**Hon. John Munro (Minister of National Health and Welfare):** 1. The federal government has recently approved a grant under the National Welfare Grants program for a demonstration project to the Conseil de Développement Social du Nord-Ouest Québécois Incorporated. The grant for the current fiscal year is \$22,265. The first phase of the project will last eighteen months and it is anticipated the total financial requirement will be approximately \$100,000. The actual amounts will depend on budgetary needs.

[Mr. Stanbury.]

2. The members of this organization are agencies involved in the health and welfare field in the Northwest region of Quebec and interested individuals. This Department does not have a list of the membership of this organization.

3. This Department is not aware of any federal public servant who is a member of the organization. However, it is possible that some interested federal public servant may have taken out an individual membership of his own. If this is so, it would be in the capacity of a private citizen and not in any official capacity as a public servant.
