

Manitoba wheat contains more food value than any other. It makes the most wholesome, most nutritious Bread and Biscuits. But it contains so much Gluten (Nourishment) that the dough won't rise properly, and the bread is both heavy and gray.

That is the reason, too, why Manitoba wheat flour does not yield good pastry.

Ontario wheat does not give as nutritious bread as Manitoba wheat. But what it lacks in food properties, it equals by the tasty lightness of its Biscuits, Cake and Pastry. For Pastry, alone, Ontario flour is better than any other flour made of a single variety of wheat.

But there is no need to go to the expense of buying two flours.

Beaver Flour

is both a bread flour and a pastry flour. It is a blend of Ontario Fall Wheat and Manitoba Spring Wheat. It contains just the right proportion of each to make the most nutritious Bread—the whitest Bread—and the lightest, most delicious Pastry of all kinds.

Beaver Flour also yields MORE Bread, etc., to the barrel, than any other.

No matter what other flour you are using, you are not getting the best results because you are not using the best flour.

Order a trial sack of Beaver Flour. The first baking will prove its quality.

FROM THE SUNNY SOUTH.

TO THE MONITOR-SENTINEL.

I have been thinking of dear old Bear River to-day, and wonder if you have space for a few poor lines which I cannot resist the temptation to write.

I got a letter from home to-day and it stated how cold it had been down there and I thought of you shivering down there and we here basking in the warm sunshine of the sunny south, where one can look around and see the beautiful, tall, long leaf pines, oaks, willows, and the holly with its pretty red berries, and then at the shrubs, so tropical looking, and the honey-suckle vines and the pretty yellow jasmine, and roses and violets all in bloom. And as the spicy odor of the pines mingles with the fragrance of the roses and honey-suckle, I think of the dear old homeland and can almost taste that delicious new cider and the spicy mince pies, and really I don't know which is the best place after all. But this is a beautiful place, the climate so mild, never really below forty in temperature on an average the whole winter long; never any snow, and the warm sun and the beautiful moonlight nights, so light it seems like day, all these delights go to make up one grand joy of living in the sunny south land.

Then again to drive out in the country in the afternoon near sunset and look across the cotton fields so white with cotton, we see the daisies picking cotton and hear them singing the old plantation songs as they hurry to get through their day's work, all happy though weary with the day's labor. It is a pretty sight to the lover of nature. The beautiful sunsets here I think even rival those of dear old Nova Scotia. Just to watch the sun go down behind those beautiful tall pines is a sight one will not soon forget.

There are many things I would like to speak of that would be new to a great many at home, but I am afraid I shall take up too much space in your paper. I want, however, to speak of the south in general; it is a very prosperous, beautiful country (God's country, they call it). Fruits grow here in abundance, peaches, pears, figs, grapes and apples. But the apples are very poor. I think the southern people would open their eyes wide if they could take one trip up the Valley in apple time in Nova Scotia. But really one can get everything here one could possibly wish for. We are open to all the markets of the north and the south also England, and the southern people still hold to the old sentiment that England and English hold the best in the world. But I think also that the southern people would do well to learn some of the activity of the Canadians, for as a rule, the southern people like plenty of rest and don't like to push things along as the Canadians do. It is mostly the northern people that are the ambitious ones out here. One lady from Minnesota has a very nice vegetable garden, the year round, and is of course always at work. A native son here one day, if she intended to work all the winter in the garden, raising vegetables. She answered, "Yes, I intend to put one crop in after another, don't you?" "No," he said, "one crop is all we can manage for it's a heap of trouble." You all will get mighty tired I reckon.

And so a great many do not grasp their opportunities, but where you find in a southerner a sense of business, he is a live one.

291 Heats in 2.30.

Or Better on Maritime Provinces Tracks in 1907.

The turf season in the Maritime Provinces ranks as one of the most successful in years, not only from a racing but a breeder's standpoint. The list compiled by the Recorder shows 36 horses either owned in the Province or those from abroad racing on Maritime Provinces tracks have earned the 2.30 list, and eight of these the 2.20 list. No less than 291 heats were trotted or paced in 2.30 or better, 78 of which were in 2.30 or faster. The best records in the Province this season were as follows:—

TROTTING.
Fastest—Estill Boy 2.19 1/2 b. g. by Potential 2.18 1/2
Fastest mare—Daisy DeWitt b. m. by Red Lake 2.20 1/2
Fastest new performer—Otto Oaks blk. g. by Fair Oaks 2.21
Fastest stallion—Dr. Ferron br. h. by Ferron 2.22 1/2

PACING.
Fastest—Torrance Queen 2.06 1/2 b. m. by Valour 2.13 1/2
Fastest gelding—Northern Spy m. g. by Vassar 2.14 1/2
Fastest new performer—Miss Letha g. m. by Burline 2.15 1/2
Fastest Stallion—Basilio br. s. by Distinct 2.16 1/2
Wilkes 2.17 1/2

The fastest miles of the year were by Torrance Queen, owned by C. F. DeWitt, Bridgetown, at Chatham, when she paced in 2.15, 2.12 1/2, 2.12. Strange to say, it was the only race she won this season. Simmasie, owned by R. H. Edwards and F. Boutlier, Halifax, has beaten her in their first meeting at Springhill, and won from her after Chatham at Fredericton and Halifax, lowering the track record at the former place. The free-for-all, however, were the most disappointing events of the racing season. There were but seven during the year, six of these were won by Simmasie. Her total \$1325 winnings were the largest amount won by any horse on the Maritime Provinces' tracks.

