

THOUGHTS ON EMIGRATION.

S I R,

IT is currently reported and believed that the Mission with which you are charged, particularly relates to Emigration, and that you are directed to make enquiries, under the authority of Government, respecting the Capabilities which His Majesty's Provinces in North America are likely to afford, for the maintenance and settlement of Emigrants.

If I am right in my conjecture, no apology is necessary for addressing you, as I hold it the duty of every one, and especially of every lover of the soil, when a question of such importance is in agitation, to throw any light he can on the subject, even at the risk of exposing the nakedness of the
Land.
