OBITUARY
Mrs. Louisa Bishop.
At Bear River, on Dec. 12th, at the home of her daughter, Mrs. George W. Croscup, there passed away one of earth's choicest spirits, in the person of Mrs. Louisa Bishop, widow of the late Judson Bishop, of Lawrence town, who predeceased her sixty years ago. For many years she resided in her native town with her only son, T. G. Bishop, but for several years past, during which she was a partial invalid, has spent much of her time with her daughter, Mrs. Croscup. For eight months she had been confined to her bed, bearing her prolonged illness with such wonderful Christian patience and cheerfulness that her many friends loved to visit her bedside, and always carried away the influence that emanated from her presence. Though in her 90th year her mental faculties and keenness of perception remained unimpaired to the last, and she fell asleep as a weary child, "Leaning her head on Jesus' breast, and breathed her life out sweetly there."

She is survived by her three children, T. G. Bishop, Lawrence town; Mrs. G. W. Croscup, and Mrs. Alpheus Chute, Bear River; all of whom faithfully ministered to the needs of a devoted mother.
The funeral service at Bear River was conducted by Rev. Carl Mack, B.D., who, in tender and fitting words, paid a high tribute to the beautiful life of the departed. The Methodist choir sang "Face to Face," and "The Christian's Good Night," both being favorites of the deceased. The remains were then taken to her old home in Lawrence town for interment, accompanied by her three children. A service at the home of her son was conducted by three of her former pastors, Revs. H. G. Mellick, J. H. Balcom, and A. H. Whitman, pastor of Lawrence town Baptist Church. The latter spoke very comforting words to the sorrowing friends from "The Shepherd Psalm." Mrs. Edgar Schaffner sang with deep feeling "The Homeland." Then her four grand sons very tenderly carried the body to its last resting place in Valley West Cemetery.

THE BUSINESS MAN'S CHIEF ASSET

Published by authority of the Medical Society of Nova Scotia.
In an address recently delivered before the London Rotary Club, Sir Napier Burnett said that hitherto we have been prone to regard health merely as a negation of antitheses of disease. But health is a definite entity—a positive state that can be preserved and maintained. When we hear the statement that health can be purchased, we are to understand that the knowledge of how to maintain the chemical balance in the human body is available if we will but apply it. The old proverb that "a man is as old as his arteries" should be brought up to date, and expressed as "a man's arteries are as old as he cares to make them."

In regard to the health of the business man, carrying heavy responsibilities and organizing large industries, there are few more tragic experiences in life, than when suddenly pulled up by the refusal of the human machine to function correctly, he is told by the doctor that there must be three or six months cessation from all work, and that he can never again carry on at the old pace and live. The writer then takes up some of the common warnings: (1) Insomnia. (2) Dyspepsia. (3) Shortness of breath. (4) Individual Health Limitations. The answer is periodic medical examinations. To recognize your Medical Man as your advisor in health as well as your physician in Disease is a commercial proposition well worthy of consideration. He next cites results of the experience of a large Life Insurance Company in annual stock taking of health in which the Company, on a particular group of Policy Holders, had its principal returned and made a gain of about 200 per cent. on its investment during a period of approximately five years.

The business man's concern in the health of his employees has three aspects: (a) the legislative or compulsory aspect which considers workmen's compensation acts, (b) voluntary effort as "welfare schemes," and (c) the health of the worker—an important factor in production. "Slacking" is not infrequently due to defective physical health. Systematic and scientific medical examinations are pleaded as the economic doctrine of making better use of the knowledge we now possess.

BIG BOOM IN PULP INDUSTRY AT MURRAY

Judging from present indications at Murray, and to the fact that the Oxford Paper Co. are daily importing enormous quantities of supplies, there is every prospect in sight that an unprecedented boom in the pulp industry will prevail here during the coming season, and for many years to come, as the supply of raw material available in this country has been estimated by engineers who have made a survey of the territory to be up in several million cord figures and there is no fear of the supply becoming exhausted as the second wood crop begins to grow as soon as the first is cut, which in the course of twenty years is of a size fit for pulp-wood.

The Oxford Paper Co. has a claim which will produce wood enough to keep a pulp mill in operation continually for fifty years to come and if the company would extend their operations to other parts of their claim, where the virgin forest is yet in its primeval state, it would yield a supply of wood to keep two mills in operation for a similar period of time.

