IMPORTANT
Auction Sale
OF
VALUABLE
Mineral Lands

The undersigned has received instruction from the Montreal Plumbago Mining Company to sell by public auction at the Russell House, Ottawa, on

THURSDAY, the 18th day of June,

At the hour of 2.30 o'clock p.m., the Plumbago Mine and the entire property of the Company, comprising the following valuable mineral lands:—

1st, Lot 28, in the 6th range, Township of Buckingham, County of Ottawa, containing 100 acres of land in addition to the salina of the lake.

2nd, north half of Lot 23, in the 5th range of said Township of Buckingham, containing 100 acres.

3rd, nine acres of Lot No. 25, in 5th range of Buckingham, with water privilege thereto appertaining, being site of company's mill dam, etc.

The Company's mill was destroyed by fire but the mill dam remains uninjured, and there are on the property several houses, sheds, ect., built for various purposes, when mining operations were carried on. Mica has been found in quantities, and the lands are in the phosphate region, and phosphates have been found though no phosphate mining work has been done. As to the quality of the plumbago it has been extensively used in the manufacture of crucibles, lubricating leads and stove polish and given unbounded satisfaction. This is established by the experience of consumers and by a certificate from the celebrated Battersea Crucible Works, London, a copy of which is open for inspection.

There are unrivalled facilities for transport to and from the mine by the Ottawa River and C. P. R. Railway.

All that is required to amass a colossal fortune is a little enterprise and capital as any person taking the trouble to examine those mines will say for themselves.

For further information apply to the Secretary of the company, G. B. Cramp, Esq., No. 13 Hospital street, Montreal, or to the undersigned.

I. B. TACKABERRY,
Auctioneer.
Ottawa.

PHOSPHATE LANDS
FOR SALE.

The Laurentian Phosphate Mining Company offers for sale upon advantageous terms the mining rights upon the whole or part of their valuable phosphate lands in the Township of Templeton, containing in all 1,200 acres.

Part of the property has been developed and proved to be unsurpassed in richness.

Most favorable reports by the late Henry G. Vennor, F.G.S., and other experts, may be seen upon application to the undersigned.

The principal shareholders now residing abroad, is the reason for wishing to realize and close up the business of the company.

To parties purchasing the whole of the company's interest, their Letters Patent would be transferred, thus enabling the purchasers to carry on the business as a company without loss of time or further expense.

For further particulars apply to

J. M. BROWNING,
29 St. James street, Montreal.

Wanted.

A second-hand "Ingersoll" Rock Drill, three inch cylinder, with couplings, &c. Any person having one for sale will please communicate with the publishers of the CANADIAN MINING REVIEW.

Rock and Ore Breakers or Crushers.
