

The Co-chairmen propose to the Government of India that it should convene in Delhi the International Commission for Supervision and Control in Laos. They have in view that the Commission will discuss the question of the cease-fire in Laos and will present an appropriate report to the Co-chairmen, who will consider the Commission's report and give it directions on going to Laos to carry out the work of controlling the cease-fire.

The Co-chairmen in their message on the cease-fire in Laos called upon the population of Laos to co-operate with the International Commission for Supervision and Control in Laos when it arrives in the country on their instructions and to render it assistance in exercising supervision and control over the cease-fire.

The Co-chairmen are sending a copy of this message to the other two members of the International Commission for Supervision and Control in Laos -- the Governments of the Polish People's Republic and of Canada.

The Minister for Foreign
Affairs of the Union of Soviet
Socialist Republics:
A. Gromyko.

The Minister for Foreign
Affairs of Great Britain:
Home.