There may be "bumps" to overcome, but the outlook on the whole is cheerful.

RACE TRACK BETTING, 1922.

(Dr. J. G. Shearer, S. S. Council of Canada.)

Another betting season on the race tracks has come and gone and the results as far as Ontario is concerned are published by the Government. The total money wagered in the seasons of 1920, 1921 and 1922, on the eight tracks in Ontario, are:—
1920—\$42,164,000.
1921—\$56,775,596.
1922—\$44,244,402.

We have not the figures for Quebec which in 1920 were \$11,000,000 and for 1921, \$10,852,000. They are probably not much different for 1922. This remark will apply also to the other Provinces. The total there fore, wagered in Canada this year will probably be about \$65,000,000 which will be \$12,000,000 less than for 1921 the whole difference being in Ontario. This constitutes a serious handicap on legitimate business. In addition to this, however, there is all the money wagered illegally with handbook men in shops, stores, poolrooms, hotels, factories, etc., which no one can know, but which is estimated to be probably as much as that wagered legally on the race tracks. It continues throughout the year, the bets being placed on races anywhere on the Continent. In winter bets are placed on races in the South and in Mexico, where that is the favorite racing season, whereas legalized betting in Canada is limited to fourteen days in summer on each track each year.

But why is there a drop of \$12,000,000 in Ontario this year as compared with last? It is mainly due to two causes. First, the 5% tax placed by the Ontario Government on all moneys wagered which netted \$2,212,220 in addition to taxes on tickets of admission (amusement tax) and the tax of \$7,500 per day on mile tracks, and \$2,500 on half mile tracks. Second and chiefly, the splendid and insistent daily campaign kept up throughout the five months racing season by the Toronto Globe, the Detroit News, (which reaches the bulk of the patrons of the three Windsor tracks) and other papers. The two papers named deserve special credit and of these the Globe's campaign was the ablest and more persistent; editorials on the subject appearing at least once a week if not oftener.

Every day the figures were given of the total the betting public paid out, the total take-off the Jockey Clubs took in taxes, and the total that the betting public lost. It was persistent ly argued that in consequence there was an absolute certainty of serious loss to the wagers who usually did not on the average get back more than three-fifths on what they paid out.

Further, these papers published from day to day cases of defalcation, broken homes, divorces, trials, convictions and penitentiary sentences, resulting from the frenzy of betting on the part of great numbers. There were interviews also with business men who complained of bad debts, credit instead of cash buying, and falling off in purchasing, resulting from extensive wagering.

As a consequence we believe that public opinion in Ontario is aroused as never before against this iniquitous vice and the legalization of the business of promoting and cultivating it.

Parliament will be challenged again early in the coming session. We shall see with what result. Two amendments will be asked to the Gambling Sections of the Criminal Code: one that the business of betting by pari-mutal machines, book-making and pool-selling be made criminal as it already is everywhere except on race tracks during the racing meets; the other that the publication of betting odds, tips, and other information that can be and is used in betting with hand-book men be also made a crime. When this is done, racing will stand on its own merits, and not on a criminal foundation as at present.

OBITUARY

Mr. Hugh G. Bauld
The death took place at Upper Granville on Dec. 28th, of Mr. Hugh G. Bauld, son of Mr. and Mrs. Wm. C. Bauld, of Halifax.

The deceased came to Granville a few months ago and has been in declining health so the end was not unexpected. He leaves to mourn their loss, parents, wife, nee Miss Mildred Manthorne, of Bridgetown, one child, and brother, Mr. Stewart Bauld, of Upper Granville. The remains were forwarded to Halifax for interment on Tuesday. The late Mr. Bauld was an architectural draughtsman and an artist who produced some very nice paintings. His decease at the early age of twenty-six years is generally regretted by a large circle of friends and acquaintances.

Carefully chosen pictures are being supplied for the school by the Smith's Cove Institute.
Immediately after milking remove the milk to a separate room from the barn to be cooled and strained.

SHOOTING MOOSE OUT OF SEASON

Two men were arrested last week for shooting moose out of season. The men were tried before County Stipendiary MacKay on Tuesday on the charge of having moose-meat illegally in their possession. Henry Scragg was fined \$50 and costs, or imprisonment of one day per dollar and Clifford Milner was fined \$100 and costs or similar imprisonment. Both were also remanded on the further charge of killing moose out of season.—Spectator.
