Mercantile Summary.

M. D. MALLETT & Co., a small Montreal dry goods concern, has compromised liabilities of about \$800 at the rate of 20 cents on the dollar.

—N. Z. Belanger, a bottler, has filed consent to assign. Small liabilities, and altogether local.

EAST ANGUS, which is on the Q.C.R.R., not far east of Sherbrooke, although scarce more than a dozen years old, boasts of a model school, three churches, four general stores and a first-class hotel. The principal industry in the place is that of the Royal Paper Mill Co., comprising paper mill, pulp mill and saw mill, all of which are at present in operation day and night, and give employment to about 250 hands.

A TINSMITH of St. Ferdinand de Halifax, Que., named D. M. Poirier, is reported an absentee, and A. Lamarche, of Montreal, has been appointed provisional guardian, with authority to prepare an inventory.—W. B. Finley, photographer, Sherbrooke, Que., is embarrassed, and is seeking an extension of time.—Israel Koeingsberg, of Eastman, Que., lately reported insolvent, is before his creditors with an offer of 25 cents, cash.

THE condition of the spring wheat crop in the United States indicates something not far from a full or normal crop, the average for the country being 99.9 per cent. The average for the year 1895 was 97.8. The averages for the principal spring wheat States are as follows: Minnesota, 92; Wisconsin, 110; Iowa, 103; Nebraska, 105; South Dakota, 111; North Dakota, 103; Washington, 86; Oregon, 95.

MR. W. H. WYMAN, manager of the Corticelli Silk Co., St. Johns, Que., who has been away some weeks on a trip to the Pacific Coast, was in Victoria at the time of the fatal bridge accident in that city on the 26th ult. In fact, he narrowly escaped being one of the victims. It appears that he and four friends attempted to board the ill-fated car before it reached the bridge, but as it was so full they hired a hack and drove rapidly across the bridge. The car followed, and with what dreadful result is well known.

NOTHING was as notable in the proceedings of the Brewers' National Convention the other day as the address of President Eberts, in which he made the statement that as a result of mechanical improvement and scientific research the trade had fully succeeded in making a drink quite as refreshing as the beers of old and less intoxicating, and that in point of fact "the percentage of alcohol in American beers is growing less from year to year." Such a statement from such an authoritative source is highly significant, not only as showing the drift of the trade, but the trend of American taste; and it presents a moral, as well as a social, side not to be overlooked.—*Phil. Record.*

THE Dunlop Pneumatic Tire Company, Limited, is the outcome of the purchase of the Pneumatic Tire Company, Limited, and it also acquires the Clincher patents and the Westwood Rim patents. The share capital is £4,000,000, divided into 1,000,000 preference, 1,000,000 ordinary, and 2,000,000 deferred shares of £1 each. There are also £1,000,000 four per cent. mortgage debentures of £100 each. The prospectus gives the assets of the Pneumatic Tire Company, without including goodwill, at £898,706, and it is pointed out that the profits for a little more than six months of the current year amount to £215,985. These figures we take from the London *Economist*. They are significant of the growth and extent of the bicycle business.
