actually costs less to use this better paint and get its perfect protection. It goes so much far-

ther-and it lasts so much longer on the building works easier, and spreads farther than cheaper that its use is true economy. Ask us for an -a paint that hides better and protects estimate on your paint requirements.

Saved by a Dream. Hints conveyed by dreams are occasionally worth heeding, says the Lonferin when in Paris dreamed that he was in a hearse on the way to the cemetery. A few days later, as he was about to enter the elevator of a certain hotel, he was startled to find that the attendant was a double of the driver of the hearse in his dream. He thereupon promptly left the elevator and walked upstairs. The car ascended without him, but as it neared the top something in the mechanism gave way, and the passengers met their

#### TESTING A FREIGHT CAR.

Shower Baths Are Used For Detecting

Shower baths for freight cars? Certainly. Treating the cars to a good bath every now and then is the method which railroads have devised to prevent having to pay for freight damaged while in transit by water leaking through the car roofs.

To detect a leak in the roof of a freight car before it has caused any damage to the goods inside is no easy matter. Previous to the introduction of the shower baths for cars railroads frequently had to pay heavy bills for damage caused by roofs which were supposedly in the best of condition,

To overcome this difficulty on several large railroad systems every car is given at regular intervals a severe test for leaks by means of shower baths, The bathing apparatus is rigged over a track along which the car is run at

slow speed. Enormous volumes of water are poured upon the car and with such force that water will find its way inside if there is any fault in the roof, sheathing or ends. As soon as the car emerges from the bath inspectors examine it carefully

and mark with chalk any signs of A car thus marked is sent to the shop to be made waterprof. Before it

is sent out to resume its work it is subjected to a second shower bath to determine whether the repairs hays been satisfactorily made.

#### MODERN GREEKS.

Those at Home Outnumbered by Those

In Other Countries. What and who are these modern Greeks? The most skeptical investigators admit that in most of them is some blood transmitted from ancient Greece and that there is a proportion of Greek descent in Greece about equal to that of Anglo-Saxon descent in America. For the rest the modern Greeks are either Albanian or Slav or

Besides the Greeks in Greece there are other Greeks who far outnumber them. They are found on all the coasts of the Ottoman empire. Crete and the other islands until very lately under Turkish sovereignty have no other inhabitants important in numbers. They are numerous in Asia Minor, in Syria and in Egypt.
While domiciled elsewhere they re

main passionate in devotion to the Greece they style Hellas, the modern kingdom, whose people are called Hellenes, and, being masters of commerce and finance, many of them have gained enormous fortunes, from which they nonr great sums into Athens particularly, but into Greece generally, for public buildings and endowments .-From "The Balkans—A Laboratory of History," by William Milligan Sloane.

Cleopatra and Poisons Cleopatra assembled all kinds of deadly poisons and began experiments with all the criminals sentenced to death in order to see if the action of the poison was painless. As she observed that those which acted quickly brought death with great pain and that the milder poisons worked slowly, she began experiments with poisonous animals, setting them upon other animals in her presence. This she did daily and noted that among them all only the bite of a certain poisonous snake evoked without tremor or pain a certain numbness and invincible desire for sleep so that the victims gradually died with a light sweat upon the face and gradual darkening of the senses, and when one tried to awaken them or to brighten them were as unwilling as those who are in a deep sleep .- Plu-

## In The Spring

Soldiers on the Battlefield.

"There is no greater patriot—not even the soldier on the battlefield—than the man who battles with the stubborn soil and makes it yield for the support of the nations." We have in Canada a power of dominion in our resources that will make the power that comes with strategy, brute force and armanent, insignificant brute force and armament, insignificant.
If we know what we have and use it wisely,
we will make others dependent upon us.
The stomach is the center of the body

The stomach is the center of the body from which radiates our vitality, strenusity, our fighting strength. A healthy stomach turns the food we eat into nourishment for the blood stream and the nerves. Dr. Pierce's Golden Medical Discovery refreshes and tones up the stomach walls. Removes the poisonous gases from the system.

The first day you start to take this reliable medicine, impure germs and accumulations begin to separate in the blood and are then expelled through the liver, bowels and kidneys.

Get Dr. Pierce's Golden Medical Discrete

Get Dr. Pierce's Golden Medical Discovery to-day from any medicine dealer; it is a powerful blood purifier and tonic.

Depend upon this grand remedy to give you the kind of blood that makes the skin clear, the mind alert, the vision keener and puts ambition and energy into the entire body. Contains neither alcohol nor narcotics. Its ingredients are made public and printed on wrapper. It's a pure alterative extract made with glycerine from native roots and herbs.

Sold by medicine dealers in liquid or
