

ate Range

Newest Steel Range

OVEN—The oven is large and
re, made in three sizes with
oven door which forms an oven
when open. The inside oven
as well as the oven door is
enitized, making a bright, clean
interior. The construction is such
it is impossible for ashes to leak
ugh into the oven.

FIRE BOX—

The construction
of the fire box is
such that the
parts which are
exposed to the
fire are made
exceptionally
strong and sim-
ple, and the du-
plex grates can
be taken out
and replaced
through the side
door without dis-
turbng the rest
of the fire box.

"AERATED"

—This Range,
as is the case
with all Souve-
nirs, is fitted with
the celebrated

ME SOUVENIR

which fresh air is constantly being heated and admitted into the
ties up the chimney. This particular "AERATED" feature always
oven sweet and wholesome.
