

Miscellaneous.

A VALUABLE DRUG IN TREATMENT OF WINTER COUGH. Many are the single agents employed in the treatment of that persistent bronchial ailment known as "winter cough," and divers are the combinations made to suit each individual case. Agents proposed and lauded as "specifics" in this disease have signally failed to maintain the title. Among the new remedies named, but not brought forward as a specific at all, is the *Eugenia Chequen*, or Chekan, a native Chilian drug. For a complete description of the agent, botanically and therapeutically, we refer our readers to the Pharmacology of the Newer Materia Medica, and a brochure issued by Parke, Davis & Co., Detroit. That it is a valuable addition to our list of agents for the treatment of bronchitis and its allied disorders, is evident to the writer. It has made a good record so far. It is worthy of a careful investigation and trial. Dr. Wm. Murrell, of Royal Hospital for Diseases of Chest, London, basing his opinion on notes of fifteen cases of chronic bronchitis in which he employed Chekan, says: "In all cases the patient

obtained some benefit, and in most instances the relief was very marked." The Fluid Extract has a pleasant balsamic odor and taste. It is highly resinous, hence not miscible with water. It mixes nicely with glycerin and syrups, in which it should be administered. We advise a testing of its merits.

-*Sanative Medicine.* —

CHRONIC HEADACHE:

R Arsenate of sodium gr. ss.
Sulphate of atropine gr. ss.
Extract of aconite gr. viiss.
Powd. cinnamon, q. s.

Mix and make into thirty pills. Sig.—From one to four pills daily. DR. ZETTLER, in *La Riforma Medica*.

DIPHTHERIA:

R Carbolic acid gtts. viij.
Liq. sulp. iron ʒij to ʒiij.
Glycerine ʒi.

M. Sig.—Apply to fauces with camel's hair brush two or three times daily.—DR. J. LEWIS SMITH.

[OVER.

FOR INVALIDS.—Delicious Dishes made in a few minutes at a trifling cost.

WYETH'S LIQUID RENNET.

The convenience and nicety of this article over the former troublesome way of preparing Slip, Junket and Frugolae, will recommend it at once to all who use it.

WYETH'S RENNET makes the lightest and most grateful diet for Invalids and Children. Milk contains every element of the body's constitution; when coagulated with Rennet, it is always light and easy of digestion, and supports the system with the least possible excitement. Price, 25 cents per bottle.

FERMENTATIVE DYSPEPSIA.

WYETH'S COMPRESSED TABLETS. * BISMUTH SUBGALLATE, 5 GRAINS.

DR. AUSTIN FLINT says:—"In nearly every case of functional dyspepsia that has come under my observation within the last ten months, I have begun the treatment by giving five grains of bismuth subgallate, either before or after each meal. I find it almost a specific in cases of purely functional dyspepsia with flatulence. Price, per bottle of 100, \$1.00.

WYETH'S COMP. SYRUP WHITE PINE.

A most valuable remedy in chronic or recent pulmonary affections of the throat or lungs, relieving obstinate coughs, by promoting expectoration—and serving as a calumative in all bronchial or laryngeal troubles.

Each fluid ounce represents: White Pine Bark, 30 grs.; Wild Cherry Bark, 30 grs.; Spikenard, 4 grs.; Balm Gilead Buds, 4 grs.; Blood Root, 2 grs.; Sassafras Bark, 2 grs.; Morph. Sulph 3-16 gr.; Chloroform, 4 mins.

Wyeth's Glycerole Chloride of Iron.

(NON-ALCOHOLIC.)

This preparation, while retaining all the virtues of the Tincture of Iron Chloride, so essential in many cases, in which no other salt of Iron (the Hydrochloric Acid itself being most valuable) can be substituted to insure the results desired, is absolutely free from the objections hitherto urged against that medicament, being non-irritant, and it will prove invaluable in cases where Iron is indicated. It has no harmful action upon the enamel of the teeth, even after long exposure. Each fluid ounce represents 21 minims Tinct. Chlor. of Iron.
