Read what well-known people say about it.

DR. P. MEREDITH, of Cincinnati, says:—About one year ago took a cold, which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter became so much reduced that I was confined to bed. The disease was attended with cold chills and night sweats. A diarrhoea set in. My friends thought I was in the last stages of consumption and could not possibly get well; was recommended to try Allen's Lung Balsam, the formula was shown, which induced me to give it a trial, and will only add that the cough is entirely cured, and I am now able to attend to my profession as usual."

ALBERT, N.B., December, 12th, 1887.

Three doses of Allen's Lung Balsam, at intervals of half an hour, relieved me of a very distressing and obstinate cough.

I have been similarly afflicted on previous occasions, but never found anything to check it so suddenly and effectually.
