HALL'S VEGETABLE SICILIAN  
Hair Renewer.

Seldom does a popular remedy win such a strong hold upon the public confidence as has HALL'S HAIR RENEWER. The cases in which it has accomplished a complete restoration of color to the hair, and vigorous health to the scalp, are innumerable. Old people like it for its wonderful power to restore to their whitening locks their original color and beauty. Middle-aged people like it because it prevents them from getting bald, keeps dandruff away, and makes the hair grow thick and strong. Young ladies like it as a dressing because it gives the hair a beautiful glossy lustre, and enables them to dress it in whatever form they wish. Thus it is the favorite of all, and it has become so simply because it disappoints no one.

**BE SURE** to include in your list of PERIODICALS FOR 1886 some, if not all, of the following, for they are the very best and are found in the homes of all cultured people.

**Nineteenth Century.** No other journal numbers among its contributors so many brilliant thinkers and profound scholars. The most important changes in the thought of the times are submitted to searching criticism and review.

**Contemporary Review.** The monthly contributions, by eminent writers, describing the contemporary life and thought of the leading nations of the world, give it an unique position among other Journals, presenting an epitome of all that best deserves attention in the world of thought and action.

**Fortnightly Review.** The greatest exponent of radicalism in England. Its Editors and Contributors have ever been noted as leaders of progress, and have formed a school of advanced thinkers, which may justly be cited as the most powerful factor of reform in the British Empire and elsewhere.

**British Quarterly.** While discussing all branches of modern thought, is particularly devoted to the consideration of the more recent theories in Theology and Philosophy. Its articles are characterized by a keenly critical spirit, and for fulness of treatment and justness of criticism it stands alone, in its special field, among the periodicals of the world.

**Edinburgh Review.** Numbers among its contributors the greatest names that have moulded English thought for the past eighty years. While its policy admits the discussion of all questions, its conservatism is tempered with a liberalism that marks it as the INDEPENDENT REVIEW of the world.

**Quarterly Review.** Its reviews cover all the leading issues of the day, and embrace the latest discoveries in Science, in History, and in Archaeology. Much space is devoted to ecclesiastical history and matters connected with the Church, thus making the Review invaluable to the clerical student, as well as of great interest to the general reader.

**Westminster Review.** Is notable for the latitude of its theological views, many of the latest advances of modern theories in theology having received in its pages their first authoritative support. A distinctive feature of this Review is its "INDEPENDENT SECTION," containing articles advocating views at variance with those of its editors.

**Blackwood's Magazine.** Is the leading and most popular magazine of Great Britain. The tone of its articles, be they fiction, incidents of travel, critical or political essays, is unexceptionable, rendering it most desirable for the Home Circle.

All of above are printed line for line—page for page—with English Editions, but in handier form.

**Shakespeariana.** While aiming to furnish a recognized medium for the interchange of views among Shakespearian scholars, and to afford the student the fullest information relative to Shakespear's art, life and writings, SHAKESPEARIANA is specially designed to extend the influence of Shakespeare as a popular educator, and to stimulate the study of his works in our colleges and institutions of learning.

WHAT IS CATARRH?

From the Mail (Can.) Dec. 15.  
Catarrh is a mucous-purulent discharge caused by the presence and development of the vegetable parasite amoeba in the internal lining membrane of the nose. This parasite is only developed under favourable circumstances, and these are:—Morbid state of the blood, as the blighted corpuscle of uric acid, the germ poison of syphilis, mercury, toxocoma, from the retention of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the membrane. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat; up the Eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness, usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.  
Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue.  
Some time since a well-known physician of forty years' standing, after much experimenting, succeeded in discovering which necessary combination of ingredients which never fail in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease, should, without delay, communicate with the business managers.

What the Rev. E. B. Stevenson, B.A., a clergyman of the London Conference of the Methodist Church of Canada, has to say in regard to A. H. Dixon & Son's New Treatment for Catarrh.

Oakland, Ont., Canada, March 17, '85.  
Messrs. A. H. Dixon & Son:  
DEAR SIRS,—Yours of the 13th instant to hand. It seems almost too good to be true that I am cured of Catarrh, but I know that I am. I have had no return of the disease, and never felt better in my life. I have tried so many things for Catarrh, suffered so much and for so many years, that is hard for me to realize that I am really better.  
I consider that mine was a very bad case; it was aggravated and chronic, involving the throat as well as the nasal passages, and I thought I would require the three treatments, but I feel fully cured by the two sent me, and I am thankful that I was ever induced to send to you.  
You are at liberty to use this letter stating that I have been cured at two treatments, and I shall gladly recommend your remedy to some of my friends who are sufferers.  
Yours, with many thanks,  
REV. E. B. STEVENSON.