The gains gelding, Northern Spy, which raced in the New Brunswick circuit, was the fastest gelding on the provincial turf with his mile in 2.15 1/2 at Fredericton. The fastest gelding owned in the Province was Burline, by Ontario, owned by A. B. Kitchens, Fredericton, which reduced his record at Chatham to 2.16 1/2. The sensational performer of the year was the green mare Miss Letha, owned by W. K. Allen, Fredericton. Starting without a record, she won seven out of nine races (being beaten only by Northern Spy), winning \$1200 in prizes and obtaining a record of 2.16 1/2.

J. C. Larder, Sydney, owned the fastest stallion of the year, Basilio, with his record of 2.19 1/2 in his fourth and fifth heats in the Sydney race in August. Estill Boy, the champion trotter, owned by J. R. Cowan, Springhill, still maintained his position. He had to meet speedy pacers on every occasion, but his one heat in 2.18 1/2, which he won at Moncton, was the fastest of the season.

Daisy DeWitt, owned by R. A. Corbett, Halifax, which has been retired from the turf for a season, returned for one race at Halifax, and finished her place as the fastest trotting mare, which she held in 1905, and still further lowered her record to 2.20 1/2.

The fastest green trotter of the season was the Springhill gelding Otto Oaks, owned by G. W. McKnight, Springhill. His mile at Halifax was 2.21. Dr. Ferron, handled by C. Henry, Chatham, had the fastest mile for the season among the trotting stallions, 2.22 1/2.

In these days, with so many pacers, it is pleasing to note that one of the greatest turf performers, and the biggest money winner of the season was a green trotter—the grey mare Marguerite, 2.22 1/2, owned by Gallagher Bros., Woodstock. She won nine races in the Province, lost but two heats, and won \$1275 in money, but she also won a race just across the border, in Maine, bringing her winnings to \$1575, the largest amount won by any Provincial horse during the season.

One of the largest winners of the year was Peachesina, 2.18 1/2 by Betterson, owned by J. B. Mitchell, Halifax. She started in nine races, winning five, was twice second, twice third, and won \$1177.50 in purses, and did not have to lower her record.

The exact amounts won by horses are not always available, but are given as published: Among the horses winning over \$500 were: Lady Ringo, 2.14 1/2, \$1,000; Laura Merrill, 2.17 1/2, \$820; Burline, 2.16 1/2, \$650; Dr. Band 2.15 1/2, \$625; Northern Spy, 2.15 1/2, \$550; Major Wilkes, 2.18 1/2, \$545; Dr. Ferron, 2.22 1/2, \$530; Buchanan, 2.23, \$510; Miss Kadams, 2.19 1/2, \$505. Don A., 2.19 1/2, won \$850 on provincial tracks, and increased this amount on Main tracks—Recorder.

Stanfield's Underwear

(Chapter I)

A Talk by the Maker to the Wearer.

Stanfield's Underwear is made of the best wool that grows on the best wool-bearing sheep in the world—the long, silky-fibred Nova Scotia wool.

The founder of the Stanfield mills did more than anyone else to develop the wool industry throughout the Maritime Provinces. For half a century, the farmers of New Brunswick, Nova Scotia and Prince Edward Island have saved their best wool for the Stanfields—first for C. E. Stanfield—and now for his sons, John and Frank, the President and Treasurer of Stanfields Limited.

The wear of a garment depends on the quality of wool from which it is made. Underwear may be PURE WOOL, and ALL WOOL—and still shrink, ravel and wear out in a single season. Because the underwear is not made of good wool in the first place.

There are seven grades of wool in the fleece when clipped from Nova Scotia sheep. Only the first three grades of this best wool are used in making Stanfield's Unshrinkable Underwear for men and women.

There are no weak spots in the fibre to break in the garments.

There can be no unraveling, because every stitch is locked.

Garments can't shrink, because of our perfected process of treating the wool BEFORE garments are woven, thus insuring absolutely Unshrinkable Underwear.

Stanfield's Underwear is right from start to finish. It is planned right, made right and wears right.

In all sizes from 22 to 70 inch chest measure. In three winter weights—RED label for light weight—BLUE label for medium weight—BLACK label for heavy weight.

Your dealer probably has all sizes and weights in stock. If not, he can easily get whatever you wish.
